Alternative Special And Differential Arrangements For Small Economies Economic Paper 51:

Alternative Special and Differential Arrangements for Small Economies Michael Davenport, 2002 Suggests alternatives to traditional differential treatment for small states in facilitating their participation in world trade

Liberalising Labour Mobility Under the GATS L. Alan Winters, 2002 Multipleshift systems primarily aim to extend access and minimise unit costs However some systems only achieve these goals at the expense of educational quality Policymakers may be faced by difficult choices in system design

Paying the Price for Joining the WTO Roman Grynberg, Victor Ognitsev, Mohammed A. Razzaque, 2002 This paper focuses on the accession process for new WTO membership The basic premise is that the commitments demanded are too onerous for new members It argues that the whole process is fundamentally flawed and in fact forces applicant countries to accept demands that are not required under WTO agreements Section 2 is a brief discussion of the process of accession and highlights the inherent flaws Section 3 focuses on one of the crucial international trade agreements the General Agreement in Trade and Services GATS and provides sector specific commitments by countries Section 4 uses a series of statistical tests to verify whether acceding countries have made significantly higher number of specific commitments than existing WTO members Section 5 makes some concluding observations The paper uses a strong body of econometric evidence to support its claim that acceding countries undertake greater commitments than those made by WTO members of a similar development status

Delivering the Monterrey Consensus, which Consensus? Amartya Sen, 2002 The Economic Paper series is designed to bring to public attention crucial economic issues which are of concern to developing countries In recent years the series has examined issues such as the instability of capital flows the position of small states in the global economy the implications of new trade agreements agriculture and food security money laundering and the reform of global financial arrangements The publications are readable and aimed at academics policymakers students and people with a general interest in understanding these topical issues This publication is a follow on from the Monterrey Conference on Financing for Development The Monterrey Conference achieved a significant breakthrough in mobilising commitment on the part of key donors and developing countries to advance the development agenda These commitments have been at least partially built upon at the recent G8 Summit and the World Summit on Sustainable Development The Monterrey Consensus requires effective follow up on the part of donors developing countries and international financial institutions This publication is based on the Special Theme of the Commonwealth Finance Ministers Meeting Delivering the Millennium Development Goals held in London September 2002 Prof Sen raises some uncomfortable issues regarding the soundness of the Monterrey consensus and the need for more inclusive and interactive encounters on the basic approach chosen Ministers are warned that delivering the consensus will demand from them more than simple midwifery This paper includes the report of Civil Society Consultations as an appendix

The Commonwealth Yearbook ,2003 **Current Awareness Bulletin** ,2003 **British National Bibliography for Report Literature** ,2003-06 Handbook of Small States Lino Briguglio, 2018-05-11 This handbook covers a wide spectrum of issues relating to small states Chapters in the volume have been grouped under the three main themes of economic social and environmental issues The economics sections include chapters dealing with trade finance and regulatory frameworks while the social theme covers health migration population ageing as well as overall social wellbeing The environmental theme examines matters such as measuring environmental performance natural disasters the ocean economy and the validity of the Sustainable Development Goals One major issue is the definition of small states As this volume demonstrates generally speaking population is used to measure country size in the literature However it clearly emerges that there is no real consensus as to the population cut off point that distinguishes small states from large ones While the approaches taken by the authors vary in all cases the chapters draw practical policy implications for small states The book can therefore be considered as a wide ranging depository of information on small states with the aim of deriving policy prescriptions and thus as an excellent resource for academics students and policymakers *The Geography of the World Economy 5th Edition* Paul Knox, John Agnew, Linda McCarthy, 2014-04-04 The Geography of the World Economy provides an in depth and stimulating introduction to the globalization of the world economy The book offers a consideration of local regional national and global economic development over the long historical term The theory and practice of economic and political geography provide a basis for understanding the interactions within and among the developed and developing countries of the world Illustrated in colour throughout this new edition has been completely reworked and updated to take account of the substantial changes in the world economy and includes a new chapter on services It is ideal for upper level university undergraduates and for post graduates in a variety of specializations including geography economics political science international relations and global studies *Alternative Special and Differential Arrangements for Small Economies* Michael Davenport, 2002 Small states face particular problems in integrating into the world economy These stem from diseconomies of scale and scope but are often exacerbated by isolation and high transport costs However their efforts to obtain special and differential treatment analogous to but not necessarily identical to that received by least developed countries have been resisted by both developed and developing countries This study considers alternative ways of achieving this goal Although the special problems of small economies are receiving greater attention from the international community problems still remain By suggesting alternatives

to traditional differential treatment Dr Davenport's study will generate much interest both among donors and with small states
