The Idea of Modern Jewish Culture Eliezer

Schweid, 2008 The vast majority of intellectual religious and national developments in modern Judaism revolve around the central idea of Jewish culture This book is the first synoptic view of these developments that organizes and relates them from this vantage point The first Jewish modernization movements perceived culture as the defining trait of the outside alien social environment to which Jewry had to adapt To be cultured was to be modern European as opposed to medieval ghetto Jewish In short order however the Jewish religious legacy was redefined retrospectively as a historical culture with fateful consequences for the conception of Judaism as a humanly and not only divinely mandated regime The conception of Judaism as culture took two main forms an integrative vernacular Jewish culture that developed in tandem with the integration of Jews into the various nations of western central Europe and America and a national Hebrew culture which though open to the inputs of modern European society sought to develop a revitalized Jewish national identity that ultimately found expression in the revival of the Jewish homeland and the State of Israel

The Classic Jewish Philosophers Eliezer

Schweid, 2008 This book provides a standard reference of the major medieval Jewish philosophers as well as an eminently readable narrative of the course of medieval Jewish philosophical thought presented as a response to the spiritual intellectual challenges facing Judaism in that period
