Reading Daniel as a Text in Theological Hermeneutics Aaron B Hebbard,2011-08-25 Employing such disciplines as historical criticism literary criticism narrative theology and hermeneutics Reading Daniel as a Text in Theological Hermeneutics seeks to maintain an interdisciplinary approach to the Book of Daniel Through this approach the author sets out to understand and interpret the Book of Daniel as a narrative exercise in theological hermeneutics Two inherently linked perspectives are utilised in this particular reading of the text First is the perception that the character of Daniel is the paradigm of the good theological hermeneut theology and hermeneutics are inseparable and converge in the character of Daniel Second is the standpoint that the Book of Daniel on the whole should be read as a hermeneutics textbook Readers are led through a series of theories and exercises meant to be instilled into their theological intellectual and practical lives Attention to the reader of the text is a constant theme throughout this thesis The author s concern is primarily with contemporary readers and their communities and so greater emphasis is placed on what the Book of Daniel means for contemporary readers than on what it meant in its historical setting However sensible consideration is given to the historical readerly community with which contemporary readers find continuity In the end readers are left with difficult challenges a sobering awareness of the volatility of the business of hermeneutics and serious implications for readers to implement both theologically and hermeneutically
