A Finger In The Wound Body Politics In Quincentennial Guatemala:

A Finger in the Wound Diane M. Nelson, 1999-04 Nelson brings the insights of postmodern theory to a highly charged situation and offers compelling interpretations of the state's intense ambivalence toward Mayan culture and Mayans. The writing is lively and accessible; the issues current and the theoretical contributions very important in this study of the heterogeneity and flux of urban national culture. Kay B. Warren, author of *Indigenous Movements and Their Critics* **Until I Find You** Rachel Nolan, 2024-01-09 During Guatemala's decades-long civil war, tens of thousands of children, many of them Indigenous Maya, were coerced or kidnapped from their homes. They became commodities in a booming private adoption business and most wound up in the United States. Rachel Nolan explores the human toll of a global industry that thrives on exploitation. *Making the Revolution* Kevin A. Young, 2019-07-11 Offers new insights into both the successes and the limitations of Latin America's left in the twentieth century. Green Wars Megan Ybarra, 2018 *Green Wars* challenges international conservation efforts, revealing through in-depth case studies how saving the Maya Forest facilitates racialized dispossession. Megan Ybarra brings Guatemala's 36-year civil war into the perspective of a longer history of 200 years of settler colonialism to show how conservation works to make Q'eqchi's into immigrants on their own territory. Even as the post-war state calls on them to claim rights as individual citizens, Q'eqchi's seek survival as a people. Her analysis reveals that Q'eqchi's both appeal to the nation-state and engage in relationships of mutual recognition with other Indigenous peoples and the land itself in their calls for a material decolonization. Provided by publisher. *Central America in the New Millennium* Jennifer L. Burrell, Ellen Moodie, 2013 Most non-Central Americans think of the narrow neck between Mexico and Colombia in terms of dramatic past revolutions and lauded peace agreements or sensational problems of gang violence and natural disasters. In this volume, the contributors examine regional circumstances within frames of democratization and neoliberalism as they shape lived experiences of transition. The authors, anthropologists and social scientists from the United States, Europe, and Central America, argue that the process of regions and nations disappearing, being erased from geopolitical notice, is integral to upholding a new post-Cold War world order and that a new framework for examining political processes must be accessible, socially collaborative, and in dialogue with the lived processes of suffering and struggle engaged by people in Central America and the world in the name of democracy. **Cultural Agency in the Americas** Doris Sommer, 2006-01-19 An exploration of how cultural agency can be used by different organizations and artists to rethink and challenge the notion of a globalized society. Out of the Shadow Julie Gibbings, Heather Vrana, 2020-07-20 Guatemala's Ten Years of Spring, 1944-1954, began when citizens overthrew a military dictatorship and ushered in a remarkable period of social reform. This decade of progressive policies ended abruptly when a coup d'état backed by the United States, at the urging of the United Fruit Company, deposed a democratically elected president and set the stage for a period of systematic human rights abuses that endured for generations. Presenting the research of diverse anthropologists and historians, *Out of the Shadow* offers a

new examination of this pivotal chapter in Latin American history Marshaling information on regions that have been neglected by other scholars such as coastlines dominated by people of African descent the contributors describe an era when Guatemalan peasants Maya and non Maya alike embraced change became landowners themselves diversified agricultural production and fully engaged in electoral democracy Yet this volume also sheds light on the period s atrocities such as the US Public Health Service s medical experimentation on Guatemalans between 1946 and 1948 Rethinking institutional memories of the Cold War the book concludes by considering the process of translating memory into possibility among present day urban activists

La Raza Cosmética Natasha Varner, 2020-10-06 In the decades following the Mexican Revolution nation builders artists and intellectuals manufactured ideologies that continue to give shape to popular understandings of indigeneity and mestizaje today Postrevolutionary identity tropes emerged as part of broader efforts to reunify the nation and solve pressing social concerns including what was posited in the racist rhetoric of the time as the Indian problem Through a complex alchemy of appropriation and erasure indigeneity was idealized as a relic of the past while mestizaje was positioned as the race of the future This period of identity formation coincided with a boom in technology that introduced a sudden proliferation of images on the streets and in homes there were more photographs in newspapers movie houses cropped up across the country and printing houses mass produced calendar art and postcards *La Raza Cosmética* traces postrevolutionary identity ideals and debates as they were dispersed to the greater public through emerging visual culture Critically examining beauty pageants cinema tourism propaganda photography murals and more Natasha Varner shows how postrevolutionary understandings of mexicanidad were fundamentally structured by legacies of colonialism as well as shifting ideas about race place and gender This interdisciplinary study smartly weaves together cultural history Indigenous and settler colonial studies film and popular culture analysis and environmental and urban history It also traces a range of Indigenous interventions in order to disrupt top down understandings of national identity construction and to people this history with voices that have all too often been entirely ignored

War in the Land of True Peace Brent K. S. Woodfill, 2019-05-23 For the ancient and modern Maya the landscape is ruled by powerful entities in the form of geographic features like caves mountains springs and abandoned cities spirits who must be entreated through visits and rituals for permission to plant harvest build or travel their territories Consequently such places have served as points of domination and resistance over the millennia and nowhere is this truer than in Guatemala s Northern Transversal Strip the subject of Brent K S Woodfill s *War in the Land of True Peace* This strategic region with its wealth of resources fertile soil petroleum and the only noncoastal salt in the Maya lowlands is the site of some of the most sacred Maya places and thus also the focus of some of the signal struggles for power in Maya history In *War in the Land of True Peace* Woodfill delves into archaeology epigraphy ethnohistory and ethnography to write the biographies of several of these places covering their histories from the rise of the Preclassic Maya through the spread of transnational corporations in our time Again and

again the region known since Spanish conquest as Vera Paz or True Peace has seen incursion by a foreign group including the great Maya cities of Tikal and Calakmul the Hapsburg Empire Guatemalan military dictatorships and contemporary corporations seeking to expand its power Each outsider intentionally or not used the Maya need for access to these places to ensure loyalty And each time local Maya pushed back to reclaim the sacred places for their own From early struggles to remove foreign influence to present day battles over land tenure and indigenous run ecotourism parks this book documents a continuity in Maya culture over several thousand years and illuminates the world view with its sense of personhood and religion so different from the West s that informs this enduring culture

The Maya Art of Speaking Writing Tiffany D.

