Wisdom's Odyssey Peter A. Redpath, 2021-11-01 This book establishes that the ancient Greeks had a prevailing method of doing philosophy which was rooted in philosophical realism Through extensive historical and philosophical analysis it demonstrates that this method was challenged in ancient times by an apocryphal notion of philosophy which eventually became confused with philosophical reasoning and was passed on to posterity through the work of Christian theologians until it was called into question by leading thinkers of the thirteenth century It shows how this thirteenth century challenge influenced the growth of the Renaissance humanist movement and how this movement in turn passed on to modernity the same apocryphal notion of philosophy as a rhetorical theology of allegorical prefiguration Epictetus' Handbook and the

work examines the role played by the biblical motif of the despoliation of Egypt in the understanding Gentiles had of Jews and how Jews defended themselves their heroes and their God in the face of anti Jewish slander It also examines the manner in which Christians learned from their rabbinic counterparts how to defend Moses and his God against the gnostic challenge Beginning with Philo and based on haggadic additions the embarrassment of the episode was healed through allegory and became a critically important biblical justification for the Christian appropriation of the Egyptian treasures of their Greco Roman cultural heritage This work describes how Christians borrowed exegetical traditions from rabbis not only to defend

their sacred texts against gnostic attacks but to justify their interest in and appropriation of non Christian philosophy in their theological understandings      **The Cambridge Companion to Plato** Richard Kraut,1992-10-30 Fourteen new essays discuss Plato s views about knowledge reality mathematics politics ethics love poetry and religion in a convenient accessible guide that analyzes the intellectual and social background of his thought as well      **Rebirthing into Androgyny** Berenice Andrews,2012-11-14 In these interesting times when many people are searching for spiritual nourishment this book is intended to be a means of providing it Rebirthing Into Androgyny Your Quest For Wholeness And Afterward offers to the hungry ones a familiar yet totally different feast While it sets forth an already established metaphysics it also presents a radical new ideaone that has been implicit in that spiritual thought but unavailable until now and the new awareness associated with quantum physics In other words while this book provides soul searchersalso known as learnerswith an ages old means of generating a fundamental inner change a rebirthing it also provides a new living prototype of what is being reborn Thus a persons rebirthing is both a gestation and a labor a quest producing an ever increasing knowing gnosis which gradually becomes being that can finally merge with the Beloved Self And the new living prototype is that of the human soul not as what a person has but as what a person is a creative energy being who generates its own bodies out of its soul substanceits creative consciousness energyby means of its archetypal human energy system while always being guided by its nucleus of divinity In this book which is a textbook for soul searchers all of this transformative change is offered explored and explained in a series of carefully crafted lessons lovingly taught by a shamanic teacher healer in a stone circle classroom the ancient site of a modern teaching There is a grand feast awaiting      *The Wisdom of Hypatia* Bruce J. the search for a method of investigation This book tries to rediscover the propulsive force that for over two millennia spread  
and still lives in our system of thought By systematically quoting the very words of the leading actors and by tracing their  
sources it leads the reader along a path where they will be able to observe the establishment of philosophical ideas and  
language in an updated and balanced picture of archaic lore of the thought of the classical and hellenistic ages and of the  
philosophy of late antiquity The book looks closely at the progress of scientific thought and at its increasing autonomy while  
following the evolution of the fruitful yet problematic relationship between the Greek world and the Near East **Philo of**
