A General Theory Of Secularization:

On Secularization David Martin, 2017-03-02 Secularization has been hotly debated since it was first subjected to critical attention in the mid sixties by David Martin before he sketched a General Theory in 1969 On Secularization presents David Martin's reassessment of the key issues with particular regard to the special situation of religion in Western Europe and questions in the global context including Pentecostalism in Latin America and Africa Concluding with examinations of Pluralism Christian Language and Christianity and Politics this book offers students and other readers of social theory and sociology of religion an invaluable reappraisal of Christianity and Secularization It represents the most comprehensive sociology of contemporary Christianity set in historical depth *A General Theory of Secularization* David Martin, 1978

A General Theory of Secularization David Martin, 1978 Sociology of Religion Roberto Cipriani, 2015-06-01 Sociology of Religion represents a documented introduction to the history of sociological thought as applied to religious phenomena It examines both the substantive and functional definitions of religion that are more open pluralistic and not inscribed in a single explanatory horizon or within a single confessional perspective The contributors' concerns are carefully written to show all sides of the argument Roberto Cipriani argues for the simple definition that the sociology of religion is an application of sociological theories and methods to religious phenomena Historically close ties between sociology and the sociology of religion exist The slow and uneven development of theory and methods affects the sociology of religion's development but the latter has also benefited from increasing precision and scientific validity Other sociological writers agree and disagree about different approaches Some assume it is a militantly confessional or anti-confessional others remain neutral within their work **Secularization and the World Religions** Klaus Wiegandt, Hans Joas, 2009-01-01 This volume concerns itself with the connections between religions and the social world and with the extent, limits and future of secularization Dealing with the major religious traditions and their explicit or implicit ideas about the individual, social and political order as well as offering an overview of the religious situation in important geographical areas Secularization and the World Religions analyzes the legal organization of the relationship between state and religion as well as the role of the natural sciences in a global perspective Contributors include such internationally renowned scholars as Winfried Brugger, Jos Casanova, Hans Joas and Hans Kippenberg

Secularisation in the Christian World Callum G. Brown, Michael Francis Snape, 2010 Secularisation in the Christian World brings together leading scholars in the social history of religion and the sociology of religion to explore what we know about the decline of organised Christianity in Britain, Europe, the United States, Canada and Australia With contributors from eight countries the volume also brings together many nations for the first consolidated international consideration of recent themes in de-Christianisation Interpreting Charles Taylor's Social Theory on Religion and Secularization Germán McKenzie, 2016-11-22 This book examines Taylorean social theory, its sources, main characteristics and impact Charles Taylor's meta-narrative of secularization in the West prominently contained in his

major work *A Secular Age* 2007 has brought new insight on the social and cultural factors that intervened in such process the role of human agency and particularly on the contemporary conditions of belief in North America and Europe This study discusses what Taylor's approach has brought to the scholarly debate on Western secularization which has been carried on mostly in sociological terms McKenzie interprets Taylor's views in a way that offers an original social theory Such interpretation is possible with the help of sociologist Margaret Archer's morphogenetic theory and by making the most of Taylor's particular understanding of the method of the social sciences and of his philosophical views on human beings knowledge and modernity After exploring the philosophical and sociological sources informing Taylorean social theory and proposing its basic concepts and hermeneutic guidelines the author compares it with two widespread theories of secularization the now waning orthodox account and that proposed by Rational Choice Theory scholars particularly prevalent in the United States In doing so the book shows in which ways Taylorean social theory supersedes them what new issues it brings into the scholarly discussion and what difficulties might limit its future development

Reflections on Sociology and Theology David Martin, 1997 *Reflections on Sociology and Theology* is a collection of essays by a distinguished sociologist exploring the relationship between sociology and religious issues After laying out the main themes to be explored David Martin divides the essays into three sections Part I Theoretical Considerations have a strong methodological content and examine the nature of sociology and theology and their inter relationship Part II Practical Issues discusses sociological and practical issues of interest to theologians such as peace studies Christian Unity and the nature of religious comment on politics Part III Addresses to Clergy and to Teachers of Sociology divides into two parts the first address is directed against the notion of collective guilt as propagated by both religious and secular sources The second aimed at the clergy sets out the empirical situation of western Christianity and suggests a socio theological response David Martin presents an elegant compelling argument that religion and sociology can and should co exist

Secularization, Desecularization, and Toleration Vyacheslav Karpov, Manfred Svensson, 2020-10-22 This book challenges the modern myth that tolerance grows as societies become less religious The myth inseparably links the progress of toleration to the secularization of modern society This volume scrutinizes this grand narrative theoretically and empirically and proposes alternative accounts of the varied relationships between diverse interpretations of religion and secularity and multiple secularizations desecularizations and forms of toleration The authors show how both secular and religious orthodoxies inform toleration and persecution and how secularizations and desecularizations engender repressive or pluralistic regimes Ultimately the book offers an agency focused perspective which links the variation in toleration and persecution to the actors of secularization and desecularization and their cultural programs

Pentecostal Hermeneutics in the Late Modern World L. William Oliverio, 2022-05-27 In *Pentecostal Hermeneutics in the Late Modern World* L. William Oliverio Jr offers a series of forays into the places where late modernity and Pentecostalism have met in interpreting God the world and human selves and

communities Oliverio provides a historical constructive and ecumenical approach to understanding current trajectories in Pentecostal interpretation as he engages a variety of philosophers and theologians Together these essays point to a way forward for Pentecostal hermeneutics in the context of the late modern world **World Religions and Multiculturalism**

