Course Design For College Teachers:

Designing Courses For Higher Education Toohey, Susan, 1999-05-01 This book focuses not on teaching techniques but on the strategic decisions which must be made before a course begins It provides realistic advice for university and college teachers on how to design more effective courses without underestimating the complexity of the task facing course developers and offers course designers both an understanding and a framework within which to clarify their own teaching purposes *Course Design for University Lecturers* Allen Horace Miller, 1987 This book is a guide for university and college lecturers who have no formal training in education It presents the basic theories of effective teaching and learning in a clear logical form and gives examples from university and college courses in a number of countries The book attempts to answer the following questions and in so doing provide a framework for course design and allow lecturers to evaluate their own programs Why is this course being taught What new knowledge skills or attitudes do I expect my students to develop during this course What levels of knowledge or skills do I expect in students when they enrol in this course For students to develop the attributes listed above what experiences do I need to provide for them during this course Assuming equivalent backgrounds on entry will all students benefit from essentially the same experiences in the course If students need to be offered a range of experiences what variation is possible given restraints on resources What resources are available for teaching this course Given the purposes of this course and the type of subject matter being learned is there a logical order for the treatment of topics How will I know whether this course is progressing satisfactorily How will I know whether this course has been successful and whether certain changes would improve it for future groups of students Course Design for College Teachers Lawrence Allen Lovell-Troy, Paul Eickmann, 1992 The Three-stage Model of Course Design John Frederick Feldhusen, 1980 **Evidence-Based Blended and Online Learning** Jan Nedermeijer, 2023-09-29 Universities and their teachers are more than ever required to re design their courses considering online environments Although face to face teaching remains fundamental exploring online alternatives is becoming increasingly necessary Still how can university teacher designers proceed with such a change in their courses What is the most effective way to design an online course How can university teacher designers attract the attention of students and make teaching interesting and compelling Evidence Based Blended and Online Learning Course Design for University Teachers answers these questions It provides a thorough evidence based overview of each step required to make an effective course redesign The book is aimed at teachers and more significantly teacher designers committed to redesigning their courses based on solid principles The book s design approach makes it much easier to translate the results of educational research on applying blended learning in educational practice Jan Nedermeijer has worked as an educational expert for several universities and as a senior expert for PUM Netherlands in several countries The book synthesises the results of the numerous course and curriculum development projects he has conducted over many years His approach can help university teachers implement IT in feasible practical and interesting ways

Evidence Based Blended and Online Learning gives lecturers tailor made pedagogical suggestions for designing modern higher education Course design tasks are re described using features from technical design problem solving and design thinking where creative design has a unique and essential role Handbook of Procedures for the Design of Instruction Leslie J. Briggs,Walter W. Wager,1981 Abstract A handbook for instructors students and practicing instruction designers provides procedures and information concerning the design of print or non print instructional materials including information tests performance objectives how to do it applications examples exercises and answer keys Topics include instruction design basics determining needs objectives priorities resources and constraints for selecting an instruction based delivery system guidelines for defining and writing objectives procedures for organizing the course the study unit and the lesson a discussion of factors influencing media selection the design of lessons and materials student learning assessment a formative evaluation strategy and the evaluation of the instructor s training Information tests and exercises accompany most of the 12 chapters Numerous illustrations and examples are given throughout the text wz **The Craft of College Teaching** Robert DiYanni,Anton Borst,2020-03-03 Robert DiYanni and Anton Borst s Classroom Confidential provides a clear compact guide to the basics of college teaching Grounded in the authors classroom experience their pedagogical coaching at NYU s Center for the Advancement of Teaching and their examination of the latest learning science research it explains how to teach in the college classroom from a learner s perspective what methods principles and activities achieve the best learning outcomes Chapters address major topics from course and syllabus design to discussion based teaching critical reading and assessment while brief interludes cover various pedagogical elements and applications including what to do on the first and last days of class and how to incorporate service and experiential learning into curricula Throughout the authors provide practical suggestions and strategies while explaining the underlying pedagogical principles They also address recent topics that promise to remain fixtures of the educational landscape such as teaching with technology and teaching in a global context They steer a middle course on technology suggesting ways to maximize its benefits while minimizing its distractions The book coheres around a philosophy of active learning and student engagement DiYanni and Borst argue that teaching practices should challenge students to think and learn requiring them to do things with newly acquired knowledge create models conduct experiments debate issues and more The authors enlist reliable scholarly research to demonstrate that active learning of the kind they advocate achieves results students learn more and better and their learning is deeper and longer lasting The authors pedagogy echoes their epistemology as they demonstrate how learning and teaching are inextricably intertwined organic rather than mechanical activities Effective College and University Teaching William Buskist,2012 Using empirical research this text gives faculty and graduate teaching assistants the tools for understanding why certain teaching practices work and how to adjust their teaching to changing classroom room and online environments
