the earliest days of warfare military operations have followed a predictable formula after a decisive battle an army must pursue the enemy and destroy its organization in order to achieve a victorious campaign But by the mid 19th century the emergence of massive armies and advanced weaponry and the concomitant decline in the effectiveness of cavalry had diminished the practicality of pursuit producing campaigns that bogged down short of decisive victory Great battles had become curiously indecisive decisive campaigns virtually impossible **Ignorance** Peter Burke,2023-02-14 A rich wide
