Childs, Gerard Van Herk**

## **Alzheimer Talk Text And Context Enhancing Communication:**

Alzheimer Talk, Text and Context B. Davis, 2005-06-28 The contributors to this volume reference a shared longitudinal corpus of spontaneous conversation elicited in natural settings from speakers with moderate to late moderate Alzheimer's Disease utilizing other collections as appropriate to analyze conversation discourse and written text by and about Alzheimer's speech Cross disciplinary contributions from the USA Canada New Zealand and Germany representing linguistics gerontology geriatric nursing computer science and communications disorders report on empirically based investigations of social and pragmatic language competencies and strategies retained by AD patients which could ground communication enhancements or interventions

**Phraseology** Sylviane Granger, Fanny Meunier, 2008-06-01 Long regarded as a peripheral issue phraseology is now taking centre stage in a wide range of fields This recent explosion of interest undoubtedly has a great deal to do with the development of corpus linguistics research which has both demonstrated the key role of phraseological expressions in language and provided researchers with automated methods of extraction and analysis The aim of this volume is to take stock of current research in phraseology from a variety of perspectives theoretical descriptive contrastive cultural lexicographic and computational It contains overview chapters by leading experts in the field and a series of case studies focusing on a wide range of multiword units collocations similes idioms routine formulae and recurrent phrases The volume is an invitation for experienced phraseologists to look at the field with different eyes and a useful introduction for the many researchers who are intrigued by phraseology but need help in finding their way in this rich but complex domain

*The Handbook of Clinical Linguistics* Martin J. Ball, Nicole Müller, Elizabeth Spencer, 2024-01-04 The new edition of the leading reference work on Clinical Linguistics fully updated with new research and developments in the field The Handbook of Clinical Linguistics Second Edition provides a timely and authoritative survey of this interdisciplinary field exploring the application of linguistic theory and method to the study of speech and language disorders Containing 42 in depth chapters by an international panel of established and rising scholars this classic volume addresses a wide range of pathologies while offering valuable insights into key theory and research multilingual and cross linguistics factors analysis and assessment methods and more Now in its second edition The Handbook of Clinical Linguistics features nine entirely new chapters on clinical corpus linguistics multimodal analysis cognition and language the linguistics of sign languages clinical phonotactics typical and nontypical phonological development clinical phonology and phonological assessment and two chapters on instrumental analysis of voice and speech production Revised and expanded chapters incorporate new research in clinical linguistics and place greater emphasis on specific speech disorders connections to literacy and multilingualism This invaluable reference works Reflects the latest developments in new research and data as well as changing perspectives about the priorities and future of the field Features new and revised chapters throughout many with new authors or authorial teams Offers well rounded coverage of the major areas of the speech sciences in the study of communication disorders

Discusses how mainstream theories and descriptions of language are influenced by clinical research Building on the success of the first edition The Handbook of Clinical Linguistics Second Edition is an indispensable resource for researchers and advanced students across all areas of speech language sciences including speech disorders speech pathology speech therapy communication disorders cognitive linguistics and neurolinguistics *Gerontological Nursing: Competencies for Care* Kristen L. Mauk,2022-03-29 The Fifth Edition of Gerontological Nursing takes a holistic approach and teaches students how to provide quality patient care for the older adult preparing them to effectively care for this population **Handbook of the Clinical Psychology of Ageing** Robert T. Woods,Linda Clare,2015-06-22 The first authoritative reference on clinical psychology and aging the Handbook of the Clinical Psychology of Ageing was universally regarded as a landmark publication when it was first published in 1996 Fully revised and updated the Second Edition retains the breadth of coverage of the original providing a complete and balanced picture of all areas of clinical research and practice with older people Contributions from the UK North America Scandinavia and Australia provide a broad overview of the psychology of aging psychological problems including depression anxiety psychosis and dementia the current social service context and assessment and intervention techniques *Data Collection in Sociolinguistics* Christine Mallinson,Becky Childs,Gerard Van Herk,2013-05-29 This edited volume provides up to date succinct relevant and informative discussion about methods of data collection in sociolinguistic research It covers the main areas of research design conducting research and sharing data findings with longer chapters and shorter vignettes written by a range of top sociolinguists both veteran and emerging scholars Here is the one stop go to guide for the numerous quantitative qualitative and mixed methods that are used in sociolinguistic research ensuring that Data Collection in Sociolinguistics will be not only useful in the classroom but also as a reference tool for active researchers For more information visit [sociolinguisticdatacollection.com](http://sociolinguisticdatacollection.com) **Fillers, Pauses and Placeholders** Nino Amiridze,Boyd H. Davis,Margaret MacLagan,2010 Fillers are items that speakers insert in spontaneous speech as a repair strategy Types of fillers include hesitation markers and placeholders Both are used to fill pauses that arise during planning problems or in lexical retrieval failure However while hesitation markers may not bear any resemblance to lexical items they replace placeholders typically share some morphosyntactic properties with the target form Additionally fillers can function as a pragmatic tool in order to replace lexical items that the speaker wants to avoid mentioning for some reason The present volume is the first collection on the topic of fillers and will be a useful reference work for future investigations on the topic It consists of typological surveys and in depth studies exploring the form and use of fillers across languages and sections of different populations including cognitively impaired speakers The volume will be interesting to typologists and linguists working in discourse studies **Applied Health Humanities for the Aging** Trini Stickle,Lorna E. Segall,2024-12-18 This book provides a collection of interventions from researchers and clinicians health humanities experiences and makes their methods available to home and institutional caregivers to aid interactions with the elderly

