

Road to the Presidency

- **Today it is almost impossible to run a campaign for the presidency in less than two years**

Almost To The Presidency

Brown University

Almost To The Presidency:

The American Presidency Alan Brinkley, Davis Dyer, 2004 Coupling high quality scholarship with accessibility The American Presidency is a handy affordable text only paperback edition of the popular reference work The Reader's Companion to the American Presidency **The Myth of the Imperial Presidency** Dino P. Christenson, Douglas L. Kriner, 2020-07-13 Throughout American history presidents have shown a startling power to act independently of Congress and the courts On their own initiative presidents have taken the country to war abolished slavery shielded undocumented immigrants from deportation declared a national emergency at the border and more leading many to decry the rise of an imperial presidency But given the steep barriers that usually prevent Congress and the courts from formally checking unilateral power what stops presidents from going it alone even more aggressively The answer Dino P Christenson and Douglas L Kriner argue lies in the power of public opinion With robust empirical data and compelling case studies the authors reveal the extent to which domestic public opinion limits executive might Presidents are emboldened to pursue their own agendas when they enjoy strong public support and constrained when they don't since unilateral action risks inciting political pushback jeopardizing future initiatives and further eroding their political capital Although few Americans instinctively recoil against unilateralism Congress and the courts can sway the public's view via their criticism of unilateral policies Thus other branches can still check the executive branch through political means As long as presidents are concerned with public opinion Christenson and Kriner contend that fears of an imperial presidency are overblown

American Maelstrom Michael A. Cohen, 2016-04-21 American Maelstrom captures the full drama of the 1968 watershed election taking us to the source of the politics of division **Quest for the Presidency** Bob Riel, 2022-04 Quest for the Presidency is an engaging and at times amusing popular history of American presidential elections from 1789 to the present that offers insight into the impact past elections have on today's politics **Hubert Humphrey** Arnold A. Offner, 2018-08-21 One of the great liberal politicians of the twentieth century rediscovered in an important definitive biography Hubert Humphrey 1911-1978 was one of the great liberal leaders of postwar American politics yet because he never made it to the Oval Office he has been largely overlooked by biographers His career encompassed three well known high points the civil rights speech at the 1948 Democratic Convention that risked his political future his shepherding of the 1964 Civil Rights Act through the Senate and his near victory in the 1968 presidential election one of the angriest and most divisive in the country's history Historian Arnold A Offner has explored vast troves of archival records to recapture Humphrey's life giving us previously unknown details of the vice president's fractious relationship with Lyndon Johnson showing how Johnson colluded with Richard Nixon to deny Humphrey the presidency and describing the most neglected aspect of Humphrey's career his major legislative achievements after returning to the Senate in 1970 This definitive biography rediscovers one of America's great political figures **The Clinton Presidency and the Constitutional System** Rosanna Perotti, 2012-05-01

Presidential scholars former and current policymakers and a former president bring varied insights and analyses to consider the impact influence and legacy of the presidency of William Jefferson Clinton the New Democrat from Hope Arkansas In the eight years between 1993 and 2001 the Clinton White House presided over a booming economy that included a budget surplus in Clinton s second term oversaw the most significant welfare reform since the New Deal and wrestled with the challenge of developing a foreign policy vision for the post Cold War era Structurally the Clinton presidency expanded the office and responsibilities of the First Lady and the Vice President to an unprecedented degree prevailed in a budget battle with Congress that included two government shutdowns briefly employed a line item veto until the Supreme Court declared that power unconstitutional and endured the second impeachment of the chief executive in American history The evolution and consequences of the increased power held by modern presidents became sharply evident during the Clinton years In The Clinton Presidency and the Constitutional System based on the Eleventh Presidential Conference at Hofstra University readers are afforded a unique combination of scholarly analysis and the perspectives of former administration officials Students and scholars of the presidency will glean important understandings from the balanced judicious studies of the Clinton administration and their juxtaposition with firsthand recollections of some of the participants who defined and shaped those events

Public Papers of the Presidents of the United States United States. President,1997 Containing the public messages speeches and statements of the President 1956 1992

The American Presidency William G. Howell,2023-02-21 How institutions shape the American presidency This incisive undergraduate textbook emphasizes the institutional sources of presidential power and executive governance enabling students to think more clearly and systematically about the American presidency at a time when media coverage of the White House is awash in anecdotes and personalities William Howell offers unparalleled perspective on the world s most powerful office from its original design in the Constitution to its historical growth over time its elections and transitions to governance its interactions with Congress the courts and the federal bureaucracy and its persistent efforts to shape public policy Comprehensive in scope and rooted in the latest scholarship The American Presidency is the perfect guide for studying the presidency at a time of acute partisan polarization and popular anxiety about the health and well being of the republic Focuses on the institutional structures that presidents must navigate the incentives and opportunities that drive them and the constraints they routinely confront Shows how legislators judges bureaucrats the media and the broader public shape the contours and limits of presidential power Encourages students to view the institutional presidency as not just an object of study but a way of thinking about executive politics Highlights the lasting effects of important historical moments on the institutional presidency Enables students to grapple with enduring themes of power rules norms and organization that undergird democracy

Presidents and Political Thought David J. Siemers,2010-01-01 What did the president know and when did he know it takes on a whole new meaning in Presidents and Political Thought Though political philosophy is sometimes considered to be dry and abstract many of our

presidents have found usable ideas embedded within it In this first comparative study of presidents and political theory David Siemers examines how some of them have applied this specialized knowledge to their job Presidents and Political Thought explores the connection between philosophy and practical politics through a study of six American chief executives John Adams Thomas Jefferson James Madison Woodrow Wilson Franklin D Roosevelt and Bill Clinton Writing at the intersection of politics history and philosophy Siemers combines his extensive understanding of political philosophy with careful research and analysis of individual presidents to produce provocative and astute judgments about how their understanding of political theory affected their performance Each chapter examines a particular president s attitude about political theory the political theorists he read and admired and the ways in which he applied theory in his activities as president Viewing presidents through the lens of political theory enables Siemers to conclude that Madison and Adams have been significantly underrated Wilson is thought to have abandoned his theoretical viewpoint as president but actually he just possessed an unorthodox interpretation of his favorite thinker Edmund Burke Often thought to be so pragmatic or opportunistic that they lacked any convictions FDR and Clinton gained their orientations to politics from political theory These and other insights suggest that we cannot understand these presidencies without being more aware of the ideas the presidents brought to the office Siemers s study takes on special relevance as the United States experiences regime change and a possible party realignment because as he notes Barack Obama has read and learned from political theory too Avoiding much of the jargon that often accompanies political theory this book demonstrates the relevance of political theory in the real world chronicling both the challenges and potentially rich payoffs when presidents conceive of politics not just as a way to reward friends and punish enemies but as a means to realize principles Weekly Compilation of Presidential Documents ,1996

Almost To The Presidency Book Review: Unveiling the Magic of Language

In an electronic digital era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its capability to stir emotions, provoke thought, and instigate transformation is truly remarkable.
