human form to a black square on a white canvas Why is a banana duct taped to a wall worth more on the art market than a beautiful seventeenth century landscape By taking art for what it actually is a piece of stone or wood a sheet of paper with some lines drawn on it a painted canvas this lively and accessible account shows how seemingly meaningless objects can be transformed into celebrated works of art Breaking with conventional notions of artistic genius Koenraad Jonckheere explores how stories and emotions give meaning to objects and why changing historical circumstances result in such shifting opinions over time Tracing its story from ancient times to present A New History of Western Art reframes the evolution of European art and radically reshapes our understanding of art history Published in association with Hannibal Books **Art, Culture, and Pedagogy** Dustin Garnet, Anita Sinner, 2019-02-04 The legacy of Graeme Chalmers's research in art education underpins a foundational understanding of critical multiculturalism and offers a rigorous analysis of oppression and institutionalization of unequal power relations His work begins in stories involving disruption and advocacy and how when working in collaboration we may then begin to share lived knowledge in ways that bring sociopolitical dimensions to the fore to help us move towards breaking cycles of divisiveness International scholars share both reflective commentaries that look back upon Graeme Chalmers's contributions as well as offer diverse perspectives that look forward to the enduring potentialities and possibilities of his work today and into the future These perspectives are presented alongside thirty years of his scholarship creating new insights and provocations that will continue to influence our collective work for social justice Art Culture and Pedagogy Revisiting the Work of F Graeme Chalmers holds timeless wisdom articulating Graeme's deep respect for cultural pluralism his passionate embrace of inclusivity and diversity and his dedication to social justice issues all issues of compelling urgency today His distinguished international leadership and his pioneering ideas continue to be adopted engaged and applied at all levels of art education *Art Subjects* Howard Singerman, 2023-09-01 Nearly every artist under the age of fifty in the United States today has a Master of Fine Arts degree Howard Singerman's thoughtful study is the first to place that degree in its proper historical framework and ideological context Arguing that where artists are trained makes a difference in the forms and meanings they produce he shows how the university with its disciplined organization of knowledge and demand for language played a critical role in the production of modernism in the visual arts Now it is shaping what we call postmodernism like postmodernist art the graduate university stresses theory and research over manual skills and traditional techniques of representation Singerman who holds an M F A in sculpture as well as a Ph D in Visual and Cultural Studies is interested in the question of the artist as a professional and what that word means for and about the fashioning of artists He begins by examining the first campus based art schools in the 1870s and goes on to consider the structuring role of women art educators and women students the shift from the fine arts to the visual arts the fundamental grammar of art laid down in the schoolroom and the development of professional art training in the American university Singerman's book reveals the ways we have conceived of art in the past hundred years and have institutionalized that conception as atelier activity as craft

and finally as theory and performance Nearly every artist under the age of fifty in the United States today has a Master of Fine Arts degree Howard Singerman s thoughtful study is the first to place that degree in its proper historical framework and ideological context Arguing that where ar
