The Living Age ,1871 Revisiting Modality Vitor Miguez,2024-04-15 This book presents the first in depth investigation of modality in Galician linguistics offering a theoretical discussion of modal categories and a fine grained description of epistemic adverbs The first half of the monograph deconstructs the most relevant approaches to modal categories and shows how the traditional concept of modality is a problematic notion how it relates to other concepts such as evidentiality and mitigation and how it ought to be conceived of in order to become a more useful instrument for linguistic analysis A new way of understanding modality is explored and illustrated through Galician examples The second half of the book zooms in on six epistemic adverbs which are

exhaustively studied from both a formal and a functional perspective Combining a quantitative and a qualitative perspective the book shows that adverbs make up a rich semantic scale and establishes several factors that condition their occurrence in discourse challenging previous conceptions of this grammatical domain
