It is a book for all people of all ages in all stages of life      Despair's Last Journey David Christie Murray, 2024-01-02 David Christie Murray's novel *Despair's Last Journey* is a thought provoking read. Readers are taken on a deep and reflective journey through Despair, the protagonist of the novel. A middle aged man named Despair finds himself at a turning point in his life. A feeling of emptiness and despair overwhelms him so he sets off on a soul searching quest to discover meaning and purpose. Despair considers his previous decisions and experiences as he journeys through diverse locations and interacts with diverse people in an attempt to find the answers to life's most important issues. Murray deftly probes the depths of Despair's mind throughout the book, examining the nuances of human emotions and the universal pursuit of happiness. The book engages with a wide range of individuals, all of whom have unique challenges and viewpoints, as the book explores issues of forgiveness, redemption, and the value of interpersonal relationships. Through these interactions, Despair learns the value of empathy and compassion, realizing that true fulfilment comes from lending a hand to others and finding comfort in the experiences of others.

**EBOOK: Death's Dominion: Ethics at the End of Life** Simon Woods, 2006-12-16 I enjoyed reading this book very much. It is very readable and well argued, using real life cases and thought experiments as well. The book provides the reader with a short history of and an overview of the most important issues in modern palliative care. Various theoretical discussions are clearly set out, such as the relationship between the hospice movement and modern palliative care, between palliative care and health care in general, between palliative sedation and euthanasia, and the question whether euthanasia can be part of palliative care. The author starts with exploring the existing debates and then develops his own arguments in a balanced and well structured way. *Medicine, Health Care and Philosophy*. The text of this book is accessible; the philosophical and ethical arguments are clearly articulated and relevant; ethical principles are integrated into the critique of the issues, making this a very useful book for nurses working in palliative as well as in general care. *Nursing Ethics*. It is crucially important for any student or researcher who is seriously considering ethical and policy matters at the end of life to embrace and tackle intellectually the issues that Woods raises in this book. I would happily recommend it. *Journal of Medical Ethics*. What constitutes a good death? Is it possible to arrange a good death? Is killing compatible with caring? This book looks at death and the issues and ethical dilemmas faced at the end of life. It addresses the central issues in the field, such as withholding and withdrawing treatment, euthanasia and assisted suicide, terminal sedation. The role of autonomy. Palliative care. Drawing on a philosophical framework, the author explores end of life issues in order to reflect on the nature of the good death and how this may be achieved. The book considers whether it is permissible or desirable to influence the quality of dying, offering palliative sedation as a possible alternative to terminal sedation; the argument is extended to examine why some forms of assisted dying can be shown to be compatible with the ideas of palliative care. Consideration is also given to future developments, such as life extension techniques and the ethical questions that these techniques might raise. As such, the book follows in the ongoing philosophical tradition to critique and analyse

current thought on the topic of death encouraging self reflection in the reader and offering suggestions for practice in end of life care *Death's Dominion* is key reading for students and professionals involved in care of the dying as well as those with an interest in the philosophical issues surrounding end of life care **Handbook of Traumatic Loss** Neil Thompson, Gerry R. Cox, Robert G. Stevenson, 2017-01-06

The Handbook of Traumatic Loss adopts a broad holistic approach that recognizes traumatic loss much more fully as a multidimensional human phenomenon not simply a medical condition Initial chapters build a foundation for understanding traumatic loss and explore the many ways we respond to trauma Later chapters counterbalance the individualistic focus of dominant approaches to traumatic loss by highlighting a number of thought provoking social dimensions of traumatic loss Each chapter emphasizes different aspects of traumatic loss and argues for ways in which clinicians can help deal with its many and varied impacts Death's Dominion: Ethics At The End Of Life

Woods, Simon, 2006-12-01 Drawing on a philosophical framework the author explores end of life issues in order to reflect on the nature of the good death and how this may be achieved The book considers whether it is permissible or desirable to influence the quality of dying of *Journey Towards Home* S.
