**History of the Apocalypse** Catalin Negru,2023-01-20 Religion For thousands of years this thing has dictated which people should live and which people should die what shape our buildings should have or what colors our garments should contain what food people should eat or what words people should speak If religion is the opium of the masses then beliefs about the end of the world are like overdoses People touched by such beliefs no longer rely on a hidden personal and intimate god contemplated upon from the safe distance of the beating human heart They live with the promise of divine intervention at a grand scale on the current coordinates of space and time This can be an exceptional motivator and a game changer in terms of civil obedience both at an individual and collective level In the name of an immediate and palpable deity people can commit shocking cruelties However such belief can also account for some of the most exceptional social developments in human history

*Hellenistic Astrology* Chris Brennan,2017-02-10 Hellenistic astrology is a tradition of horoscopic astrology that was practiced in the Mediterranean region from approximately the first century BCE until the seventh century CE It is the source of many of the modern traditions of astrology that still flourish around the world today although it is only recently that many of the surviving texts of this tradition have become available again for astrologers to study Hellenistic Astrology The Study of Fate and Fortune is one of the first comprehensive surveys of this tradition in modern times The book covers the history philosophy and techniques of ancient astrology with a special focus on demonstrating how many of the fundamental concepts underlying the practice of western astrology originated during the Hellenistic period

**Astrology, Science of Knowledge and Reason** Ellen H. Bennett,1897

Astrology and Popular Religion in the Modern West Nicholas Campion,2016-04-15 This book explores an area of contemporary religion spirituality and popular culture which has not so far been investigated in depth the phenomenon of astrology in the modern west Locating modern astrology historically and sociologically in its religious New Age and millenarian contexts Nicholas Campion considers astrology s relation to modernity and draws on extensive fieldwork and interviews with leading modern astrologers to present an invaluable contribution to our understanding of the origins and nature of New Age ideology This book challenges the notion that astrology is either marginal or a feature of postmodernism

Concluding that astrology is more popular than the usual figures suggest Campion argues that modern astrology is largely shaped by New Age thought influenced by the European Millenarian tradition that it can be seen as an heir to classical Gnosticism and is part of the vernacular religion of the modern west      *Horoscopes and History* John David North, 1986
