**Patton's War** Kevin M. Hymel, 2021-11-01 George S Patton Jr lived an exciting life in war and peace but he is best remembered for his World War II battlefield exploits Patton's War An American General's Combat Leadership November 1942 July 1944 the first of three volumes follows the general from the beaches of Morocco to the fields of France right before the birth of Third Army on the continent In highly engaging fashion Kevin Hymel uncovers new facts and challenges long held beliefs about the mercurial Patton not only examining his relationships with his superiors and fellow generals and colonels but also with the soldiers of all ranks whom he led Using new sources unavailable to previous historians and through extensive research of soldiers memoirs and interviews Hymel adds a new dimension to the telling of Patton's WWII story

*Truman and the Bomb* D. M. Giangreco, 2023-08 Many myths have grown up around President Harry S Truman's decision to use nuclear weapons against Imperial Japan In destroying these myths Truman and the Bomb will discomfort both Truman's critics and his supporters and force historians to reexamine what they think they know about the end of the Pacific War Myth Truman didn't know of the atomic bomb's development before he became president Fact Truman's knowledge of the bomb is revealed in his own carefully worded letters to a Senate colleague and specifically discussed in the correspondence between the army officers assigned to his Senate investigating committee Myth The huge casualty estimates cited by Truman and Secretary of War Henry Stimson were a postwar creation devised to hide their guilt for killing thousands of defenseless civilians Fact The flagrantly misrepresented low numbers are based on narrow slices of highly qualified and limited U S Army projections printed in a variety of briefing documents and are not from the actual invasion planning against Japan Myth Truman wanted to defeat Japan without any assistance from the Soviet Union and to freeze the USSR out of the postwar settlements Fact President Franklin D Roosevelt and President Truman desperately wanted Stalin's involvement in the bloody endgame of World War II and worked diligently and successfully toward that end Using previously unpublished material D M Giangreco busts these myths and more An award winning historian and expert on Truman Giangreco is perfectly situated to debunk the many deep rooted falsehoods about the roles played by American Soviet and Japanese leaders during the end of the World War II in the Pacific Truman and the Bomb a concise yet comprehensive study of Truman's decision to use the atomic bomb will prove to be a classic for studying presidential politics and influence on atomic warfare and its military and diplomatic components Making this book particularly valuable for professors and students as well as for military diplomatic and presidential historians and history buffs are extensive primary source materials including the planned U S naval and air operations in support of the Soviet invasion of Manchuria These documents support Giangreco's arguments while enabling the reader to enter the mindsets of Truman and his administration as well as the war's key Allied participants **An Uncommon Man** G. Billick,1977 **The Ethics of Giacomo Leopardi** Alice Gibson,2023-10-19 Providing a comprehensive introduction to the work of pioneering poet philosopher Giacomo Leopardi Alice Gibson pushes his thought into new directions by investigating how his ethics and philosophy of nature offer means for understanding and taking responsibility for the environmental crisis Through examination of the whole of Leopardi s oeuvre from the Zibaldone to the poems he wrote towards the end of his life this book disrupts the common image of Leopardi as a pessimist poet whose works contribute to the nihilistic tradition The Ethics of Giacomo Leopardi instead uncovers his forward looking views on living in a multispecies world in which humans live alongside other living beings in a delicate ecosystem that not only requires respect but also instigates wonder Bringing Leopardi s thought into dialogue with contemporary ecological theorists such as Donna Haraway Bruno Latour and Timothy Morton Gibson reveals how a Leopardian ethics of solidarity compassion and community is the guide we need today to reframe our relationship with nature God's Little Daughters Ji Li,2015-06-01 God s Little Daughters examines a set of letters written by Chinese Catholic women from a small village in Manchuria to their French missionary Father Lin or Dominique Maurice Pourqui who in 1870 had returned to France in poor health after spending twenty three years at the local mission of the Soci t des Missions Etrang res de Paris MEP The letters were from three sisters of the Du family who had taken religious vows and committed themselves to a life of contemplation and worship that allowed them rare privacy and the opportunity to learn to read and write Inspired by a close reading of the letters Ji Li explores how French Catholic missionaries of the MEP translated and disseminated their Christian message in northeast China from the mid 19th to the early 20th centuries and how these converts interpreted and transformed their Catholic faith to articulate an awareness of self The interplay of religious experience rhetorical skill and gender relations revealed in the letters allow us to reconstruct the neglected voices of Catholic women in rural China **Ulrich's International Periodicals Directory** ,1988