Creegan Miller,2022-05-24 Challenging the distinctions between old and new media and narratives about the deprecation of orality in favor of inscribed forms The Maya Art of Speaking Writing draws from Maya concepts of tz'ib recorded knowledge and tz'ij ch'ol'oj and ch'ow'en orality to look at expressive work across media and languages Based on nearly a decade of fieldwork in the Guatemalan highlands Tiffany D Creegan Miller discusses images that are sonic pictorial gestural and alphabetic She reveals various forms of creativity and agency that are woven through a rich media landscape in Indigenous Guatemala as well as Maya diasporas in Mexico and the United States Miller discusses how technologies of inscription and their mediations are shaped by human editors translators communities and audiences as well as by voices from the natural world These texts push back not just on linear and compartmentalized Western notions of media but also on the idea of the singular author creator scholar or artist removed from their environment The persistence of orality and the interweaving of media forms combine to offer a challenge to audiences to participate in decolonial actions through language preservation The Maya Art of Speaking Writing calls for centering Indigenous epistemologies by doing research in and through Indigenous languages as we engage in debates surrounding Indigenous literatures anthropology decoloniality media studies orality and the digital humanities

Gender Violence in Peace and War Victoria Sanford, Katerina Stefatos, Cecilia M. Salvi, 2016-09-16 Reports from war zones often note the obscene victimization of women who are frequently raped tortured beaten and pressed into sexual servitude Yet this reign of terror against women not only occurs during exceptional moments of social collapse but during peacetime too As this powerful book argues violence against women should be understood as a systemic problem one for which the state must be held accountable The twelve essays in Gender Violence in Peace and War present a continuum of cases where the state enables violence against women from state sponsored torture to lax prosecution of sexual assault Some contributors uncover buried histories of state violence against women throughout the twentieth century in locations as diverse as Ireland Indonesia and Guatemala Others spotlight ongoing struggles to define the state's role in preventing gendered violence from domestic abuse policies in the Russian Federation to anti trafficking laws in the United States Bringing together cutting edge research from political science history gender studies anthropology and legal studies this collection offers a comparative analysis of how the state facilitates legitimates and perpetuates gender violence worldwide The contributors also offer vital insights into how states might adequately protect women's rights in peacetime as well as how to intervene when a state declares war on its female citizens

Maya Intellectual Renaissance Victor D. Montejo, 2010-01-01 When Mayan leaders protested the celebration of the Quincentenary of the discovery of America and joined with other indigenous groups in the Americas to proclaim an alternate celebration of 500 years of resistance they rose to national prominence in Guatemala This was possible in part because of the cultural political economic and religious revitalization that occurred in Mayan communities in the later half of the twentieth century Another result of the revitalization was Mayan students enrollment in graduate programs in order to reclaim the intellectual history of the brilliant Mayan past Victor Montejo was one of those students This is the first book to be published outside of Guatemala where a Mayan writer other than Rigoberta Menchu discusses the history and problems of the country It collects essays Montejo has written over the past ten years that address three critical issues facing Mayan peoples today identity representation and Mayan leadership Montejo is deeply invested in furthering the discussion of the effectiveness of Mayan leadership because he believes that self evaluation is necessary for the movement to advance He also criticizes the racist treatment that Mayans experience and advocates for the construction of a more pluralistic Guatemala that recognizes cultural diversity and abandons assimilation This volume maps a new political alternative for the future of the movement that promotes inter ethnic collaboration alongside a reverence for Mayan culture

Unforgivable Kevin Lewis O'Neill, 2025 The first book to expose how the Catholic Church systematically covers up scandal by moving abusers across borders Clerical sexual abuse is as global as the Roman Catholic Church with bishops moving credibly accused priests not simply between parishes but also across international borders Unforgivable follows the movement of one such perpetrator from the Great Plains of central Minnesota to the Indigenous highlands of Guatemala where this priest had access to children and even raised one as his own Although Father David Roney is at the center of this particular story author Kevin Lewis O'Neill offers ample evidence that offshoring priests is a common practice These maneuvers and the callous indifference of the Church even once caught red handed reveal the limits of justice They also lay bare the disturbing fact that the scale of clerical sexual abuse is far bigger than anyone has yet considered Rigorously researched and viscerally important this book raises urgent questions about holding the Catholic Church accountable

Spencer, Maline D. Werness-Rude, 2015-05-01 *Maya Imagery Architecture and Activity* privileges art historical perspectives in addressing the ways the ancient Maya organized manipulated created interacted with and conceived of the world around them The Maya provide a particularly strong example of the ways in which the built and imaged environment are intentionally oriented relative to political religious economic and other spatial constructs In examining space the contributors of this volume demonstrate the core interrelationships inherent in a wide variety of places and spaces both concrete and abstract They explore the links between spatial order and cosmic order and the possibility that such connections have sociopolitical consequences This book will prove useful not just to Mayanists but to art historians in other fields and scholars from a variety of disciplines including anthropology archaeology geography and landscape architecture
