A Garden Of Songs For Singing And Piping At Home And School:

Practical Advice to Teachers Rudolf Steiner, 2000 14 lectures Stuttgart August 21 September 5 1919 CW 294 How do Waldorf teachers put their educational ideals into practice in the classroom How does a teacher connect geography and art and language in a way that enlivens the souls of children What does a child's respect for the teacher mean for later life These are only a few practical aspects of this initial course for Waldorf teachers During an intensive two weeks Rudolf Steiner gave three simultaneous educational courses to those who would be the first teachers of the original Waldorf school One course provided the foundational ideas behind Waldorf education The Foundations of Human Experience another provided a forum for questions and lively discussions on specific issues in the classroom Discussions with Teachers In this course Steiner takes the middle path by integrating theory and practice Here Steiner spoke of new ways to teach reading writing geography geometry language and much more His approach is tailored to the spiritual and physical needs of the children themselves not to an arbitrary curriculum based solely on external results At a time when public education is in a state of crisis this book describes how children around the world are being guided into adulthood with a fuller sense of themselves and with a creative approach to life and the world around them German source Erziehungskunst Methodisch Didaktisches GA 294

Faculty Meetings with Rudolf Steiner Rudolf Steiner, 1998-09 8 lectures Stuttgart June 12 19 1921 CW 302 In these eight talks on education for teenaged young people Steiner addressed the teachers of the first Waldorf school two years after it was first opened A high school was needed and Steiner wanted to provide a foundation for study and a guide for teachers already familiar with his approach to the human being child development and education based on spiritual science Steiner's education affirms the being of every child within the world of spirit This approach works within the context of the child's gradual entry into earthly life aided by spiritual forces and children's need for an education that cooperates with those forces Some of Steiner's remarks may be controversial but unbiased study will lead to an appreciation of the profound thought and wisdom behind what is presented here German source Menschenkenntnis und Unterrichtsgestaltung GA 302 *The Roots of Education* Rudolf Steiner, 1998-02 In an age focused increasingly upon a cultural political and social understanding of otherness as diversity preferring to ponder God if at all mostly in terms of immanence depth psychology is in danger of becoming breadth psychology The search for transcendence has become more and more the province of New Age weekend workshops On the other hand depth psychology that seeks only the transpersonal without the incarnate spirit in the flesh of everyday relationships in history may likewise prove to be a failed enterprise In this work I compare and contrast Boehme's and Jung's experiences with a special focus on the religious or psychological experience of what Erich Neumann calls unitary reality a ground of being that contains all opposites in potentiality from the book *Dark Light of the Soul* explores the inner journeys of Jacob Boehme the seventeenth century Protestant mystic and C G Jung the twentieth century depth psychologist Each was concerned with the immediacy of experience yet comprehended the importance of spirit as a transforming

presence in human life Kathryn Wood Madden connects the experiences of these two pioneers focusing on a ground of being that contains all opposites in potentiality She examines those experiences from the perspective of depth psychology and religion offering meaningful insights for anyone on a path of inner development as well as for professionals in clinical settings Dark Light of the Soul will be of interest to all therapeutic clinicians and anyone who wishes a deeper understanding of and fresh paths into the human psyche Because so much tension exists in the world in the way each of us apprehends the divine we sorely need a way of working with our psyches this is imperative in fact to human existence and survival in the face of terrorism fundamentalism and archetypal evil We need to locate and work within a psycho spiritual umbrella that is large enough to house contradictions from the book

Discussions with Teachers Rudolf Steiner,1997-03 For two weeks prior to the opening of the first Waldorf school in Stuttgart Rudolf Steiner intensively prepared the individuals he had chosen to become the first Waldorf teachers At 9 00 a m he gave the course now translated as Foundations of Human Experience at 11 00 a m Practical Advice to Teachers and then after lunch from 3 00 p m to 6 00 p m he held the informal discussions published in this book The tone is spontaneous and relaxed Steiner does not prescribe specific methods but introduces topics and situations giving guidelines and allocating practical assignments that are taken up and discussed in the next session In this way the discussions are filled with insights and indications in many different areas of teaching history geography botany zoology form drawing mathematics Speech exercises are included This edition also includes for the first time in English three very important lectures on the curriculum given on the day before the school opened These fifteen discussions constitute an essential part of the basic training material for Waldorf teachers German sourc Erziehungskunst GA 295
