Alvin Plantinga:

Alvin Plantinga Deane-Peter Baker, 2007-06-18 Few thinkers have had as much impact on contemporary philosophy as has Alvin Plantinga. The work of this quintessential analytic philosopher has in many respects set the tone for the debate in the fields of modal metaphysics and epistemology and he is arguably the most important philosopher of religion of our time. In this volume a distinguished team of today's leading philosophers address the central aspects of Plantinga's philosophy: his views on natural theology, his responses to the problem of evil, his contributions to the field of modal metaphysics, the controversial evolutionary argument against naturalism, his model of epistemic warrant and his view of epistemic defeat and his recent work on mind/body dualism. Also included is an appendix containing Plantinga's often referred to but previously unpublished lecture notes entitled *Two Dozen or so Theistic Arguments* with a substantial preface to the appendix written by Plantinga specifically for this volume. Epistemology as Theology James K. Beilby, 2005 Locating Plantinga's most recent work in the context of his theological assumptions, his previous work on religious epistemology and the current debate over how knowledge should be characterized, Beilby's book offers a unique perspective on Plantinga's religious epistemology.

Reason, Metaphysics, and Mind Kelly James Clark, Michael Rea, 2012-02-09 Each of the essays in this volume engages with some particular aspect of philosopher Alvin Plantinga's views on metaphysics, epistemology or philosophy of religion.

Readings in Philosophy of Religion Linda Zagzebski, Timothy D. Miller, 2009-03-30 Comprised of readings from ancient to modern times, this volume offers a comprehensive introduction to the central questions of the philosophy of religion. Provides a history of the philosophy of religion from antiquity up to the twentieth century. Each section is preceded by extensive commentary written by the editors, followed by readings that are arranged chronologically. Crisp, Matthew Davidson, David Vander Laan, 2006-07-19 This volume was conceived as a Festschrift to surprise Alvin Plantinga on his 70th birthday That original plan was not entirely successful For one thing the day came and went well before the work was complete For another the project wasn't quite a surprise Plantinga caught wind of it though not of its details before the unveiling The occasion was marked however by a presentation of a projected table of contents and an early draft of the cover painting by Keith Lehrer Plantinga then saw the details and was quite taken aback that the editors and a few contributors had come to South Bend from as far Virginia Florida and California to celebrate Now we are pleased to offer the essays themselves The collection ranges widely over metaphysics and epistemology Its wingspan testifies to the breadth both of Plantinga's own work and of the audience that has valued it Some of the essays deal with ontology examining actualism presentism antirealism properties and artifacts Several essays in epistemology raise skeptical questions work through the implications of naturalism or intuitionism and engage Plantinga's own Reidian account of warrant Other contributions consider the bearing of philosophical ideas on the Christian faith of split brain cases on the doctrine of the Trinity for example and of materialism on the afterlife The contributors are friends colleagues and former students of Plantinga The editors thank all of them for their eager participation in this project *A Faithful Guide to Philosophy* Peter S.
