Addressing the Climate Crisis in the Indian Himalayas Anwesha Borthakur,Pardeep Singh,2024-02-20 This book focuses on the traditional ecological knowledge in addressing the current climate crisis in the Indian Himalayas Local or indigenous people in the Himalayas through their low carbon producing lifestyles contribute very little to the climate crisis However at the same time they bear the brunt of this crisis way more than many others It is important to learn about their traditional

ways of life and the knowledge that they hold regarding ecology and environment Traditional ecological knowledge and associated belief systems are given increasing attention across the globe in recent times toward addressing some of the grave environmental concerns Climate change is one such concern The rising consideration of concepts such as ethnoecology and ethnobotany signifies the scientific socio cultural and economic potential of the traditional ecological knowledge systems It is indisputable that these knowledge systems have the ability to provide important insights towards tackling many present day environmental distresses including several climate change challenges In this book the authors concentrate on such traditional ecological knowledge systems in the Indian Himalayan region and try to figure out their significance in relation to the modern science Overall the authors attempt to write a book where the relevance of traditional ecological knowledge systems could be addressed and communicated to a larger audience both academic scientific and non academic

Learning 'from' and 'with' the Locals Anwesha Borthakur,Pardeep Singh,2024-10-14 This book aims to capture the fading traditional knowledge systems of local and indigenous communities in the Himalayas As many of these practices are at risk of disappearing the book serves as a valuable record It encourages readers to reflect on the implications of such knowledge for environmental sustainability today Focusing on one of the most crucial mountain ranges globally the book emphasizes the importance of learning from and with the locals about their lived experiences in the Himalayas Understanding their unique set of traditional knowledge and technologies is crucial for building climate resilience and effective environmental management With contributions from experts across the Himalayan region the book strives for a comprehensive grasp of environmental challenges and potential solutions Beyond documentation the goal is to explore opportunities for integrating traditional knowledge with modern scientific approaches Recognizing the urgency the book advocates for the preservation of local and indigenous knowledge to address the ongoing global environmental crisis

Cold Water Fisheries in the Trans-Himalayan Countries Food and Agriculture Organization of the United Nations,2002-01-01 The trans Himalayan region covers the countries of the Himalayas Karakoram and in Hindu Kush and Pamir Fisheries play an important role in providing food and income to the mountain people This volume contains papers presented at a meeting held in July 2001 in Nepal to review information experiences and findings related to fish and fisheries in the region including fish species distribution fishing intensity socio economic conditions and livelihoods of fisher communities as well as to the impacts of environment degradation conservation measures and aquaculture technologies on indigenous and exotic cold water fish *The Sherpas of the Himalayas* Manis Kumar Raha,Palash Chandra Coomar,Sudip Bhui,2016-01-01 The present book is a detailed first of its kind study of the Sherpas inhabiting Darjeeling District of West Bengal and South District of Sikkim This ethnographic study among the Sherpas of these two areas was undertaken by the authors because firstly the Sherpas here have very interesting culture and secondly these people here are very little known All detailed studies so far published are on the Sherpas of Nepal So people know about the Sherpas of Nepal but not about

them living in Darjeeling and Sikkim From this detailed study the readers of this book particularly those who are interested about the people of the Himalayas and of North East India will get a comprehensive idea about the life and activities of these inhabitants of the Himalayas Moreover in this book a comparison between their society and culture and those of their congeners in Nepal has also been made As a result the readers will get a complete life sketch of these people from this book This book will also help in formulating and undertaking development programmes among them and also in the areas they live
