Alpha To Omega The Life Times Of The Greek Alph:

Alpha to Omega Alexander Humez, 1981 This witty and intellectually adroit book about the Greek alphabet is a natural abecedarium At the same time it is a book about ancient Greek culture since alphabets like people bring their cultural baggage with them An abecedarian procedure moreover is ideally suited to the relaxed and browsing sampling the Humez brothers have designed To wit a series of glimpses of the Greek world and its impact on our own historical philosophical mathematical cosmological political These six words come to English from the Greek This is no coincidence we owe these concepts to the Greeks as well The six words cast long shadows Using them willy nilly you think like a Greek Their book is divided into twenty four sections one for each letter of the Greek alphabet plus a last section on the lost Greek letters The accompanying essays look at English words some common some esoteric all legitimate and current which come from Greek words beginning with the letter at hand and explore the aspects of Greek culture behind the borrowed words With a thoroughly relaxed elegance Alpha to Omega shows just how inevitably Greek those who use English really are *Building Bridges of Time, Places and People* J. Marc. Merrill, 2012-05 Mysteries associated with ancient Egypt are not confined to the pyramids of Giza For example consider these One Egyptian hieroglyph is patterned after a bird known as the jabiru another is an image of a saguaro cactus Both the jabiru and the saguaro are found only in the Western Hemisphere so how did they become hieroglyphs Tutankhamen is referred to as the boy king by Egyptologists Why then were statues found in the tomb portraits of a young woman Hatshepsut is said to have been a female pharaoh who reigned for 22 years but then disappeared from the scene What happened to her And why was her image expunged from the walls of temples Senenmut a favorite of Hatshepsut wrote that he had access to all the writings of the prophets Which prophets did he mean Why does the face of the mummy of Ramesses II not match the statues of this great pharaoh Also why did the embalmers remove the stomach and place the heart on the right side of the thorax And why were diced tobacco leaves from the Western Hemisphere used to line the chest cavity Why was Yuya supposedly the father of the great Queen Tiy buried with three coffins while his wife had only two Moreover why did the mask that covered his face along with the face on the innermost coffin look totally different from the mummy and from each other Death masks were found not just in Egypt but in Greece as well The most famous of these came from grave 5 at Mycenae Each eye of this gold mask has double eyelids In addition like the Sphinx at Giza and the Shroud of Turin the left eye is higher than the right and the mouth is not centered How can such similarities be explained Turning to Italy on the underside of the right wrist of the Prima Porta statue of Augustus there is the distinct impression of the head of a spike According to historians this statue depicts the first emperor of Rome but what if it is instead a portrait of a man who was crucified These mysteries along with many others are examined in detail and then convincingly explained in this first of two volumes to explore crucial links between Egypt Israel Greece and Italy *Building Bridges of Time, Places and People: Volume I* J. Building Bridges of Time, Places, and People: Volume II J. Marc. Merrill, 2012-06-28 From Chapter 5 By a quirk of fate says Darcie Conner Johnston the eruption of Mt Vesuvius in 79 AD caught Pompeii at a time of great spiritual change As a gateway south and east to Greece and Egypt and the Eurasian landmass beyond the city was heir to a panoply of faiths A host of foreign gods had begun to usurp the positions of the venerable Olympian deities and the imperial Roman pantheon Christians were likely to have been here as well though the evidence of their presence is sketchy Page 71 of Pompeii The Vanished City Besides the evidence that has already been presented more remains to demonstrate that once again the accepted historical point of view is incorrect For example This second volume of Building Bridges of Time Places and People presents the overwhelming evidence that some of the most prominent leaders of the New Testament Church left the lands of Judea and Galilee when war between Rome and the Jews seemed certain and they settled in Pompeii and Herculaneum These leaders included Simon Peter Paul Luke and John Mark the author of The Gospel of Mark They were accompanied by converts such as Cornelius the centurion who was the first Gentile to be baptized and by the mother of Christ This volume also investigates the town of Sepphoris in Galilee and makes a compelling case for the claim that the Messiah of the New Testament grew up there rather than in Nazareth his identity hidden until he began his ministry at the age of 30
