**Alternative Futures for the State Courts of 2020** James A. Dator, 1991      Land Use Scenarios Alan W. Shearer, David A. Mouat, Scott D. Bassett, Michael W. Binford, Craig W. Johnson, Justin A. Saarinen, Alan W. Gertler, Julide Koracin, 2009-01-14 Any alteration of the natural processes occurring on a piece of land will have expected as well as unanticipated effects and those effects have little regard for arbitrary human boundaries Consequently it is not enough for land managers to consider only how they might maintain the parcels for which they are responsible they must also anticipate      *Advancing Futures* James A. Dator, 2002-04-30 What is Futures Studies what are the theories and methods underlying the field What are its basic concepts and metaphors and how is it related to other academic fields These are the core questions addressed in this book by a comprehensive assembly of distinguished scholars They explore the enigma of why Futures Studies despite its growing maturity as an intellectual endeavor after more than three decades of groundbreaking work still struggles for institutional acceptance Together these contributors paint a picture of Futures Studies not so much a product of the stale intellectual heritage of the 20th century but as a vibrant harbinger of intellectual perspectives sure to gain wider currency in the 21st Drawing on their backgrounds in fields as diverse as political science history sociology anthropology economics psychology management and human ecology this international line up of contributors includes world systems theorist Immanuel Wallerstein philosopher Peter Manicas management professor Bill Halal and industrial sociologist Arthur Shostak

anyone interested in the perils and promise of the twenty first century      Futures Research Quarterly ,1994      Living Make-Belief: Thriving in a Dream Society Jim Dator,2024-05-27 This book shows how multiple developments have caused the world to move from an information society to a dream society Ongoing social and technological forces are pushing us from a world of words rationality and truth into a world of images performance and make belief Rather than deny or reject this transformation this book argues that one should understand and embrace it as waves of new futures that the world must strive to surf for fame and fun As a political scientist and futurist the author also offers hints of new goals and forms of governance fit for a dream society as he demonstrates that all current systems are ineffective and dangerously obsolete This book is of great interest to political philosophers futures scientists sociologists and those interested in cultural studies
