Alternatives To Tv Handbook:

The Alternative Media Handbook Kate Coyer, Tony Dowmunt, Alan Fountain, 2007-12-27 This book offers an overview of global alternative media activity before moving on to provide information about alternative media production and how to get involved in it **Handbook of Classroom English - Oxford Handbooks for Language Teachers** Glynn S.

Hughes, 2013-07-15 This practical handbook is for trainee teachers who want to acquire accurate authentic and idiomatic classroom language and for experienced teachers who want to extend the range of their classroom English *The Television Handbook* Jeremy Orlebar, Jonathan Bignell, 2007-05-07 Updated to include information and discussion on new technologies and new critical ideas Jonathon Bignell and Jeremy Orlebar present this excellent critical introduction to the practice and theory of television which relates media studies theories and critical approaches to practical television programme making Featuring advice on many aspects of programme making from initial ideas to post production processes and includes profiles to give insight into how people in the industry from graduates to executives think about their work With debates on what is meant by quality television key discussions include the state of television today how television is made and how production is organized how new technology and the changing structure of the television industry will lead the medium in new directions the rise of new formats such as Reality TV how drama sport and music television can be understood Handbook on Life Cycle Assessment Jeroen B. Guinée, 2006-04-11 Environmental policy aims at the transition to sustainable production and consumption This is taking place in different ways and at different levels In cases where businesses are continuously active to improve the environmental performance of their products and activities the availability of knowledge on environmental impacts is indispensable The integrated assessment of all environmental impacts from cradle to grave is the basis for many decisions relating to achieving improved products and services The assessment tool most widely used for this is the environmental Life Cycle Assessment or LCA Before you is the new Handbook of LCA replacing the previous edition of 1992 New developments in LCA methodology from all over the world have been discussed and where possible included in this new Handbook Integration of all developments into a new consistent method has been the main aim for the new Handbook The thinking on environment and sustainability is however quickly evolving so that it is already clear now that this new LCA Handbook does not embrace the very latest developments Therefore further revisions will have to take place in the future A major advantage of this Handbook is that it now also advises which procedures should be followed to achieve adequate relevant and accepted results Furthermore the distinction between detailed and simplified LCA makes this Handbook more broadly applicable while guidance is provided as to which additional information can be relevant for specialised applications
