Care Resources for the Federal Workplace, 2000 *Care Managers: Working with the Aging Family* Cathy
Cress, 2009-10-07 Care Managers Working with the Aging Family addresses the unmet needs of care managers working with
aging clients as well as the client's entire family. With its in-depth focus on the aging family system, this book fills a gap for
medical case managers and geriatric care managers, giving them tools to better meet the treatment goals of aging clients and
their families as the older clients move through the continuum of care in institutional-based settings or community-based
settings. Care Managers Working With the Aging Family uniquely focuses on helping the entire family unit through the
process of death and dying, helping midlife siblings to work together to render care to aging parents. It adds proven
techniques to the care manager repertoire such as family meetings, forgiveness technology, and caregiver assessment. It
offers multiple tools to do an effective care plan so that both the needs of the family and the older client are met. *The*
