**Communion to Cannibalism** Maggie Kilgour, 2014-07-14 Focusing on such metaphors as communion and cannibalism in a wide range of Western literary works Maggie Kilgour examines the opposition between outside and inside and the strategies of incorporation by which it is transcended This opposition is basic to literature in that it underlies other polarities such as those between form and content the literal and metaphorical source and model Kilgour demonstrates the usefulness of incorporation as a subsuming metaphor that describes the construction and then the dissolution of opposites or separate identities in a text the distinction between outside and inside essentially that of eater and eaten is both absolute and unreciprocal and yet fades in the process of ingestion as suggested in the saying you are what you eat Kilgour explores here a fable of identity central to Western thought that represents duality as the result of a fall from a primal symbiotic unity to which men have longed to return However while incorporation can be desired as the end of alienation it can also be feared as a form of regression through which individual identity is lost Beginning with the works of Homer Ovid Augustine and Dante Kilgour traces the ambivalent attitude toward incorporation throughout Western literature She examines the Eucharist as a model for internalization in Renaissance texts addresses the incorporation of past material in the nineteenth century and concludes with a discussion of the role of incorporation in cultural theory today Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

 Queer Modernity** Eric Haralson,2003-03-27 In Henry James and Queer Modernity first published in 2003 Eric Haralson  
 examines far reaching changes in gender politics and the emergence of modern male homosexuality as depicted in the  
 writings of Henry James and three authors who were greatly influenced by him Willa Cather Gertrude Stein and Ernest  
 Hemingway Haralson places emphasis on American masculinity as portrayed in fiction between 1875 and 1935 but the book  
 also treats events in England such as the Oscar Wilde trials that had a major effect on American literature He traces James s  
 engagement with sexual politics from his first novels of the 1870s to his major phase at the turn of the century The second  
 section of this study measures James s extraordinary impact on Cather s representation of queer characters Stein s theories  
 of writing and authorship as a mode of resistance to modern sexual regulation and Hemingway s very self constitution as a

balletomane a fan for whom ballet was made up exclusively of qualities which other arts only aspire to in order to be truly modern Relaying ballet's Mannerist origins and aesthetics and demonstrating its influence alongside Broadway and Hollywood musical dance on art and poetry completes the portrait of mid century modernity *Wounded Hearts* Jennifer Travis, 2006-05-18 The literary study of emotion is part of an important revisionary movement among scholars eager to recast emotional politics for the twenty first century Looking beyond the traditional categories of sentiment sensibility and sympathy Jennifer Travis suggests a new approach to reading emotionalism among men She argues that the vocabulary of injury with its evaluations of victimhood and its assessments of harm has deeply influenced the cultural history of emotions From the Civil War to the early twentieth century Travis traces the history of male emotionalism in American discourse She argues that injury became a comfortable vocabulary particularly among white middle class men through which to articulate and to claim a range of emotional wounds The debates about injury that flourished in the cultural arenas of medicine psychology and the law spilled over into the realm of fiction as Travis demonstrates through readings of works by Stephen Crane William Dean Howells Willa Cather Henry James and Edith Wharton Travis concludes by linking this history to twenty first century preoccupations with pain centered politics which she cautions too often focuses only on women and racial minorities *Sexing the Mind* Evelyne Ender, 2019-06-07 In a book both brilliant and lucid Evelyne Ender explores the issue of sexual identity in the fiction criticism and psychoanalytic writings of the nineteenth century She focuses on the figure of the hysteric which she says came to represent a mind haunted by the questioning of gender *Action without Hope* Nathan K. Hensley, 2025-06-04 A study of how writers from the early phases of our prolonged climate emergency used aesthetic strategies to redefine the category of action What does it feel like to live helplessly in a world that is coming undone Nathan Hensley turns to Victorian literature to uncover a prehistory of this deeply contemporary sense of powerlessness For many in nineteenth century Britain their world seemed so scarred by human rapacity that restoring it seemed beyond the powers of any one individual Like George Eliot's characters in *Middlemarch* or the doomed lovers of *Wuthering Heights* observers of the gathering carbon economy felt themselves ensnared by interlocked and broken systems In the face of damage so vast and apparently irreversible what could possibly be done To answer this question Hensley shows that nineteenth century writers and artists devised new ways to understand action and hope They rescaled action away from the grandly heroic and toward minor adjustments and collaborative interventions They turned away from logical proofs and direct argumentation and instead called on aesthetic technologies like sonnets and fractured lyrics watercolor sketches and vast multiplot novels finding scope for action not at the level of the theme or the thesis but in gestures and details Ranging from J M W Turner's painterly technique to Emily Brontë's dreamlike fragments and reading along the way works by Alfred Lord Tennyson H G Wells Lewis Carroll Gerard Manley Hopkins William Berryman Charlotte Brontë George Eliot and Christina Rossetti Hensley's study makes an important contribution to Victorian studies and the environmental humanities **Violent Adventure**

Wesley, 2003 Questioning both the popular condemnation of violent representation and the notion that violence can be constructive by empowering the identity of an integrated adult self Wesley identifies a revealing pattern of violent adventure in recent fiction by American men      **The Critical Reception of Henry James** Linda Simon, 2007

Nineteenth-Century Literary Realism Katherine Kearns, 1996-01-26 A challenging rethinking of traditional theories and redefinition of the genre of realism      Playing the Races Henry B. Wonham, 2004 Why did so many of the writers who aligned themselves with the social and aesthetic aims of American literary realism rely on stock conventions of ethnic caricature in their treatment of immigrant and African American figures As a self described tool of the democratic spirit designed to prick the bubble of abstract types literary realism would seem to have little in common with the aggressively dehumanizing comic imagery that began to proliferate in magazines and newspapers after the Civil War Indeed critics such as Alain Locke hailed realism's potential to accomplish the artistic emancipation of the Negro a project that logically extended to other groups systematically misrepresented in the comic imagery of the period From the influential Editor's Study at Harper's Monthly William Dean Howells touted the democratic impulse of realist imagery as an alternative to romanticism's pride of caste which is averse to the mass of men and consents to know them only in some conventionalized and artificial guise Yet if literary realism pursued the interests of democracy by affirming the equality of things and the unity of men why did its major practitioners including Howells himself regularly employ comic typification as a feature of their representational practice Critics have often dismissed such apparent lapses in realist practice as blind spots vestiges of a genteel social consciousness that failed to keep pace with realism's avowed democratic aspirations Such explanations are useful to a point but they overlook the fact that the age of realism in American art and letters was simultaneously the great age of ethnic caricature Henry B. Wonham argues that these two aesthetic programs one committed to representation of the fully humanized individual the other invested in broad ethnic abstractions operate less as antithetical choices than as complementary impulses both of which receive full play within the period's most demanding literary and graphic works The seemingly anomalous presence of gross ethnic abstractions within works by Howells Twain James Wharton and Chesnut hints at realism's vexed and complicated relationship with the caricatured ethnic images that played a central role in late nineteenth century American thinking about race identity and national culture In illuminating that relationship *Playing the Races* offers a fresh understanding of the rich literary discourse conceived at the intersection of the realist and the caricatured image
