democratic and constitutional reforms These attempts have rarely altered the actual manner in which power is exercised by the state and its elites given the deeper and historically rooted experience of arbitrary rule Far from being remote the arbitrary culture of power that emerged in many parts of the world continues to shape the fortunes of states To ignore this culture of power and the historical circumstances that have shaped it comes at a high price as indicated by the ongoing democratic recession and erosion of liberal norms within states that are democracies     *The First American Republic 1774-1789* Thomas Patrick Chorlton, 2011-04-28 George Washington's Inauguration in April 1789 marked the beginning of government under the new United States Constitution What few Americans realize is that there had been a fully functioning national government prior to 1789 It was called the Continental Congress and it was in every respect the First American Republic 1774-1789 It began on September 5 1774 when elected delegates from eleven of the American colonies first assembled in Philadelphia Surprisingly that First American Republic is most often dismissed in textbooks and popular history as a failed attempt at self government And yet it was during that fifteen year period that the United States won the war against the strongest empire on Earth established organized government as far west as the Mississippi River built alliances with some of the great powers of Europe and transformed thirteen separate entities into a national confederation When the Continental Congress initially met in 1774 its very first order of business was to elect one of its own members to serve as President He functioned as Head of State much as the Presidents of Germany and Italy do today He signed all official documents received all foreign visitors and represented the emerging nation at official events and through extensive correspondence While Congress retained all other executive legislative and judicial functions the President even presided over its deliberations Eventually a house carriage and servants were provided for the President as a sign of national pride and respect In all fourteen distinguished individuals were chosen by their peers for this unique and awesome responsibility They were the giants of their age men of power wealth and experience who often led their new nation through extremely difficult days largely on the strength of their character For far too long they have been lost to history This is their story

Simon, 2019 A study of Leonardo da Vinci's *Salvator Mundi* the world's most expensive painting this volume recounts the story of the painting's modern day discovery and restoration but also delves into the collecting of Leonardo's works at the courts of Charles I and Charles II
