Vascular Flora of Illinois Robert H. Mohlenbrock,2002-10-29 The first flora of Illinois was prepared in 1846 by Dr Samuel B Mead a physician from Augusta Illinois Between 1846 and 1963 several people published plant lists and floras for various parts of Illinois In 1975 Robert H Mohlenbrock published his first edition of Guide to the Vascular Flora of Illinois followed by a second expanded and revised edition in 1986 This latest Vascular Flora of Illinois includes over thirty two hundred species an increase of almost three hundred since 1986 In addition for the first time taxa below the rank of species are recognized and may be identified by keys Investigating seldom visited patches of prairies wetlands and forested canyons Mohlenbrock has added several native species to this flora And while there has been extensive exploration for plants Mohlenbrock has also researched the herbaria in an attempt to verify previous reports of records of Illinois plants Because of a reinterpretation of existing genera the number of genera of Illinois plants has increased markedly Recent biosystematic techniques have begun to substantiate the genera that botanists such as John Kunkel Small Per Axel Rydberg and Edmund C Greene proposed nearly a century ago The sequence of groups in this book is ferns conifers and flowering plants with dicotyledons given before monocotyledons Within each group the families are arranged alphabetically as are the genera within each family and the species within each genus For each taxon recognized in this book Mohlenbrock gives a common name if one is generally used in Illinois He follows this by an indication of flowering time for flowering plants and of spore production time for ferns and their relatives He also provides a habitat statement and a general comment on distribution in Illinois for each taxon Synonyms for some other scientific names used previously for a taxon appear in italics This book contains indexes both for common names and for family and genus names      **Effects of Wetlands Protection Regulations on Small Business** United States. Congress. House. Committee on Small Business,1991      Filicineae, Gymnospermae and Other Monocots Excluding Cyperaceae Robert H. Mohlenbrock,2006-03-24 The second in a series of four illustrated guides to identifying

aquatic and standing water plants in the central Midwest this convenient reference volume includes descriptions nomenclature ecological information and identification keys to plants in all of the monocot families except sedges which are covered in the first volume in the series that are found in Kentucky except for the Cumberland region Ohio Indiana Illinois Iowa Missouri Kansas and Nebraska Monocots covered in this volume include ferns conifers grasses rushes orchids duckweeds irises sweet flags arrowheads aroids flowering rushes pipeworts frog bits arrowgrasses naiads pickerelweeds pondweeds bur reeds cattails and yellow eyed grasses Robert H Mohlenbrock includes three types of plants submergents those that spend their entire lives with their vegetative parts either completely submerged or at least floating on the water s surface emergents which are typically rooted underwater with their vegetative parts standing out of water and a third category of plants that live most of their lives out of water but which may live in water at least three months a year With taxa arranged alphabetically the volume is well organized and easy to use In addition basic synonymy description distribution comments and line drawings show the habits and distinguishing features for each plant Habitat and nomenclatural notes are also listed as are the official wetland designations given by the U S Fish and Wildlife Service Filicineae Gymnospermae and Other Monocots Excluding Cyperaceae is a useful standard reference for state and federal employees who deal with both aquatic and wetland plants and environmental conservation and mitigation issues It is furthermore an essential guide for students and instructors in college and university courses focusing on the identification of aquatic and wetland plants
