Hogg,1998 *History of World War II*. Tim Cooke,2005 Presents a comprehensive discussion of the origins events campaigns and personalities of World War II **Artillery Warfare, 1939-1945** Simon Forty,Jonathan Forty,2020-11-25 From mountain warfare with guns on mules to V2 rockets and everything between makes it well worth a place on anyone's reference shelf Clash of Steel It is said that artillery won the Second World War for the Allies that Soviet guns wore down German forces on the Eastern Front negating their superior tactics and fighting ability and that the accuracy and intensity of the British and American artillery was a major reason for the success of Allied forces in North Africa from El Alamein in Italy and Normandy and played a vital role in the battles of 1944 and 1945 Yet the range of weapons used is often overlooked or taken for granted which is why this highly illustrated history by Simon and Jonathan Forty is of such value They stress the importance of artillery on every front and analyze how artillery equipment training and tactical techniques developed during the conflict The selection of wartime photographs many from east European sources and the extensive quotations from contemporary documents give a graphic impression of how the guns were used on all sides The photographs emphasize the wide range of pieces employed as field antiaircraft and antitank artillery without forgetting self propelled guns coastal and other heavyweights and the development of rockets The authors offer a fascinating insight into the weapons that served in the artillery over seventy years ago Superbly illustrated this is testament to the courage and skills of extraordinary men in the execution of their duty An amazing book Books Monthly **Red Army Weapons of the Second World War** Michael Green,2022-09-21 While the Red Army's arsenal at the start of the Second World War included weapons dating back to the Great War or earlier the 1930s modernization program had introduced the automatic Tokarev pistol and self loading Tokarev rifle Its small arms were soon replaced by mass produced sub machine guns such as the PPSH 1941 nicknamed the PePeSha Supplementing the submachine guns the Degtyarev Light Machine Gun DP 27 Fitted with a circular pan magazine it received the not unsurprising nickname Record Player New mortars and towed artillery pieces ranging from 76mm to 203mm entered

service in the pre war years In addition to a wide range of towed self propelled and anti tank guns the Soviets fielded the Katyusha rocket launchers in 1941 nicknamed the Stalin s organ by the Germans The 1930s saw the introduction of the BT light tank series The iconic T 34 medium tank series came into service in late 1940 joined by the IS 2 heavy tank from early 1944 the prefix letters IS translates to Joseph Stalin These formidable AFVs led the Red Army to victory in May 1945 over Nazi Germany All these weapons and more are covered with numerous images in this authoritative overview of the subject

Flak in World War II Donald Nijboer,2018-09-01 More than half of the U S s aircraft losses in Europe in World War II were due to German antiaircraft artillery and many of the American aircraft shot down by Luftwaffe fighters had first been driven out of formation by flak and made easy prey for the fighters A world away in the Pacific American flak guns aboard naval ships formed the last line of defense against Japanese kamikazes Historian Donald Nijboer relies on firsthand accounts newly discovered files photos diagrams and maps to reveal the forgotten contribution of flak in World War II from doctrine and tactics to combat stories on the ground and in the air about what it was like to fly into the teeth of antiaircraft fire
