Edwards, 2013-10-22 The Red Sea is a unique and fragile environment All but landlocked between Africa and Arabia its peculiar oceanographic conditions its geographical position and its geological history all conspire to make it particularly vulnerable to the side effects of human civilization In places it is already a key environment under threat What makes the Red Sea unique What are the threats to this environment Where should future research be directed These are just three of the major questions addressed by the scientists contributing to this book      *William Robert Broughton's Voyage of Discovery to the North Pacific 1795-1798* Andrew David, 2016-02-17 Edited and richly annotated by Lt Cdr Andrew David this volume offers for the first time a complete transcript of the handwritten journal kept by William Broughton on his voyage to the North Pacific 1795 1798 together with supplementary letters and the journal of Broughton s journey across Mexico 1793 An extensive introduction by Professor Barry Gough places the voyage in its historical context Broughton had first visited the North Pacific in 1792 in command of the brig Chatham during Vancouver s voyage When negotiations between Vancouver and Juan Francisco Bodega y Quadra reached an impasse Broughton was sent back to London to seek fresh instructions travelling across Mexico and returning to Europe in Spanish ships Back in London in July 1793 he was appointed in command of the sloop Providence with orders to rejoin Vancouver in the Pacific taking with him the astronomer John Crosley      **William Robert Broughton's Voyage of Discovery to the North Pacific 1795-1798** Mr Andrew David, 2013-07-28 Edited and richly annotated by Lt Cdr Andrew David this volume offers for the first time a complete transcript of the handwritten journal kept by William Broughton on his voyage to the North Pacific 1795 1798 together with letters and the journal of his journey across Mexico 1793 Aiming to complete the work left unfinished by Cook s third voyage Broughton surveyed the coasts of Japan the Kurile Islands Sakhalin and Korea despite being wrecked on an uncharted reef off the Ryukyu Islands in the middle of the mission      **The Emu**, 1981      **A Voyage to India 1796-1797** Carl Anderson, 2014-01-21 In June 1796 a 17 year old Anglo Irish youth Jonathan Henry Lovett was appointed a junior clerk with the British East India Company With Britain at war with France Lovett sailed from England to India aboard the East Indiaman Malabar It took the ship seven months to reach Bombay where Lovett disembarked in January 1797 Lovett kept a journal during the voyage in which he recorded his observations of seabirds fish and marine life seen from the quarterdeck of the Malabar During a stopover at the Cape of Good Hope he described its rugged mountains exotic wildlife its Dutch and native inhabitants British military encampments and ships coming and going Originally written in two volumes recently discovered in libraries 7 000 miles apart the complete Jonathan Lovett journal comes together here for the first time in living memory Excerpts from the Malabar s logbook and detailed maps add
