extensive illustrations which explore our perceptions and representations of birds through images such as national emblems women's hats professional sports logos and a Christmas biscuit tin as well as classics of bird art Each chapter takes up a new theme from rarity beauty and sound to conservation naming and symbolism and is set in a new place as Mynott travels from his home patch in Suffolk England to his away patch in New York City's Central Park as well as to Russia Australia and Greece Conversational playful and witty Birdscapes gently leads us to reflect on large questions about our relation to birds and the natural world It encourages birders to see their pursuits in a broader human context and it shows nonbirders what they may be missing