,2010-10-05 This book is about new forms of religiosity and religious activity emerging in the context of their dialectic relations with contemporary multicultural realities World religions are effectively a major agent of the multiculturalization of contemporary societies However multiculturalism pushes them not only toward change and reforms but also toward new conflicts between and within them This process should remind us of the Jewish legend of the Golem an animated being created by man which finally challenges the latter's control over it a dialectic relation indeed World religions today greatly contribute to a world dis order that is multicultural both when viewed as a whole and from within most societies that compose it It is a development that contrasts both with the assumption that globalization implies one way homogenization and convergence to Western modernity and the expectation that globalization would be bound to polarize homogeneous civilizations

Religion, Law and Society Russell Sandberg,2014-05-08 What can lawyers and sociologists learn from each other about religion in the twenty first century *Islam and Democracy in South Asia* Md Nazrul Islam,Md Saidul Islam,2020-03-20 Grounded in the Weberian tradition Islam and Democracy in South Asia The Case of Bangladesh presents a critical analysis of the complex relationship between Islam and democracy in South Asia and Bangladesh The book posits that Islam and democracy are not necessarily incompatible but that the former has a contributory role in the development of the latter Islam came to Bengal largely by Sufis and missionaries through peaceful means and hence a moderate form of this religion got rooted in the society Both militant Islam and militant secularism are equal threats to democracy and pluralism Like democracy political Islam has many faces Political Islam adhering to democratic norms and practices what the authors call democratic Islamism unlike militant Islamism is not anti democratic The book shows that the suppression of democracy and human rights creates avenues for the consolidation of militant Islamism orthodox Islam and Islamic terrorism while the fair play of democracy results in the decline of anti democratic form of political Islam *Christian Higher Education in Canada* Stanley E. Porter,Bruce G. Fawcett,2020-11-17 The Toronto 2018 Symposium on Christian Higher Education

provided an opportunity for leaders in the Canadian Christian higher education movement to reflect deeply on its development current reality and future possibilities The Canadian Christian higher education scene comprises a wide range of institutions including Christian universities Bible colleges and seminaries and graduate schools Each type has its own distinctive history and likewise represents both challenges and opportunities Even though they are intertwined in their common purpose these higher educational institutions express this purpose in various ways This volume is a collection of the papers and plenary talks designed to share the content of the symposium with a wider audience The papers are all written by active scholars and researchers who are connected to the member institutions of Christian Higher Education Canada CHEC

They not only illustrate the quality of the scholarship at these institutions but they make their own critical contribution to an ongoing discussion regarding the role and place of Christian higher education within the wider society This volume is intended to be helpful to students faculty staff board members and supporters of Canadian and other Christian higher education institutions as well as interested individuals and scholars Secular Conversions Damon Mayrl,2016-08-30 This book reveals how taken for granted political structures have shaped the fate of religion in Australian and American public life

Encyclopedia of Global Religion Mark Juergensmeyer,Wade Clark Roof,2012 Presents entries A to L of a two volume encyclopedia discussing religion around the globe including biographies concepts and theories places social issues movements texts and traditions **Modernities, Memory and Mutations** Abby Day,Mia Lövhelm,2016-03-03 Grace Davie one of the world s most influential scholars in contemporary sociology of religion has furthered a tradition developed by David Martin and others in comparative sociology of religion and modernity in European and international perspective Davie s writings on belief and belonging particularly in a context outside active Church participation have contributed important understandings of the cultural role of religion as memory and practice in contemporary European societies Through her most recent work on new roles of religion in relation to the political legal and welfare sectors of society she has addressed debates on the resurgence of religion and the post secular condition Modernities Memory and Mutations presents an overview and critical engagement with contemporary themes in the sociology of religion which will inform current and forthcoming generations of scholars Reflecting on how Grace Davie s contributions have influenced their own work and wider debates in the field leading international scholars engage with themes Davie has critically explored across religious studies and mainstream sociology evolving a new research agenda for sociology of religion **Modernity** Nicos Mouzelis,2021-07-01 In *Modernity Religious and Ethical Perspectives* Nicos Mouzelis examines the three unique structural features of modern societies inclusion of the whole population into the nation state top down differentiation of institutional spheres and the expansion of individualization from the top to the base of the social pyramid The author shows how the above features relate to present day religious phenomena such as secularisation desecularization the new religious movements and the forms of present day spiritualities He examines the extent to which secularisation and rationalization led to the disenchantment of the world Later however one observes a reaction to the established hierarchically organized churches and to the adherence mainly of young people to less structured religious groups to religious syncretism and to individual seekers who tried to find their own God From this perspective one can argue that we have a partial re enchantment of the world **Religious Diversity and Public Religion in China** Zhibin Xie,2006 This book addresses the issue of public religion and its implications in Chinese society Zhibin Xie explores various normative considerations concerning the appropriate role of religion in public political life in a democratic culture Besides drawing on the theoretical discourse on religion in the public sphere from Western academics it holds that the issue of religion in Chinese politics should be addressed by paying attention

to characteristics of religious diversity and its political context in China This leads to a position of liberal constrained public religion in China which encourages religious contribution to the public sphere as a substantial component of religious liberty in China on the one hand and proposes some constraints both upon government and religions for regulating religious political discourse on the other *Powers of the Secular Modern* David Scott, Charles Hirschkind, 2006 This book presents a set of critical engagements by writers from a variety of disciplines with the work of noted anthropologist Talal Asad
