Being Good in a World of Need Larry S. Temkin, 2022-01-13 In a world filled with both enormous wealth and pockets of great devastation how should the well off respond to the world s needy This is the urgent central question of Being Good in a World of Need Larry S Temkin one of the world s foremost ethicists challenges common assumptions about philanthropy his own prior beliefs and the dominant philosophical positions of Peter Singer and Effective Altruism Filled with keen analysis and insightful discussions of philosophy current events development economics history literature and age old wisdom this book is a thorough and sobering exploration of the complicated ways that global aid may incentivize disastrous policies reward corruption and foster brain drains that hinder social and economic development Using real world examples and illuminating thought experiments Temkin discusses ethical imperialism humanitarian versus developmental aid how charities ignore or coverup negative impacts replicability and scaling up problems and the views of the renowned economists Angus Deaton and Jeffrey Sachs all within the context of deeper philosophical issues of fairness responsibility and individual versus collective morality At times both

inspiring and profoundly disturbing he presents the powerful argument that neglecting the needy is morally impermissible even as he illustrates that the path towards helping others is often fraught with complex ethical and practical perils Steeped in empathy morality pathos and humanity this is an engaging and eye opening text for any reader who shares an intense concern for helping others in need The English Catalogue of Books ... Graham,Folke Lindahl,Timur Kocaoglu,2021-03-19 This study analyzes theoretically and empirically the background of the rise to power of Vladimir Putin in Russia and Recep Tayyip Erdogan in Turkey It situates this analysis in the contexts of the historical assessment of the fragility of liberal democracy and the persistence and growth of authoritarianism populism and dictatorship in many parts of the world The authors argue that the question whether Putin and Erdogan can make Russia and Turkey great again is hard to confirm personal ambition for power and wealth is certainly key to an understanding of both rulers They each squandered opportunities to build from free and fair democratic electoral legitimacy and economic progress The prospect for restored national greatness depends on how they can handle the economic and political challenges they now face and will continue to face in the near future in a climate of global pandemic and economic recession Both rulers so far have succeeded in maintaining and increasing their powers and influence in their respective regions but neither has made real contributions to regional stability and order Chaos seems to be growing and the EU and the U S thus far seem unable to provide coherent responses to mitigate the impact of their adventurism and disruption **Journal of Education** ,1884 *The Publishers Weekly* ,1883 Achieving a Good Death Chris Palmer,2024-10-01 Death is inevitable dying badly is not A good death is achievable and this book explains how There is an art to dying well that can be taught and learned While death is inevitable dying badly is not This practical guide to achieving a good death will reduce the fear that often cloaks discussions about death and dying and give readers the knowledge and skills to achieve a peaceful and gentle death With the multiple options available at the end of life people can design and direct their end of life journey so they have as fulfilling and meaningful life as possible right up to the end and achieve the elusive good death when the time comes Chapters focus on essential elements of living well and preparing for a good death including Death cleaning so we don't burden our loved ones with a big mess Talking with loved ones and doctors about our end of life wishes and aspirations so they know what matters to us and how we want to be treated Writing a legacy letter an ethical will and a memoir to let loved ones know what is deep in our hearts Understanding caregivers an under appreciated group of people usually unpaid women who number in the millions The benefits of palliative care hospice care and end of life doulas and the necessary vigilance to get the most out of these essential services End of life options including medical aid in dying MAID and voluntarily stopping eating and drinking VSED What it's like to die and how to help people as they die Options for disposition of the body of a loved one or your own body after death especially in an economically and ecologically responsible way Planning commemorations and celebrations of
