Graff Collection of Western Americana Colton Storm,1968 The Everett D Graff Collection of Western Americana consists of some 10 000 books manuscripts maps pamphlets broadsides broadsheets and photographs of which about half are described in the present catalogue The Graff Collection displays the remarkable breadth of interest knowledge and taste of a great bibliophile and student of Western American history From this rich collection now in The Newberry Library Chicago its former Curator Colton Storm has compiled a discriminating and representative Catalogue of the rarer and more unusual materials Book jacket *Initiation into the Mysteries of the Ancient World* Jan N. Bremmer,2014-07-28 The ancient Mysteries have long attracted the interest of scholars an interest that goes back at least to the time of the Reformation After a period of interest around the turn of the twentieth century recent decades have seen an important study of Walter Burkert 1987 Yet his thematic approach makes it hard to see how the actual initiation into the Mysteries took place To do precisely that is the aim of this book It gives a thick description of the major Mysteries not only of the famous Eleusinian Mysteries but also those located at the interface of Greece and Anatolia the Mysteries of Samothrace Imbros and Lemnos as well as those of the Corybants It then proceeds to look at the Orphic Bacchic Mysteries which have become increasingly better understood due to the many discoveries of new texts in the recent times Having looked at classical Greece we move on to the Roman Empire where we study not only the lesser Mysteries which we know especially from Pausanias but also the new ones of Isis and Mithras We conclude our book with a discussion of the possible influence of the Mysteries on emerging Christianity Its detailed references and up to date bibliography will make this book indispensable for any scholar interested in the Mysteries and ancient religion but also for those scholars who work on initiation or esoteric rituals which were often inspired by the ancient Mysteries *The Insider's Guide to Old Books, Magazines, Newspapers, Trade Catalogs* Ronald S. dance forms Divided into nine chapters organized chronologically by historical era and predominant intellectual and artistic currents the book presents a history of an idea from one generation to another Each chapter contains introductions that not only provide context and significance for the individual source readings but also create narrative threads that link different chapters and time periods Based entirely on primary sources the book makes no claim to cite every source but rather in connecting the dots between significant high points it attempts to trace a coherent and fair narrative of the evolution of dance theory as a concept in Western culture