particularly persons diagnosed with dementia As a revolutionary perspective connecting medical training and treatment with lessons from the humanities medical humanities emphasizes the treatment and care of disease the science of the human and offers an integrated approach to health professional education that include lessons from comparative religion history literature philosophy the visual and performing arts Highlighting the needs of persons with dementia and their caregivers this compilation shows how the arts can play a primary role in empowering families and communities to offer creative and meaningful care within their own homes and communities Each chapter provides an overview of a specific creative application reading and commonplacing storytelling intergenerational musical activities Bingocize haiku making and animatronic pet activities the evidence based support for its benefits and clear and accessible instructions for the reader These methods offer insightful approaches to care in which skills such as active listening can provide in roads to patient experiences as well as an array of creative approaches to ameliorate the physical and mental consequences of isolation and loneliness that too often accompany aging and disease This text will be of interest to healthcare workers and allied health professionals healthcare administrators and family members      *Applying Linguistics in Health Research, Education, and Policy* Brett A. Diaz, Robert W. Schrauf, 2022-11-07 Researchers in applied linguistics have found medical and health contexts to be fertile grounds for study from macro levels of conceptual analyses to micro levels of the turn by turn The rich array of health contexts include medical research itself clinical encounters medical education and training caregivers and patients in everyday life from the formal and ritualized to the ad hoc and ephemeral This volume foregrounds the crucial role of applied linguists addressing real world problems while simultaneously highlighting the varied ways that health can be understood as a rich site of language inquiry in its own right Chapters cover a range of health topics including medical training medical interaction disability in education health policy analysis and recommendations multidisciplinary research teams and medical ethics While reporting and reflecting on their specific topics in clinical and health contexts contributors also articulate their own hybrid identities as professional collaborators in health research education and policy      *Corpus Linguistics Beyond the Word*, 2015-07-14 This volume will be of particular interest to readers interested in expanding the applications of corpus linguistics techniques through new tools and approaches The text includes selected papers from the Fifth North American Symposium hosted by the Linguistics Department at Montclair State University in Montclair New Jersey in May 2004 The symposium papers represented several areas of corpus studies including language development syntactic analysis pragmatics and discourse language change register variation corpus creation and annotation and practical applications of corpus work primarily in language teaching but also in medical training and machine translation A common thread through most of the papers was the use of corpora to study domains longer than the word Not surprisingly fully half of the papers deal with the computational tools and linguistic strategies needed to search for and analyze these longer spans of language while most of the remaining papers examine particular syntactic and rhetorical properties of one or more corpora      *The*

*Poetics and Politics of Alzheimer's Disease Life-Writing* Martina Zimmermann, 2017-06-07 This book is open access under a CC BY 4.0 license This is the first book length exploration of the thoughts and experiences expressed by dementia patients in published narratives over the last thirty years It contrasts third person caregiver and first person patient accounts from different languages and a range of media focusing on the poetical and political questions these narratives raise what images do narrators appropriate what narrative plot do they adapt and how do they draw on established strategies of life writing It also analyses how these accounts engage with the culturally dominant Alzheimer's narrative that centres on dependence and vulnerability and addresses how they relate to discourses of gender and aging Linking literary scholarship to the medico scientific understanding of dementia as a neurodegenerative condition this book argues that first patients articulations must be made central to dementia discourse and second committed alleviation of caregiver burden through social support systems and altered healthcare policies requires significantly altered views about aging dementia and Alzheimer's patients

