history in its entirety from the founding down to his own day He was not out to reduce political thought to a single element such as economics alone his aim was to encompass the whole of modern social science The political science of the liberal progressive tradition has roots and assumptions that were born in this period and nurtured by scholars such as Merriam The progressive tradition in general and Merriam in particular interpreted the rise of a new science of politics that would be required for the liberal progressive world view he represented His work stands at a momentous fork in the road two great traditions of how American democracy should be understood interpreted and analyzed parted company and afterward each went their separate ways These traditions are represented respectively by the founders and the liberal progressives There was much at stake in these academic debates though the consequences were not entirely foreseen at the time An overview of the authors works and general source material covered in *History of American Political Theories* is impressive Merriam viewed the study of American democracy as an eclectic activity embracing the broadest definition of the social sciences with particular emphasis on psychology Such a transformation required that the social sciences be grouped as a whole rather than fragmented into separate and distinct academic departments Charles Merriam 1874 1953 was professor of political science at the University of Chicago He served on the Research Committee on Social Trends under President Herbert Hoover and on the National Resources Planning Board under President Franklin D Roosevelt He is known as the father of the behavioral movement in political science and believed that theories of political process needed to be linked to practical political activity Sidney A Pearson Jr is professor emeritus of political science at Radford University He is the series editor of *Library of Liberal Thought* at Transaction Publishers In addition he also wrote new introductions for *Presidential Leadership* *The New Democracy* and *Party Government* all available from Transaction
