A Glossary of Household, Farming and Trade Terms from Probate Inventories.

In 1977 the Derbyshire Record Society published an edition of wills and inventories relating to Chesterfield for the period 1521 - 1603. An appendix to the volume contained a glossary of some 800 terms found in the documents. This was subsequently reprinted as a separate pamphlet and was well received by local historians and genealogists working in many parts of the country, not merely Derbyshire. Five printings of the pamphlet have been issued since 1977.

This new third edition of the Glossary is once again greatly extended, containing some 1,500 terms drawn from Chesterfield inventories down to 1700, and is likely to be of wide general interest. The text has been fully re-set and a number of minor errors corrected from the second edition.

Since 1977 interest in probate records, whether for family history or wider studies, has if anything grown. This booklet remains the only separately published glossary of the many technical terms found in both farming and trade inventories and provides a convenient short-cut to definitions that might otherwise have to be sought from dialect dictionaries or technical manuals. Still very modestly priced, the Glossary is among the most useful handbooks available to the local historian and genealogist and a useful item on library and record office shelves.
