This easy-to-read guide was written by a parent who has experienced the anxiety and frustrations that are part of everyday life for those responsible for the care of a child with a tracheotomy. The social impact such a child has on a family can be overwhelming. However, with time, work, and perseverance, the most disabled child can be maintained at home and even attend school with the proper medical, nursing and social support. Pediatricians now encourage parent participation and home care for all children capable of living at home. Written in layman's language with simple graphic illustrations for ease of comprehension, this special book offers hope and reassurance and will enable any parent who wishes to bring a child back home to do so, along with the doctor's expert advice and home care program.
