Michael Ruse, world renowned Darwin critic, publishes this, another example of his passion through the weekly *Leeds of India, Tibet, Chinese Frontiers and Beyond*.

Recognized for thirty-five years as one of the greatest figures in continental art and culture, Nicholas Roerich came to America in 1917, at the invitation of the Chicago Art Institute, which arranged a tour of two hundred of the artist's paintings through twenty-eight states of America. His influence in America is shown by the creation of the Roerich Museum in New York City, a veritable shrine of this master's work, housing 750 of his paintings. In addition, more than 1,000 of his paintings are in the leading museums and art collections of the world.

In his diary he sets down each moment of the journey as he lives it. He writes down his thoughts and impressions much as an artist would take quick sketches. At one moment of noon, cold and poor, high and low. He stayed in the former Palace of the Dalai Lama, visited ancient universities, discovered new pilgrims and monks and countless signs of a new spring and a rebirth of ancient prophecies. His notes are full of manuscripts and drawings, referring to law, the form of Christianity, where most there came peace and prosperity at those times places of Confucius and Buddha, and other great teachers and prophets; of hardships, bleeding hearts, pillaging officials, of sorcery, desire, shame, brutality. Yet in all one feels that there is a hope for a new unity of East and West.

eastern end of the Himalayas in Tibet lies the Tsangpo River Gorge known as the great romance of geography during the nineteenth century's golden age of exploration. Here the mighty Tsangpo funnels into an impenetrable canyon three miles deep, walled off from the outside world by twenty-five thousand foot peaks. Like the earthly paradise of Shangri-La immortalized in James Hilton's classic 1933 novel *Lost Horizon*, the Tsangpo River Gorge is a refuge revered for centuries by Tibetan Buddhists and later in Western imagination as a sanctuary in times of strife as well as a gateway to nirvana. The *Siege of Shangri-La* tells the story of this fabled land's exploration as both a geographical and spiritual destination and chronicles the discovery at the end of the last millennium of the truth behind the myths and rumors about it. Veteran journalist Michael McRae traces the gorge's exploratory history from the clandestine missions of surveyor spies called pundits and botanical expeditions of naturalists in the early twentieth century to the recent investigations of scholars, adventurers, and pilgrims seeking the Hidden Falls of the Tsangpo, which purportedly rivals Niagara in size and serves as the gateway to paradise. Each explorer's narrative provides increasing evidence of why the gorge has been mythologized in Eastern and Western lore as one of the world's most alluring blanks on the map and a supreme test of human will. Taking readers on a guided tour of the gorge's landscape, physical and metaphysical, McRae presents an insightful look at the pursuit of glory and enlightenment that has played out in this mysterious land with sometimes disastrous consequences. *The Siege of Shangri-La* is a fascinating journey through the inner recesses of a remote mystical world and the minds of those who have attempted to reach it. From the Hardcover edition.

Altai-Himalaya Nikolaj Konstantinovič Rerich, 1996. Nicholas Roerich's classic 1929 mystic travel book is back in print. He kept a diary of his travels by yak and camel through a remote region still largely unknown today. An intellectual as well as an adventurer, he chronicles his expedition through Sinkiang, Altai, Mongolia, and Tibet from 1924 to 1928 in twelve exciting chapters detailing his encounters along the parched byways of Central Asia. With a special interest in geographical mysteries and arcane and mystical arts, he searches for the hidden cities of Shambhala and Agartha. Roerich's original drawings as well as reproductions of his inspiring paintings illustrate this unique travel book.

Since the 19th century, Westerners have laid siege to the Tsangpo Gorge in Tibet. The colonial British saw it as a strategic prize. 1920's botanist Frank Kingdon Ward saw it as a geographical puzzle to solve, and Oxford-educated American Tibet scholar Ian Baker, discoverer of the hidden waterfall in the 1990s, saw it as a hidden Buddhist realm. More recently, kayakers have seen the rapids as the last great whitewater challenge. They paid with their lives. For all the reality was unimportant. All
