A History Of East Central Europe:

A History of East Central Europe, 1995 **The Beginnings of History in East Central Europe**, **East Central Europe in the Middle Ages, 1000-1500** Jean W. Sedlar, 2013-03-01 Although the Middle Ages saw brilliant achievements in the diverse nations of East Central Europe this period has been almost totally neglected in Western historical scholarship East Central Europe in the Middle Ages provides a much needed overview of the history of the region from the time when the present nationalities established their state structures and adopted Christianity up to the Ottoman conquest Jean Sedlar's excellent synthesis clarifies what was going on in Europe between the Elbe and the Ukraine during the Middle Ages making available for the first time in a single volume information necessary to a fuller understanding of the early history of present day Poland the Czech Republic Slovakia Hungary Romania Bulgaria Albania and the former Yugoslavia Sedlar writes clearly and fluently drawing upon publications in numerous languages to craft a masterful study that is accessible and valuable to the general reader and the expert alike The book is organized thematically within this framework Sedlar has sought to integrate nationalities and to draw comparisons Topics covered include early migrations state formation monarchies classes nobles landholders peasants herders serfs and slaves towns religion war governments laws and justice commerce and money foreign affairs ethnicity and nationalism languages and literature and education and literacy After the Middle Ages these nations were subsumed by the Ottoman Habsburg Russian and Prussian German empires This loss of independence means that their history prior to foreign conquest has acquired exceptional importance in today's national consciousness and the medieval period remains a major point of reference and a source of national pride and ethnic identity This book is a substantial and timely contribution to our knowledge of the history of East Central Europe *History of the Literary Cultures of East-Central Europe: Types and stereotypes* Marcel Cornis-Pope, John Neubauer, 2004 Types and stereotypes is the fourth and last volume of a path breaking multinational literary history that incorporates innovative features relevant to the writing of literary history in general Instead of offering a traditional chronological narrative of the period 1800-1989 the History of the Literary Cultures of East Central Europe approaches the region's literatures from five complementary angles focusing on literature's participation in and reaction to key political events literary periods and genres the literatures of cities and sub regions literary institutions and figures of representation The main objective of the project is to challenge the self enclosure of national literatures in traditional literary histories to contextualize them in a regional perspective and to recover individual works writers and minority literatures that national histories have marginalized or ignored Types and stereotypes brings together articles that rethink the figures of National Poets figurations of the Family Women Outlaws and Others as well as figures of Trauma and Mediation As in the previous three volumes the historical and imaginary figures discussed here constantly change and readjust to new political and social conditions An Epilogue complements the basic history focusing on the contradictory transformations of East Central European literary cultures after 1989 This volume will be of interest to the

region's literary historians to students and teachers of comparative literature to cultural historians and to the general public interested in exploring the literatures of a rich and resourceful cultural region **Return to Diversity** Joseph Rothschild, 1993 Written by one of the world's foremost authorities on East Central Europe Return to Diversity has proven to be an invaluable guide for readers of modern European history and politics This third edition introduces a new co author Nancy M Wingfield and has been fully updated to take into account recent and ongoing developments in the region **The Price of Freedom** Piotr S. Wandycz, 2017-07-05 The Price of Freedom surveys and explains the fascinating and intricate history of East Central Europe the present day countries of the Czech Republic Hungary Poland and Slovakia Taking a thematic approach the author explores such issues and controversies as the tension between the industrial developed West and the agrarian East Central Europe the rise of modern nationalism democracy and authoritarianism and Communism While the countries of East Central Europe have differed dramatically from one another the author asserts that they have been bound by a certain community of fate These comparisons are traced through the Middle Ages and the Early Modern era to the nineteenth and twentieth centuries This exploration reveals that it is no accident that the Czech Republic Hungary and Poland were the first among the former Soviet bloc nations to be admitted to NATO and are likely to become the first members of the expanded European Union Thus an understanding of their experiences contributions and their place within the European community of nations vastly enriches our knowledge of Europe's past and present The second edition of this distinguished book brings the history of the region up to date It discusses the events of the post communist decade of the 1990s and the problems resulting from the transition to democracy and market economy **The Routledge History of East Central Europe since 1700** Irina Livezeanu, Arpad von Klimó, 2017-03-16 Covering territory from Russia in the east to Germany and Austria in the west The Routledge History of East Central Europe since 1700 explores the origins and evolution of modernity in this turbulent region This book applies fresh critical approaches to major historical controversies and debates expanding the study of a region that has experienced persistent and profound change and yet has long been dominated by narrowly nationalist interpretations Written by an international team of contributors that reflects the increasing globalization and pluralism of East Central European studies chapters discuss key themes such as economic development the relationship between religion and ethnicity the intersection between culture and imperial national wartime and revolutionary political agendas migration women's and gender history ideologies and political movements the legacy of communism and the ways in which various states in East Central Europe developed and were formed by the politics of memory and commemoration This book uses new methodologies in order to fundamentally reshape perspectives on the development of East Central Europe over the past three centuries Transnational and comparative in approach this volume presents the latest research on the social cultural political and economic history of modern East Central Europe providing an analytical and comprehensive overview for all students of this region **Urban History in East Central Europe** Harald Binder, 2006 **The Price of**