*Discourse Analysis in Adults With and Without Communication Disorders* Carl Coelho, Leora R. Cherney, Barbara B. Shadden, 2022-07-14 Discourse Analysis in Adults With and Without Communication Disorders A Resource for Clinicians and Researchers provides state of the art information about discourse analysis with sections on Aging Aphasia Cognitive Communication Disorders and Neurodegenerative Diseases The three renowned editors are actively engaged in the area of discourse Expert clinical researchers introduce and organize each section and chapters are authored by leaders involved in discourse research worldwide Discourse is considered the most natural unit of language Effective production of discourse requires complex interactions among linguistic cognitive and social abilities that are sensitive to even mild disruption in any one of these elements This book covers the examination of discourse in adults with acquired communication disorders including selecting elicitation tasks streamlining transcription processes expanding analysis methods and translating findings for treatment application Key Features Provides a global perspective on discourse assessment for clinicians Dedicated chapters on aging aphasia traumatic brain injury right hemisphere disorder primary progressive aphasia Alzheimer's dementia Parkinson's disease and amyotrophic lateral sclerosis Disclaimer Please note that ancillary content such as documents audio and video etc may not be included as published in the original print version of this book **An**

**Ethno-Social Approach to Code Choice in Bilinguals Living with Alzheimer's** Carolin Schneider, 2023-12-24 This book examines the under researched field of communication by bilingual people with dementia of the Alzheimer's type DAT The aging population is increasingly affected by neurocognitive diseases such as DAT and over the past 30 years the growing research body concerned with monolingual DAT discourses has seen significant growth The findings from monolingual studies and institutional settings highlight the importance of code choice for a person's sense of autonomy especially against the background of changing communicational abilities Adding a new perspective this book investigates how ten Puerto Rican speakers living with varying stages of DAT draw on their bilingual resources to accomplish verbal interaction in informal

settings with their primary care partners Drawing on narrative interviews conducted in Orlando Florida this multi case study investigates situated language choices and code switches by applying the ethno social approach i e combining features of conversation analysis and ethnography of communication The author sheds light both on the question of how people living with DAT engage in conversations and which strategies they employ in their languages English and Spanish to reach their communicative goals Specifically by analyzing the role of code choice and code switching in a qualitative manner two main functional categories emerge discourse related and participant related code switching Bilingual competencies remain even among participants living with severe DAT symptoms as evident in retained interactional sequences such as salutations Persons living with DAT competently negotiate code either through exploratory code switching or metalinguistic commentary emphasizing the need for conversational partners to be sensitive to the communicative needs in both languages of speakers living with DAT This book will be of interest to students and researchers working on dementia discourses health communication multilingualism and ageing as well as Bilingual Multilingual families or individuals living with dementia

*Dialogue and Dementia* Robert W. Schrauf, Nicole Müller, 2013-11-20 This volume takes the positive view that conversation between persons with dementia and their interlocutors is a privileged site for ongoing cognitive engagement The book aims to identify and describe specific linguistic devices or strategies at the level of turn by turn talk that promote and extend conversation and to explore real world engagements that reflect these strategies Final reflections tie these linguistic strategies and practices to wider issues of the self and agency in persons with dementia Thematically the volume fosters an integrated perspective on communication and cognition in terms of which communicative resources are recognized as cognitive resources and communicative interaction is treated as reflecting cognitive engagement This reflects perspectives in cognitive anthropology and cognitive science that regard human cognitive activity as distributed and culturally rooted This volume is intended for academic researchers and advanced students in applied linguistics linguistic and medical anthropology nursing and social gerontology and practice professionals in speech language pathology and geropsychology

**The Routledge Pragmatics Encyclopedia** Louise Cummings, 2010-04-05 Pragmatics has grown considerably in its relatively short history from its original disciplinary influences in philosophy and linguistics into a multidisciplinary field that encompasses a range of theoretical and empirical concerns The Routledge Pragmatics Encyclopedia captures the diversity of these intellectual interests in a comprehensive single volume edition The Routledge Pragmatics Encyclopedia covers concepts and theories that have traditionally been associated with pragmatics but also recent areas of development within the field scholars who have had a significant influence on pragmatics interdisciplinary exchanges between pragmatics and other areas of enquiry and all major research trends Extensive cross references between entries along with suggestions for further reading at the end of entries ensure that the interested reader can pursue additional study of chosen topics With over 200 entries written by leading academics from around the world The Routledge

