Alternating Worlds:

Alternating Worlds Gary Wolf, 2004-12 Graham Rohde is one of the most respected art and antique dealers of the twenty fourth century Son of an eminent scholar he is one of the period s leading art historians Rohde spends his time traveling across the Galaxy buying and selling rare and valuable objects After an antique is stolen from an isolated and forgotten planet he is hired to find the missing piece He soon discovers that the theft is only one incident in an interplanetary dispute that is mushrooming into a clash of civilizations A bitter struggle is erupting over the redefinition of humanity and it may determine the destiny of the Galaxy for millennia to come He watches as mankind vacillates between two antithetical conceptions of society and human nature On the one hand reaching for the summit of creativity and intellectual proficiency through ever greater accomplishments in arts and letters on the other the preplanned distribution of physical attributes intelligence and ideas among the population a world in which individual genius is banished from life As he faces the growing danger Rohde resolves to decipher the outstanding enigma of his era Why are people willing even eager to attain an existence without spontaneity without the free and unfettered evolution of the human spirit

Buckareff, Yujin Nagasawa, 2016 The concept of God according to traditional Judeo Christian Islamic theism minimally includes the following theses i There is one God ii God is an omniscient omnipotent and morally perfect agent iii God is the creator ex nihilo of the universe and the sustainer of all that exists and iv God is an immaterial substance that is ontologically distinct from the universe Proponents of alternative concepts of God such as pantheism panentheism religious anti realism developmental theism and religious naturalism exclude at least one of these claims A number of prominent philosophers and scientists have expressed sympathy with alternative concepts of the divine However voices raised in defense of these concepts tend not to be taken seriously in contemporary analytic philosophy of religion This volume aims to shed light on alternative concepts of God and to thoroughly consider their merits and demerits The contributors are leading analytic philosophers of religion including critics of these views as well as sympathizers This is the first contemporary edited collection featuring the work of analytic philosophers of religion covering such a wide range of alternative concepts of God *The Green Vision of Henry Ford and George Washington Carver* Quentin R.