Freedom Piotr Stefan Wandycz, 2001 The Price of Freedom surveys and explains the fascinating and intricate history of East Central Europe the present day countries of the Czech Republic Slovakia Hungary and Poland **East Central Europe Between the Two World Wars** Joseph Rothschild, 1974 Transregional Connections in the History of East-Central Europe Katja Castryck-Naumann, 2021-10-25 Transregional connections play a fundamental role in the history of East Central Europe This volume explores this connectivity by showing how people from eastern and central parts of Europe have positioned themselves within global processes while in turn also shaping them The contributions examine different fields of action such as economy arts international regulations and law development aid and migration focusing on the period between the middle of the nineteenth century and the end of the Cold War The authors uncover spaces of interaction and emphasize that internal and external entanglements have established East Central Europe as a distinct region Understanding the connectedness of this subregion is stimulating for the historiography of East Central Europe as it is for the field of global history **Gender and Nation in East Central Europe** Marta Cieslak, Anna Müller, 2024-12-15 Gender and Nation in East Central Europe An Uneasy History offers an interdisciplinary analysis of the tumultuous relationships between gender and national identities in the region where both gender and nation as analytical categories have long been contested Focusing on the nineteenth and the first decades of the twentieth centuries eleven authors examine gender and its stubborn inescapable and multifaceted ties to how nations and national identities have been envisioned invented described constructed and legislated during the formative period of East Central European nation building The volume presents case studies that uncover the historical East Central Europe of messy fluid and complex identities that evolved at the same time as East Central European nationalists were attempting to draw clear borders between what they understood as nationalities Drawing from the multitude of archives and using the lenses of such disciplines as history art history literary studies and sociology the authors demonstrate how both individuals and collectives produced national identities while simultaneously producing gender identities Correspondingly they show how individuals and collectives imagined fashioned and performed national and gender identities in response to the historical forces that affected the process of identity formation around them *East Central Europe* Wojciech Roszkowski, 2015 **A History of Modern Political Thought in East Central Europe** Balázs Trencsényi, Maciej Janowski, Monika Baar, Maria Falina, Michal Kopecek, 2016-02-26 A History of Modern Political Thought in East Central Europe is a two volume project authored by an international team of researchers and offering the first ever synthetic overview of the history of modern political thought in East Central Europe Covering twenty national cultures and languages the ensuing work goes beyond the conventional nation centered narrative and offers a novel vision especially sensitive to the cross cultural entanglement of discourses Devising a regional perspective the authors avoid projecting the Western European analytical and conceptual schemes on the whole continent and develop instead new concepts patterns of periodization and interpretative models At the same time they also reject the self enclosing Eastern or Central European regionalist narratives

and instead emphasize the multifarious dialogue of the region with the rest of the world. Along these lines the two volumes are intended to make these cultures available for the global market of ideas and also help rethinking some of the basic assumptions about the history of modern political thought and modernity as such. The first volume deals with the period ranging from the Late Enlightenment to the First World War. It is structured along four broader chronological and thematic units: Enlightenment reformism, Romanticism and the national revivals, late nineteenth century institutionalization of the national and state building projects and the new ideologies of the fin de siècle facing the rise of mass politics. Along these lines the authors trace the continuities and ruptures of political discourses. They focus especially on the ways East Central European political thinkers sought to bridge the gap between the idealized Western type of modernity and their own societies challenged by overlapping national projects, social and cultural fragmentation, and the lack of institutional continuity.

The Routledge History of East Central Europe Since 1700 Irina Livezeanu, Arpad von Klimo, 2017-03-16. Covers territory from Russia in the east to Germany and Austria in the west, exploring the origins and evolution of modernity in this region. Provided by the publisher.

The East-Central European Region George H. Hodos, 1999-12-30. An examination of East Central European history; this book looks to the past for the roots of the cleavage between the eastern and western regions of Europe and the reasons for the east central countries' backward, reactionary nature, their slide into fascism and war, and the ultimate destruction of the region within the Stalinist orbit. East Central Europe emerged as a distinct region as early as the 15th century when, in sharp contrast to an expanding urban economy and a loosening of serfdom in the West, it pursued a brutal Second Serfdom. This development would determine much of its future course as 19th century attempts to modernize society included revolutions from above and the abolishment of serfdom while stubbornly retaining decisive feudal structures. After World War I, industrial developments created a semi-feudal, distorted capitalism, and the region soon saw the emergence of ultra-nationalist fascist style regimes whose actions would eventually lead to catastrophe. In the post-war era, the region found itself in the Soviet sphere. The short People's Democracy period attempted to purge its structure of feudal, reactionary and fascist remnants but soon got destroyed as a distinct region by brutal Stalinization. The collapse of Communism did not restore its separate existence; reintegration into the West requires a painful transition period with a yet uncertain outcome. Hodos produces a comprehensive comparative overview of the centuries-old division along with the resulting social, political and economic consequences. Chapters on anti-Semitism and the Holocaust illustrate the stark differences between the regions.

consolidation or normalization regimes It closes with pertinent questions about the fragility of the democratic order globally
