A Green Desire:

A Green Desire Anton Myrer, 1981 Two brothers as different as night and day one charming and ruthless buys his way into Harvard Wall Street and high society the other brother remains by his mother's side and makes his way to the top without the influence of money or prestige Raised in separate worlds these brothers are bound by a bitter rivalry for riches and power but mostly for the exciting wildly captivating woman they fight all their lives to possess a woman whose passion for one destroys her love for the other Their story consumes an American century spanning decades of splendor struggle upheaval and war It's an absorbing saga of innocent dreams and green desire corrupted by gilded temptation **Desire** Rebecca Weld Bushnell,2018-07-05 For Rebecca Bushnell English gardening books tell a fascinating tale of the human love for plants and our will to make them do as we wish These books powerfully evoke the desires of gardeners they show us gardeners who like poets imagine not just what is but what should be In particular the earliest English garden books such as Thomas Hill's The Gardeners Labyrinth or Hugh Platt's Floraes Paradise mix magical practices with mundane recipes even when the authors insist that they rely completely on their own experience in these matters Like early modern books of secrets early gardening manuals often promise the reader power to alter the essential properties of plants to make the gillyflower double to change the lily s hue or to grow a cherry without a stone Green Desire describes the innovative design of the old manuals examining how writers and printers marketed them as fiction as well as practical advice for aspiring gardeners Along with this attention to the delights of reading it analyzes the strange dignity and pleasure of garden labor and the division of men s and women s roles in creating garden art The book ends by recounting the heated debate over how much people could do to create marvels in their own gardens For writers and readers alike these green desires inspired dreams of power and self improvement fantasies of beauty achieved without work and hopes for order in an unpredictable world not so different from the dreams of gardeners today A GREEN DESIRE Anton Myrer, 1981 A Green Desire Anton Myrer, 1981 Lectures on the Ethics of T. H. Green, Mr Herbert Spencer, and J. Martineau Henry Sidgwick, E. E. Constance Jones, 2011-12 Sidgwick's 1902 critique of the philosophies that emerged to rival utilitarianism after the publication of his The Methods of Ethics What determines green purchase behavior? Zhongju Liao, Shufeng Xiao, Siying Long, 2024-05-31 Green purchase behavior refers to consumers purchasing green products that are environmentally friendly using fewer resources and causing lower environmental impact and risk As a growing number of people start to recognize the importance of individual responsibility for environmental protection firms are increasingly motivated to develop green products to fit the needs of this green advocation Despite an emerging number of consumers claiming their preference towards green brands compared to traditional alternatives researchers have found that there is a huge gap between consumers purchase intention and actual behavior which has gained much attention The psychological process of green purchase behavior may be a complicated process influenced by various factors such as consumer values and norms the pros

and cons marketed for green products and various other situational factors Scholars are calling for research that explores the psychological decision making process of green purchase behavior from both theoretical and practical perspectives Due to the high pricing of green products the trade off between the price and function of green products may lower consumers satisfaction Thus there is always a gap between green purchase intention and actual purchase behavior What determines consumers actual green purchase behavior Under what conditions will the consumers pay a premium price for green products What prompts consumers to choose green brands over traditional alternatives Will green consumption be a passing trend or a long term consumption habit What influences the frequency of consumers green purchasing Scholars are welcome to share their opinions and findings about green purchase behavior to help explore this research topic We are extremely interested in the determinants of green purchase behavior and the mechanism of facilitating green consumption considering different perspectives Homo Oeconomicus 29 (3) Manfred J. What Does Green Mean? James GS Marshall,2019 Canadians have seen Liberal governments. They we seen Conservative governments And they we seen New Democrat governments But as of 2019 they still have yet to see a Green government Around the rest of the world however Green Parties have formed governments many times In many countries they have been an established part of the political domain for decades And they re not seen as a single issue party as they re so often wrongly described in Canada What Does Green Mean is a world tour of Green parties and Green political ideas Using international examples of Green parties from around the globe it explores what the Greens are trying to do for politics and for the planet From Green governments in Germany Sweden and Ireland to the individuals who founded the Canadian Green movement the book aims to leave the reader with a richer understanding of what Green truly means

This work is the most ambitious reassessment of Green's oeuvre to date and thus critical reading for scholars interested in modernism late modernism and the evolution of British post war fiction Arguing against the predominant view of Green's fiction as an autonomous literary construction the work connects Green to a number of social and literary contexts resulting in fresh readings of his novels and also a greater accessibility to an author long considered oblique and elusive With significant investigations of Green s connection to his literary generation his multifaceted and formally innovative handling of social class his negotiations of narrative authority and authorship and the importance of disability studies to understanding Green's fiction this study charts the complex trajectories of Green's fiction against both social and literary contexts. The work also moves beyond the narrow

confines of British literature to explore Green's connections to broader trends in European literature Go For the Green Jeff Hopper, 2012-05-07 God can meet us wherever we are and for golfers that is often on the golf course Experience daily devotions with the peace you feel on an early morning course the excitement of doing well the enjoyment of time spent with the closest of all friends This daily round of golf themed devotions offers thoughts for throughout the year the Off Season the Majors Season the Golf Season and the Silly Season Conceived by the founder of a faith and golf ministry each devotional and scripture are partnered with a solid golf tip to help the reader get to the green Written in a pleasant intelligent style that will connect with players of all ages Go for the Green is a hole in one for its target audience The Myth of Green Marketing Toby Maureen Smith, 1998-01-01 In this groundbreaking study Toby Smith analyses the role that social myths such as green marketing play in public understanding of the environmental crisis This book introduces the concept of hegemony into environmental politics using the concept to elucidate the political economic and social alliance that sustains our belief in industrial expansionism The ecological crisis of the late twentieth century presents a challenge to the very foundations of this alliance The hegemonic system reacts to a threat to its structure by producing social myths that provide a common sense understanding of the threat Smith examines one such social myth the contemporary phenomenon known as green marketing and how it came to reinforce rather than challenge the ethics of productivism By analysing green marketing as it relates primarily to the early 1990s corporate campaigns of companies such as McDonald's Shell Chemicals and Mobil Chemical Co Smith demonstrates how these voices weave together an understanding of green consumerism using familiar language from economic and liberal democratic discourses The Myth of Green Marketing is an original and important contribution to the field of environmental studies As the first book on green marketing it is sure to raise controversy with its unique discussion of the cultural and social aspects of environmental issues God and the Green Divide Amanda J. Baugh, 2016-10-11 American environmentalism historically has been associated with the interests of white elites Yet religious leaders in the twenty first century have helped instill concern about the earth among groups diverse in religion race ethnicity and class How did that happen and what are the implications Building on scholarship that provides theological and ethical resources to support the greening of religion God and the Green Divide examines religious environmentalism as it actually happens in the daily lives of urban Americans Baugh demonstrates how complex dynamics related to race ethnicity and class factor into decisions to go green By carefully examining negotiations of racial and ethnic identities as central to the history of religious environmentalism this work complicates assumptions that religious environmentalism is a direct expression of theology ethics or religious beliefs
