J.E. Andersen,2021-07-05 Late in 2016 the scientists with a little help from the big LHC the particle accelerator down in Cern finally concluded that there are no physical particles to be found inside this universe Meaning only energetic oscillating fields was to be found Can you even grasp that thought that everything in this universe is absolutely anything but being this postulated 3 dimensionally and fully physical universe that you thought you could understand and that you have been educated in Everything you believed this universe to be does not exist at all You don t find anything inside this universe that is only 3 dimensional and only fully physical And everything you did not believe in is the universe we actually live inside with only energetic oscillating fields We live inside a paranormal universe with 5 very active quantum physical dimensions It is actually these two quantum physical dimensions the 5th and the 4th that really runs the show We can only see discover and detect this universe inside the 3rd

dimension and that dimension is the quantum physical screen of the universe This is where the Higgs field is operating with the funny universal stuff a stuff that can be there disappear and reappear again That leads us into the stealth technology and the physics behind the famous stealth plane the new 5 dimensional quantum physics The only kind of believes and the only kind of education today lies inside this 3 dimensional and fully physical standardized big bang model and physics and all of that is a big lie That was the final conclusion from the big LHC down in Cern This very famous and shocking discovery actually proved my new 5 dimensional model by proving the energetic oscillating quantum physical atom that lies in a 5 dimensional spacetime My new 5 dimensional quantum physical model and totally new physics was theoretically fully proven already in 2012 Then the big process writing down all of this new philosophy and theory Out of that came the new 5 dimensional quantum physical physics Very different on any level This new model matches Einstein's extended relativity theory and can be understood as a Peer Review with Einstein's 5 dimensional model It explains the gravity the differentiated expansion explains the very big inflation and many more hidden secrets of the universe Read about the Author and the book and understand how this universe was created and how it functions **Cooper's Journal: Or, Unfettered Thinker and Plain Speaker for Truth, Freedom and Progress ...
