A Fugitive Truth:

The Unvarnished Truth Ann Fabian, 2000 A study of the plain unvarnished tales of unschooled beggars criminals prisoners and ex slaves in the 19th century Fabian shows how these works illuminate debates over who had the cultural authority to tell and sell their own stories She gives us the origins of that curious American genre of selling one's tale of woe to make a buck ala Oprah et al

A Fugitive Truth Dana Cameron, **Truth** ,1880 **The Biblical Truth about America's Death Penalty** Dale S. Recinella,2015-12-01 While secular support for capital punishment in America seems to be waning religious conservatives particularly in the Bible belt remain staunch advocates of the death penalty citing biblical law and practice to defend government sanctioned killing Dale S Recinella compares biblical teaching about the death penalty including such passages as eye for eye tooth for tooth life for life with the nation s current system of capital punishment and offers persuasive arguments for a faith based moratorium on and eventual abolition of executions Framing his careful and incisive analysis as a legal brief to those who believe the Bible mandates the ultimate punishment the author addresses two critical areas of inquiry what do the scriptures tell us about who is deserving of death and who has the authority to kill and what do they tell us about the required standards for execution and the plight of victims families Recinella s examination of the Hebrew Torah or Christian Pentateuch and the Talmud reveals that the biblical death penalty was not a simple system of swift retribution but a complex and practical set of laws that guided capital courts established under the Sanhedrin His scrutiny of these texts the Christian doctrine of atonement and Romans 13 in the Pauline Epistles draws parallels between the traditional biblical arguments used in favor of capital punishment and those used as the basis for pro slavery positions in the nineteenth century Demonstrating that both approaches are unsubstantiated in biblical terms Recinella debunks the accepted religious reasoning for support of the death penalty and shows instead that the Bible s strict conditions for sanctioning execution are at odds with the arbitrary ways in which capital punishment is administered in the United States He provides convincing evidence that a sentence of death in today s criminal justice system in fact fails to meet both the Bible s exacting procedural requirements and its strict limitations on judicial authority By providing actual scriptural language and foundation to counter the position that biblical truth justifies a pro death penalty stance this thoughtful solidly researched and well reasoned work will give pause to religious fundamentalists and challenge them to rethink their strongly held views on capital punishment

Humble Servant of Truth Margaret O'Reilly, Entering the world with a burning desire for knowledge Thomas Aquinas set out on a quest for truth that forced him into captivity His thirst for truth never wavered Known today among many as the most brilliant light of the Church Aquinas was a Catholic priest and a Doctor of the Church His synthesis of Aristotle's philosophy with Christianity significantly influenced Western thought and solidified his legacy as one of the greatest philosophers of the Western world Over his lifetime Aquinas wrote many Eucharistic hymns some of which are to this day included in the Church's liturgy His theological insight and natural reason make him an ideal model teacher for those pursuing Catholic priesthood Today Saint Thomas is often depicted with a writing quill or an open book proving that the search for knowledge and truth forever lives within his name **The Ethics of Governance** Shashi Motilal, Keya Maitra, Prakriti Prajapati, 2021-09-07 The Ethics of Governance Moral Limits of Policy Decisions offers a toolbox drawn from normative ethics which finds applications in public governance primarily focusing on policy making and executive action It includes ethical concepts and principles culled from different philosophical traditions ranging from more familiar Western theories to non Western ethical perspectives thereby providing a truly global decolonized and expanded normative lens on issues of governance The book takes a unique and original approach it demonstrates the use of the ethical toolbox in the context of actual examples of governance challenges Taking three major case studies each representing an aspect of human human and or human nature and or human animal relationship the book attempts to show the significance of public practical reasoning in policy decisions with the aim of arriving at reasonable responses Acknowledging the challenges that policy makers often face the book highlights the fact that policy making is hardly an exercise yielding a black or white solution rather it involves finding the most reasonable normative outcome course of action in a given situation especially employing an expanded understanding of values including well being sustainability interdependence and community This effort that helps bridge the gap between ethical theorists and policy practitioners exemplifies the necessary role of engaged philosophy in public governance In the major case studies Boxes offer facts and figures along with pertinent ethical questions that have been raised and discussed Aiming to aid the engagement of a diverse audience including non philosophy readers each chapter also includes Boxes containing examples shorter case studies at a glance charts and tables with comprehensive

ethical tools for a quick recap **The Truth about the Night** Martyn Burke, 2006 As an astronomer Michael Braden's job is to protect a giant telescope from the elements at the legendary Palomar Observatory in southern California. But one night in a midnight storm a young woman is found on the mountain smeared with blood and wearing only a flimsy party dress. She is mute or so it appears. Michael knows he must shield her too. And as Elena's story begins to reveal itself stretching tautly from Havana to Mexico and back to Palomar Michael becomes engulfed in a firestorm both psychological and physical where the past relentlessly pursues the present in a dark race for love, redemption and a new life. Set both on the border between California and Mexico where waves of immigrants and criminals overwhelm the mountain with kidnapping, secret identities and murder and in the small Canadian town of Penetanguishene *The Truth About the Night* beautifully reflects another kind of violence where entire galaxies must be destroyed to create new life and order. A stunning blend of superb storytelling and cinematic dialogue with a powerful exploration of the fragile truths that connect us all Martyn Burke delivers a novel that is as provocative as it is entertaining.

Mistakes of Reason John Hayden Woods, 2005-01-01 Over a distinguished academic career the Canadian philosopher and scholar John Woods has written on a rich variety of topics central to contemporary philosophy. These include the history and philosophy of logic, deviant logics, inductive and abductive reasoning, informal reasoning, fallacy theory, the logic of fiction, epistemology and abortion and euthanasia. Not only has Woods' work been significant in itself it has also stimulated others working in these fields. *Mistakes of Reason* is a tribute to Woods and contains twenty-six new essays by leading Canadian and international philosophers. The essays are accompanied by commentaries by Woods himself creating a unique dialogue between Woods and his colleagues. Editors Kent A. Peacock and Andrew D. Irvine have grouped the works under the themes of Reality, Knowledge, Logic and Language, Reasoning and Values. The essays evaluate Woods' work and celebrate the generous contribution that he has made to Canada's intellectual development over the past forty years.

The Banner of Truth, 1869 Conceptions of Truth Wolfgang Künne, 2003-06-05 Truth is one of the most debated topics in philosophy. Wolfgang Künne presents a comprehensive critical examination of all major theories. *Conceptions of Truth* is organized around a flow chart comprising sixteen key questions ranging from 'Is truth a property?' to 'Is truth epistemically constrained?' Künne expounds and engages with the ideas of many thinkers from Aristotle and the Stoics to Continental analytic philosophers like Bolzano, Brentano and Kotarbinski to such leading figures in current debates as Dummett, Putnam, Wright and Horwich. He explains many important distinctions between varieties of correspondence, for example between different conceptions of making true between various kinds of eternalism and temporalism which have so far been neglected in the literature. Künne argues that it is possible to give a satisfactory, modest account of truth without invoking problematic notions like correspondence, fact or meaning. And he offers a novel argument to support the realist claim that truth outruns justifiability. The clarity of exposition and the wealth of examples will make *Conceptions of Truth* an invaluable and stimulating guide for advanced students and scholars in metaphysics, epistemology and the philosophy of
