Inside the Pentagon Papers John Prados, Margaret Pratt Porter, 2004 Inside the Pentagon Papers addresses legal and moral issues that resonate today as debates continue over government secrecy and democracy's requisite demand for truthfully informed citizens In the process it also shows how a closer study of this signal event can illuminate questions of government responsibility in any era When Daniel Ellsberg leaked a secret government study about the Vietnam War to the press in 1971 he set off a chain of events that culminated in one of the most important First Amendment decisions in American legal history That affair is now part of history but the story behind the case has much to tell us about government secrecy and the public's right to know Commissioned by Secretary of Defense Robert McNamara the Pentagon Papers were assembled by a team of analysts who investigated every aspect of the war Ellsberg a member of the team was horrified by the government's public lies about the war discrepancies with reality that were revealed by the report's secret findings His leak of the report to the New York Times and Washington Post triggered the Nixon administration's heavy handed attempt to halt publication of their stories which in turn led to

The Character Factor James P. Pfiffner, 2004 Annotation: The American president's character matters. To most Americans, it matters deeply. But how do we define what character means, and why can't we agree? In this sober, probing consideration of the character factor and the presidency, veteran political analyst James P. Pfiffner leads us through a survey of three aspects of presidential character that have proved problematic for recent chief executives: lies, promise-keeping, and sexual probity. His goal is not to tell us which presidents have been good and which bad. Rather, he helps us think critically and impartially about complex character issues and invites us to reach our own conclusions. *The Character Factor* avoids both moral judgments and cynicism. It helps us look at our presidents and our presidential candidates without illusions, knowing that flawed men can still be great leaders, but that some flaws deserve defeat at the polls or even the ultimate presidential sanction: impeachment.

South Africa and the International Media, 1972-1979 James Sanders, 2000 This book studies the Anglo-American media's representation of South Africa in the 1970s; the international media is shown to have been under continuous pressure from both the South African Dept. of Information and the anti-apartheid movement.

Reporters Who Made History Steven M. Hallock, 2009-11-25 This volume looks back at the last half of the 20th century through the work and reminiscences of ten of the era's preeminent journalists. *Reporters Who Made History*, Great American Journalists on the Issues and Crises of the Late 20th Century, looks at a series of extraordinary chapters in the American story through the eyes of ten giants of journalism: Helen Thomas, Anthony Lewis, Morley Safer, Earl Caldwell, Ben Bradlee, Georgie Anne Geyer, Ellen Goodman, Juan Williams, David Broder, and Judy Woodruff. Taking each of these journalists in turn, Hallock focuses on his or her work in the course of a single decade, drawing on the author's interviews with the journalist, archival research, memoirs, and critical studies. These exemplars of the best postwar American news reporting never took the easy path of simply restating policies and uncritically regurgitating press releases. Instead, their skeptical, independent, and searching methods of investigative and analytical journalism actually influenced the course of the very events they covered and significantly shaped