Pragmatics Encyclopedia captures the rich complexity of pragmatics in an accessible manner This reference will be relevant to students of pragmatics as well as to established scholars in the field *Cognition, Language and Aging* Heather Harris Wright, 2016-03-16 Age related changes in cognitive and language functions have been extensively researched over the past half century The older adult represents a unique population for studying cognition and language because of the many challenges that are presented with investigating this population including individual differences in education life experiences health issues social identity as well as gender The purpose of this book is to provide an advanced text that considers these unique challenges and assembles in one source current information regarding a language in the aging population and b current theories accounting for age related changes in language function A thoughtful and comprehensive review of current research spanning different disciplines that study aging will achieve this purpose Such disciplines include linguistics psychology sociolinguistics neurosciences cognitive sciences and communication sciences As of January 2019 this e book is freely available thanks to the support of libraries working with Knowledge Unlatched **Tom Kitwood On Dementia: A Reader And Critical Commentary** Baldwin, Clive, Capstick, Andrea, 2007-10-01 The book will be valuable for undergraduate and postgraduate students researchers and lecturers involved in the field of dementia care and the health care sciences Furthermore it provides a useful resource for clinicians who wish to explore their understanding of personhood person centred care and the nature of Kitwood s critical appraisal of how care should be constructed and delivered Ageing and Society Baldwin and Capstick have produced an honest appraisal that is undeniably a reader and critical commentary and have not shirked from any responsibilities This paperback would serve two distinct strands of readership equally well those coming afresh to dementia care or practitioners steeped in the concepts who are looking to reanalyse and consider future developments As such it is difficult to underestimate its value Nursing in Practice How does Kitwood s work contribute to our understanding of the dementing process and the essentials of quality care How was Kitwood s thinking about dementia influenced by the wider context of his work in theology psychology and biochemistry What is the relevance today of key themes and issues in Kitwood s work Tom Kitwood was one of the most influential writers on dementia of the last 20 years Key concepts and approaches from his work on person centred care and well being in dementia have gained international recognition and shaped much current thinking about practice development The complexities of Kitwood s work and the development of his thinking over time have however received less attention This Reader brings together twenty original publications by Kitwood which span the entire period of his writing on dementia and the different audiences for whom he wrote Almost ten years after Kitwood s death it is now timely to review his contribution to the field of dementia studies in the light of more recent developments and from a critical and interdisciplinary perspective The introduction to this Reader summarises and problematises some of the key characteristics of Kitwood s writing Each of the four themed sections begins with a commentary offering a balanced consideration of the strengths of Kitwood s work but also of its limitations and

oversights The Reader also includes a biography and annotated bibliography Tom Kitwood on Dementia A Reader and Critical Commentary is key reading for students of social work or mental health nursing with an interest in dementia care Professionals working with people with dementia will also find it invaluable Additional Contributors Habib Chaudhury Deborah O Connor Alison Phinney Barbara Purves Ruth Bartlett Language, Culture and the Dynamics of Age Anna Duszak,Urszula Okulska,2011 The book explores the role of age in communication under consideration of various age groups the elderly middle aged teenagers children genres cultures and languages The social skewing of the contributions explains the book s focus on discourse mediated social identities with age implicated as a viable controller of how social action is strategically deployed for alignment and alienation accommodation and divergence The studies in the book show the particular importance of the discursive construction of age in the face of new challenges of globalization increased human mobility and rising intergenerational conflicts **Dementia and Literature** Tess Maginess,2017-08-09 Dementia is an urgent global concern often termed a widespread problem tragedy or burden and a subject best addressed by health and social policy and practice However creative writers can offer powerful and imaginative insights into the experience of dementia across cultures and over time This cross disciplinary volume explores how engaging with dementia through its myriad literary representations can help to deepen and humanise attitudes to people living with the condition Offering and interrogating a wide array of perspectives about how dementia might be imagined this book allows us to see how different ways of being can inflect one another By drawing on the lived experience of the individual unique person and their loved ones literature can contribute to a deeper and more compassionate and more liberating attitude to a phenomenon that is both natural and unnatural Novels plays and stories reveal a rich panoply of responses ranging from the tragic to the comic allowing us to understand that people with dementia often offer us models of humour courage and resilience and carers can also embody a range of responses from rigidity to compassion Dementia and Literature problematises the subject of dementia encouraging us all to question our own hegemonies critically and creatively Drawing on literary studies cultural studies education clinical psychology psychiatry nursing and gerontology this book is a fascinating contribution to the emerging area of the medical and health humanities The book will be of interest to those living with dementia and their caregivers as well as to the academic community and policy makers The Handbook of Discourse Analysis Deborah Tannen,Heidi E. Hamilton,Deborah Schiffrin,2015-03-30 The second edition of the highly successful Handbook of Discourse Analysis has been expanded and thoroughly updated to reflect the very latest research to have developed since the original publication including new theoretical paradigms and discourse analytic models in an authoritative two volume set Twenty new chapters highlight emerging trends and the latest areas of research Contributions reflect the range depth and richness of current research in the field Chapters are written by internationally recognized leaders in their respective fields constituting a Who s Who of Discourse Analysis A vital resource for scholars and students in discourse studies as well as for researchers in related fields

who seek authoritative overviews of discourse analytic issues theories and methods
