cultures of the Internet and the politics of cultural heritage and identity It advances beyond critiques of the secularization and disenchantment theses to explore the processes of modernity that are actively producing magical worldviews and stimulating the rise of spirit cults As such it not only challenges the assumptions of modernization theory but demonstrates that the cults in question are novel ritual forms that emerge out of inherently modern conditions *Sacred Biography in the Buddhist Traditions of South and Southeast Asia* Juliane Schober,2002 This interdisciplinary collection of essays explores the biographical genre of the Buddhist traditions of South and Southeast Asia Scholars in the history of religions anthropology literature and art history present a broad range of explorations into sacred biography as an interpretive genre Each essay makes unique contributions and the collection as a whole engages methodological and interpretive approaches that are central to scholars of Buddhism and those specializing in the study of south and Southeast Asia *The World's Major Languages* Bernard Comrie,2018-04-17 The World's Major Languages features over 50 of the world's languages and language families This revised edition includes updated bibliographies for each chapter and up to date census figures The featured languages have been chosen based on the number of speakers their role as official languages and their cultural and historical importance Each language is looked at in depth and the chapters provide information on both grammatical features and on salient features of the language's history and cultural role The World's Major Languages is an accessible and essential reference work for linguists *Lai Su Thai* J.
