Women and Smoking in America, 1880-1950 Kerry Segrave, 2005-07-26 During the last 20 years of the 19th century

cigarette smoking was transformed from a lower class habit to a favored form of tobacco use for men and practically the only form available to women The trend continued to grow through the 1950s when smoking was a significant part of America s social fabric for both men and women This social history traces the evolution of women s smoking in the United States from 1880 to 1950 From 1880 to 1908 women were not allowed to smoke in public places with strong opposition based on moral concerns Most smoking was done by upper class women in the home at private parties or at socials By 1908 women smokers went public in greater numbers and challenged the prejudices against smoking that applied to them alone By 1919 most restaurants allowed women to smoke though most other public places did not permit it More and more women smokers went public in the period between 1919 and 1927 with college students leading the way By 1928 advertisers began to target female smokers and over the next two decades women smokers gradually gained equality with male smokers

Memory's Child Lynnette Spratley,2012-06-29 Climate change during the 20th and 21st centuries culminates in catastrophic changes to the planet as Nature declares war on humanity Inches of polar ice cap melt and evaporation bloats the atmosphere until finally it begins to rain and rain The planet grows soggy suffering manifest changes in topography as the earth turns into a quagmire slipping and sliding beneath the feet of the humans who live on its surface Earthquakes and mega storms become more frequent and deadly Industries suffer with agriculture taking the biggest hit and the economy teeters then collapses Physicist Noah Easternmann determined to ensure a future beyond what others predict is the beginning of the end for the planet builds a secret stronghold dubbed Phoenix Nest He smuggles in scientists and scholars until he has gathered a microcosm of world

knowledge Unable to program intelligence itself the scientists instead enhance the brain's ability to absorb and retain knowledge and devise a way for this enhancement to pass from parent to child Long after mankind plummeted off the top of the heap to land face first in the mud descendants of Phoenix Nest known as Preservationists are hidden among the uneducated Morons in what was once the United States Shelana is one of these Presers To carry out her duty as historian she must battle to survive prejudice directed not at race religion or means but at intelligence Feeding and spreading this prejudice is the powerful mysterious and bloodthirsty group known as Myths Vernon leader of the Myths is determined to wipe out the Preservationists and to control the redevelopment of civilization Vernon has made one mistake that may ruin his plans and cost him his life a mistake the Myth leader doesn't even remember he made But Shelana does **Lighting Up** Mimi Nichter, 2015-02-13 While the past 40 years have seen significant declines in adult smoking this is not the case among young adults who have the highest prevalence of smoking of all other age groups At a time when just about everyone knows that smoking is bad for you why do so many college students smoke Is it a short lived phase or do they continue throughout the college years And what happens after college when they enter the real world Drawing on interviews and focus groups with hundreds of young adults **Lighting Up** takes the reader into their everyday lives to explore social smoking Mimi Nichter argues that we must understand more about the meaning of social and low level smoking to youth the social contexts that cause them to take up or not take up the habit and the way that smoking plays a large role in students' social lives Nichter examines how smoking facilitates social interaction helps young people express and explore their identity and serves as a means for communicating emotional states Most college students who smoked socially were confident that this was no big deal After all they were not really smokers and they would only be smoking for a short time But as graduation neared they expressed ambivalence or reluctance to quit As many grads today step into an uncertain future where the prospect of finding a good job in a timely manner is unlikely their 20s may be a time of great stress and instability For those who have come to depend on the comfort of cigarettes during college this array of life stressors may make cutting back or quitting more difficult despite one's intentions and understandings of the harms of tobacco And emerging products on the market like e-cigarettes offer an opportunity to move from smoking to vaping **Lighting Up** considers how smoking fits into the lives of young adults and how uncertain times may lead to uncertain smoking trajectories that reach into adulthood Quitting Smoking Made Easy Alex A Lluich, The American Cancer Society reports that there are more than 45 million smokers in the U S And many if not all of them want to stop smoking Quitting smoking is difficult but the frightening truth is about half of all smokers who continue to smoke will end up dying from a smoking related disease That's why this book is an invaluable resource for anyone who wants the tools tips and tricks for quitting smoking and staying smoke free once and for all **Quitting Smoking Made Easy** addresses the issue of cigarettes and smoking from every angle including developing willpower handling withdrawals from smoking addressing the fears associated with quitting smoking dealing with stress without cigarettes
