Covering Mccarthyism How The Christian Science Monitor Handled Joseph R Mccarthy 1950 1954:

Covering McCarthyism Lawrence N. Strout, Covering McCarthyism Lawrence N. Strout, 1999-09-30 Strout examines how the Christian Science Monitor a highly influential newspaper of the era covered Joseph R McCarthy and McCarthyism from the Senator s Lincoln Day speech in February 1950 through his censure in December 1954 Through his in depth examination of the Monitor s interoffice communications Strout examines how the Monitor s coverage compared with other elite and popular press newspapers and how the pressures associated with McCarthyism affected individuals at the Monitor An extensive review of the Monitor s editorials and news articles suggests that it was remarkably thorough and fair in its reporting while still being outspoken but responsible in its criticism While many newspapers attacked McCarthy personally the Monitor concentrated on the actions of the junior senator and the negative effects they were having at home and abroad As Strout sees it the Monitor served as a voice of moderation while simultaneously being a persistent critic of McCarthy s tactics McCarthyism Jonathan Michaels, 2017-04-21 In this succinct text Jonathan Michaels examines the rise of anti communist sentiment in the postwar United States exploring the factors that facilitated McCarthyism and assessing the long term effects on US politics and culture McCarthyism The Realities Delusions and Politics Behind the 1950s Red Scare offers an analysis of the ways in which fear of communism manifested in daily American life giving readers a rich understanding of this era of postwar American history Including primary documents and a companion website Michaels text presents a fully integrated picture of McCarthyism and the cultural climate of the United States in the aftermath of the Second World War The Christian Science Monitor Linda K. Fuller, 2011-09-12 This text provides a unique examination of The Christian Science Monitor a highly respected venerable news publication that has survived over a century of changes and challenges The Christian Science Monitor is one of the world s leading journalistic publications having won multiple Pulitzer prizes for its reporting CSM is innovative and forward thinking as well it was one of the first newspapers to provide an online copy of its daily reporting in 1996 well before the popularization of the Internet But just like other publications The Christian Science Monitor will need to continue to reinvent itself in order to stay relevant and solvent in the face of plummeting readership numbers corporate takeovers and a widespread assumption that all of today s news sources are biased and inaccurate This book provides a thorough discussion of CSM s treatment of sensitive topics like terrorism international crises gender issues and sexual orientation The paper s attitudes toward ethnicity ethics economics philosophy and racism are also profiled The conclusion provides readers with an opportunity to draw upon their new knowledge of The Christian Science Monitor s past to project its direction for the future **Dark Days in the Newsroom** Edward Alwood, 2007-06-28 Dark Days in the Newsroom traces how journalists became radicalized during the Depression era only to become targets of Senator Joseph McCarthy and like minded anti Communist crusaders during the 1950s Edward Alwood a former news correspondent describes this remarkable story of conflict principle and personal sacrifice with noticeable lan He

shows how McCarthy's minions pried inside newsrooms thought to be sacrosanct under the First Amendment and details how journalists mounted a heroic defense of freedom of the press while others secretly enlisted in the government's anti-communist crusade. Relying on previously undisclosed documents from FBI files along with personal interviews, Alwood provides a richly informed commentary on one of the most significant moments in the history of American journalism. Arguing that the experiences of the McCarthy years profoundly influenced the practice of journalism, he shows how many of the issues faced by journalists in the 1950s prefigure today's conflicts over the right of journalists to protect their sources.

A Genius for Confusion Richard M. Fried, 2022-10-15 This new biography of Joseph R. McCarthy shows how the Wisconsin Senator's campaign against American Communists prized sensation above truth. McCarthy often put aside his hunt for Reds while he pursued his anti-communist critics. He fought foes not just with noisy accusations but with covert gossip. He was gullible enough that some con artists managed to lure him on wild goose chases. The man who charged others with being dupes was sometimes one himself. Historian Fried's book builds on over a decade's research in a multitude of sources, many of them newly opened: not just McCarthy's own papers but those of forty-seven Senate colleagues plus records of journalists, observers, and activists. It brings to light such theatrical episodes as a CIA op against McCarthy as well as Joe's quixotic search for Soviet security chief Lavrenti Beria in Spain. The resulting multi-focal perspective on the political and institutional setting in which McCarthy operated with such abandon is full of drama.

American Journalism W. David Sloan, Lisa Mullikin Parcell, 2014-01-10 News consumers made cynical by sensationalist banners AMERICA STRIKES BACK, THE TERROR OF ANTHRAX, and lurid leads might be surprised to learn that in 1690 the newspaper Publick Occurrences gossiped about the sexual indiscretions of French royalty or seasoned the story of missing children by adding that barbarous Indians were lurking about before the disappearance. Surprising too might be the media's steady adherence to it, if continual tugging at its philosophical and ethical moorings. These 39 essays, written and edited by the nation's leading professors of journalism, cover the theory and practice of print, radio, and TV news reporting; politics and partisanship; press and the government; gender and the press corps; presidential coverage; war reportage; technology and news gathering; sensationalism. Each subject is treated individually. Appropriate for interested lay persons, students, professors, and reporters. ,2000 **Voices in the Wilderness** Michael Meadows,2000-12-30 This book examines race relations in Australia through various media representations over the past 200 years The early colonial press perpetuated the image of aboriginal people as framed by early explorers and stereotypes and assumptions still prevail Print and television news accounts of several key events in recent Australian history are compared and reveal how indigenous sources are excluded from stories about their affairs Journalists wield extraordinary power in shaping the images of cultures and people so indigenous people like those in North America have turned away from mainstream media and have acquired their own means of cultural production through radio television and multimedia This study concludes with suggestions for addressing media practices to reconcile indigenous and non indigenous people This study will appeal to students and scholars studying mass media particularly journalism and public relations Australian history and sociology **The Postwar Decline of American Newspapers, 1945-1965** David R.

