Akashic Records Past Lives And New Directions:

Akashic Records Robert Galen Chaney,1996 *The New Akashic Records* Cheryl Trine,2010 Trine presents an in depth yet easily understood history of the Akashic Records and uncovers the ancient connection to divine memory judgment and destiny as the Book of Life She reaches into Hinduism Buddhism and Tibetan Bn to understand the Akasha **The Akashic Records Made Easy** Sandra Anne Taylor,2018-07-17 A clear and simple guide to the incredible philosophy of the Akashic Records and the ways in which they can improve and transform our lives The Akashic Records are a spiritual library full of information about the world and everything in it every person and event past and present Accessing the Records can help us to heal the past get through present life challenges release blocks and answer questions about our future Internationally renowned spiritual teacher Sandra Anne Taylor brings an introductory guide to this fascinating philosophy and teaches the reader what the Akashic Records contain and how to access them how to travel the eternal timeline to investigate the past present and potential future how past lives are influencing us today and what we can do to rewrite those records how we can use the Akashic Records to find our purpose expand our talents and find greater success and joy in this life how to programme future events within the records of this life and in lifetimes to come This book was previously published as The Akashic Records Hay House Basics series **Past-Life and Karmic Tarot** Edain McCoy,2004 Unique tarot book that explores past lives and karma **The Akashic Experience** Ervin Laszlo,2009-02-12 Firsthand testimonies by 20 leaders in culture and science of their interactions with the Akashic field Provides important evidence for the authenticity of nonmaterial contact that human beings have with each other and with the cosmos Demonstrates that the increasing frequency and intensity of these experiences is evidence of a widespread spiritual resurgence Includes contributions by Alex Grey Stanislav Grof Stanley Krippner Swami Kriyananda Edgar Mitchell and others Knowing or feeling that we are all connected to each other and to the cosmos by more than our eyes and ears is not a new notion but one as old as humanity Traditional indigenous societies were fully aware of nonmaterial connections and incorporated them into their daily life The modern world however continues to dismiss and even deny these intangible links taking as real only that which is physically manifest or proved scientifically Consequently our mainstream culture is spiritually impoverished and the world we live in has become disenchanted In *The Akashic Experience* 20 leading authorities in fields such as psychiatry physics philosophy anthropology natural healing near death experience and spirituality offer firsthand accounts of interactions with a cosmic memory field that can transmit information to people without having to go through the senses Their experiences with the Akashic field are now validated and supported by evidence from cutting edge sciences that shows that there is a cosmic memory field that contains all information past present and future The increasing frequency and intensity of these Akashic experiences are an integral part of a large scale spiritual resurgence and evolution of human consciousness that is under way today **The Borders of Normal** Manuel Matas, M.D.,2017-08-10 DREAMS THAT COME TRUE TELEPATHY ESP VISIONS

PREMONITIONS NEAR DEATH AND OUT OF BODY EXPERIENCES Most of us have heard stories of these unusual phenomena as told by millions of people throughout history and across cultures Or perhaps we have experienced them ourselves and we are still grappling with their validity in a world of empirical science and psychiatry that deems anything unseen or spiritual as impossible weird or even disturbed The stigma surrounding the paranormal prevents us from exploring the possibility that there are perhaps events that occur outside the realm of human comprehension inoculating us against the lessons and spiritual significance these events might hold As an experienced psychiatrist Dr Manuel Matas is very familiar with the science of the human brain as well as the possibilities that exist beyond the known borders of consciousness He has never been a classic rationalist as he himself has experienced phenomena that defy logic and the explanations of Western medicine In *The Borders of Normal* Dr Matas reveals just how accepted and studied many of these phenomena are providing a compelling overview of influential thinkers who have over the years recognized events and experiences that fall outside the realm of current scientific thought As a proponent of a nuanced respectful approach that lies between belief and scepticism Dr Matas helps us to view paranormal experiences as normal and indeed endemic to the human species for it is in this space of the unknown that we may learn more about ourselves each other and the bodies and worlds that we inhabit

Science and the Reenchantment of the Cosmos Ervin Laszlo, 2006-01-12 Presents a revolutionary new theory that bridges the divide between science and spirituality Discloses the ramifications of non localized consciousness and how the physical world and spiritual experience are two aspects of the same reality Includes contributions from Jane Goodall Ed Mitchell Stanislav Grof Ralph Abraham and Christian de Quincy among others What scientists are now finding at the outermost frontiers of every field is overturning all the basic premises concerning the nature of matter and reality The universe is not a world of separate things and events but is a cosmos that is connected coherent and bears a profound resemblance to the visions held in the earliest spiritual traditions in which the physical world and spiritual experience were both aspects of the same reality and man and the universe were one The findings that justify this new vision of the underlying logic of the universe come from almost all of the empirical sciences physics cosmology the life sciences and consciousness research They explain how interactions lead to interconnections that produce instantaneous and multifaceted coherence what happens to one part also happens to the other parts and hence to the system as a whole The sense of sacred oneness experienced by our ancestors that was displaced by the unyielding material presumptions of modern science can be restored and humanity can once again feel at home in the universe

Energy Psychology Michael Mayer, Ph.D., 2011-06-14 Energy Psychology presents a comprehensive approach to healing that combines leading edge Western bodymind psychological methods with a broad system of ancient sacred traditions Incorporating Dr Mayer s integral approach called Bodymind Healing Psychotherapy Energy Psychology draws on Chinese medicine approaches including Qigong and acupressure self touch kabalistic processes methods drawn from ancient traditions of meditation and postural initiation and psycho mythological storytelling techniques

Drawing on thirty years of training in Tai Chi and Qigong Dr Michael Mayer shows how integrating the essences of these traditions and methods can restore vitality and give the average person self healing tools for physical and mental health Unlike the quick fix books on energy restoration this book uses timetested age old practices from sacred traditions in combination with well established clinical approaches Dr Mayer teaches readers bodymind healing methods to treat anxiety chronic pain addictions hypertension insomnia trauma and other prevalent conditions Written in a clear intelligible style Energy Psychology includes real life case studies that highlight the effectiveness of his techniques
