The Cambridge History of American Foreign Relations: Volume 2, The American Search for Opportunity, 1865-1913 Bradford Perkins, Walter LaFeber, Warren I. Cohen, Akira Iriye, 1993 Between the American Civil War and the outbreak of world War I global history was transformed by two events the United States s rise to the status of a great world power indeed the world s greatest economic power and the eruption of nineteenth and twentieth century revolutions in Mexico China Russia Cuba the Philippines Hawaii Panama Nicaragua and elsewhere The American Search for Opportunity traces the U S foreign policy between 1865 and 1913 linking these two historic trends by noting how the United States usually thought of as antirevolutionary and embarked on a search for order during this era actually was a determinative force in helping to trigger these revolutions Walter LaFeber argues that industrialization fuelled centralisation Post Civil War America remained a vast unwieldy country of isolated parochial communities but the federal government and a new corporate capitalism now had the power to invade these areas and integrate them into an industrialization railway linked nation state The furious pace of economic growth in America attracted refugees from all parts of the world Professor LaFeber describes and influx of immigration so enormous that it led to America s first exclusionary immigration act In 1882 the United States passed legislation preventing all Chinese immigrant labour skilled and unskilled from entering the country for the next 10 years

Terrorism and the Politics of Naming Michael Bhatia, 2013-10-18 Previously published as a special issue of Third World Quarterly this volume assesses the nature power role and function of names in global politics and the international media Names are not objective they accrue subjective associations for example Terrorist has a very different connotation to Freedom fighter The contributors seek the truth beneath the names assigned in an effort to remove the obscurity created by the power of the politics of naming to the reality of the situation taking examples from Al Qaeda Russia's demonization of the Chechens and naming in the Israeli Palestine conflict among other important

contemporary debates Terrorism and the Politics of Naming makes a substantial contribution towards elucidating the power of naming in the discourse of conflict and will be of great interest to students and scholars of political philosophy political theory and politics and the media *The New Cambridge History of American Foreign Relations* William Earl Weeks, Walter LaFeber, Akira Iriye, Warren I. Cohen, 2013-04-08 This second volume of the updated edition describes the dynamics of United States foreign policy from 1865 to 1913 **The US-Japan Alliance in the 21st Century** Fumio Ota, 2021-11-22 The year 2004 marked the 150th anniversary of the signing of the first treaty of peace and amity Treaty of Kanagawa between the United States and Japan a treaty which over time has both bloomed and failed and falls into three phases each lasting for a period of approximately fifty years Phase one which began in a context of force majeure but ended positively lasted until the Russo Japanese War of 1904 5 phase two began positively with the Treaty of Portsmouth which followed but ended disastrously with the outbreak of the Pacific War phase three began in 1952 with the San Francisco Peace Treaty and continues today The author who offers a significant Japanese view of the alliance as both a scholar and high ranking military officer explores the history but also poses the question what will be the relationship for the next fifty years Through a close analysis of the nature of alliances current issues and specific case studies including the impact of a possible peaceful reunification of the Korean peninsula he concludes that for the long term stability of the Asia Pacific region a continuing interdependent relationship between Japan and the US is a sine qua non Fumio Ota is a Vice Admiral ret d of the Japanese Naval Defense Forces and until recently was Director of Japan s Defense Intelligence Headquarters *Polwar* Pascal R. Politano, 2019-06-10 In his latest book the author of *A Sharp Seasoning of Truth* proposes a little known organizational system to be used by developing democratic nations to solve deep rooted non combat military problems centered on questions of loyalty or allegiance and civil military relations as well as the traditional problems of corruption despotism nepotism mutiny desertion morale and soldier dependent social welfare needs The basic concept of polwar originated with the Russian commissar system giving the political cadre absolute control over the communist revolutionary armed forces thus making them a decisive tool for the preservation of the communist party s power In 1924 the concept was introduced in China by Russian advisors and later was revised and has been used to the present time by both the Communist Chinese and the Nationalists in forms modified to conform to their respective ideologies In the late 1960s the US Military Assistance Command Vietnam attempted unsuccessfully to superimpose a polwar system based upon the Chinese Nationalist model in the Republic of Vietnam Armed Forces It proved impossible to do this while the war continued to rage Politano suggests that now a U N agency could be established for teaching and assisting to institute polwar systems in the armed forces of developing nations at the host country s request And he states with conviction All they the host nation would have to do is ask for my assistance and I d go as long as I still were able to provide it