Davies,2006-07-30 On the surface the American newspaper industry appears to have changed little from 1945 to 1965 remaining both healthy and prosperous The number of newspapers in 1965 was about the same as in 1945 while during the

twenty year period advertising revenues increased substantially despite new competition from television Just as in 1945 the vast majority of newspapers went to press with improved but old fashioned letterpress methods in 1965 And newspaper reporters still professed a strong if now somewhat shaken faith in the federal government at the end of the twenty years But the surface appearance of both stability and profitability obscured profound change In the two decades after World War II the business of newspaper publishing changed significantly in myriad ways By 1965 editors and publishers had recognized the extent of these changes and were beginning to adjust Each of the changes was significant of its own accord and the range of challenges throughout the period combined to transform newspapers and the nation they served by 1965 This transformation was evident to varying degrees in newspapers content their production methods their economic position within the overall media marketplace and their relationship with government Newspapers some more than others made strides to keep up with and overcome some of these challenges But in each of these areas newspapers as a group were slow to respond to the problems facing journalism

Brown and Black Communication Diana Rios, Ali Mohamed, 2003-07-30 Though Latinos and African Americans have lived together in large cities as neighbors there is much that is still misunderstood between them Those who live in non diverse locales have only news and entertainment representations on which to base their information about the two cultures This new collection of essays brings together the latest interdisciplinary works by scholars examining conflicts and convergences among Latinos and African Americans in mass mediated and cross cultural contexts Contributions in the form of both empirical and critical ethnographic research present compelling works in cross cultural relations news entertainment news media education and community relations IBrown and Black Communication R challenges those who do not think that significant projects and key research have been conducted on the two largest ethnic communities in the United States Of certain appeal to both scholars and those with more applied needs in media education and public policy this challenging collection offers a range of perspectives on two widely diverse bodies of American people

Regulating the Future W.A. K. Huff, 2001-05-30 This comprehensive study examines the case of AM stereo and subsequent technologies to demonstrate the FCC s evolution from stern to reluctant regulator It also examines emerging technologies such as multichannel television sound digital audio broadcasting and high definition television and discusses their impact on the evolution of broadcast regulation In the 1980s the tension between governmental control and the marketplace resulted in the FCC s deregulation of TV and radio electing to set only technical operating parameters and allowing legal operation of any system that meets those minimal standards Huff argues that this approach is likely to influence regulatory approaches to other new developments in broadcast technologies The extensive overview of the industry and the study of the interrelationships between the technologies will appeal to communication scholars in the fields of radio and television as well as interest industry professionals

Manufacturing the Gang Raúl Damacio Tovares, 2002-05-30 Coverage of Mexican American youth gangs has been a staple of local television news in the United

States for decades and its form and content have come to embody many journalistic clichés the rising tide of violence the spread of drug addiction the alienated minority youth But as this bold new study argues these stories contain gross exaggerations that lead to the reinforcement of stereotypes about Mexican American young people and the Mexican American community in general Indeed the police and community leaders greatly influence the content of this coverage by deciding what information to make available to the news media while reporters select certain sources and ignore others thus slanting the story even further As author Raul Tovar makes clear the true story of Mexican American youth is far more complex than local news would have its viewers believe Cultural values organizational structures and economic systems all contribute to the production of this journalism which itself has a direct and real impact on the lives of Mexican American teenagers Unlike other books on the subject of Mexican American youth gangs Tovar's work critiques the very assumptions on which ideas about such gangs are based and brings much needed attention to a timely and often misunderstood subject

Giving Meanings to the World Giovanna Dell'Orto, 2002-06-30 How did the first United States foreign correspondents help shape an American common sense about the rest of the world This new study is the first to address this key question examining the images of foreign countries that emerge from the first formally organized American foreign correspondence Its focus is on the discourses of the world constructed in mid 19th century correspondence which provided American newspaper readers with their first cohesive view of the world outside its borders By emphasizing the emergence of foreign correspondence across its first two decades 1838 1859 and by comparing it to images in editorial and congressional debates of the time Giovanna Dell'Orto's analysis addresses the pivotal question of what meanings were ascribed to foreign cultures during this key time *Giving Meanings to the World* also establishes for the first time in scholarly literature the early history of the content of foreign news and editorials in American newspapers while also exploring alternative constructions of foreign cultures in the correspondence for an African American newspaper and by women writers Unique in both subject matter and approach this work gathers together and puts into perspective an array of information and discussion about how America viewed other nations in the early days of foreign correspondence

Native American Speakers of the Eastern Woodlands Barbara Alice Mann, 2001-04-30 This collection of essays examines in context eastern Native American speeches which are translated and reprinted in their entirety Anthologies of Native American orators typically focus on the rhetoric of western speakers but overlook the contributions of Eastern speakers The roles women played both as speakers themselves and as creators of the speeches delivered by the men are also commonly overlooked Finally most anthologies mine only English language sources ignoring the fraught records of the earliest Spanish conquistadors and French adventurers This study fills all these gaps and also challenges the conventional assumption that Native thought had little or no impact on liberal perspectives and critiques of Europe Essays are arranged so that the speeches progress chronologically to reveal the evolving assessments and responses to the European presence in North America from the mid sixteenth century to the

twentieth century Providing a discussion of the history culture and oratory of eastern Native Americans this work will appeal to scholars of Native American history and of communications and rhetoric Speeches represent the full range of the woodland east and are taken from primary sources
