American Patroness Katherine Dugan,Karen E. Park,2024-01-02 A vital collection of interdisciplinary essays that illuminates the significance of Marian shrines and promises to teach scholars how to read them

for decades to come *American Patroness Marian Shrines and the Making of US Catholicism* is a collection of twelve essays that examine the historical and contemporary roles of Marian shrines in US Catholicism. The essays in this collection use historical ethnographic and comparative methods to explore how Catholics have used Marian devotion to make an imprint on the physical and religious landscape of the United States. Using the dynamic malleability of Marian shrines as a starting place for studying US Catholicism, each chapter reconsiders the American religious landscape from the perspective of a single shrine to Mary and asks: What does this shrine reveal about US Catholicism and about American religion? Each of the contributors in *American Patroness* examines why and how Marian shrines persist in the twenty-first century and subsequently uses that examination to re-read contemporary US Catholicism. Because shrines are not neutral spaces, they reflect and shape the elastic yet strict boundaries of what counts as Catholic identity and who controls prayer practices. The studies in this collection also shed light on the contested dynamics of these holy sites. *American Patroness* demonstrates that Marian shrines continue to be places where an American Catholic identity is continuously worked on; negotiations about power occur and Marian relationships are fostered and nurtured in spaces that are simultaneously public and intimate.

Writing Our Communities Dave Winter, Sarah Robbins, 2005 *Asian Americans and the Media* Kent A. Ono, Vincent N. Pham, 2019-12-18 *Asian Americans and the Media* provides a concise, thoughtful, critical, and cultural studies analysis of U.S. media representations of Asian Americans. The book also explores ways Asian Americans have resisted, responded to, and conceptualized the terrain of challenge and resistance to those representations, often through their own media productions. In this engaging and accessible book, Ono and Pham summarize key scholarship on Asian American media as well as lay theoretical groundwork to help students, scholars, and other interested readers understand historical and contemporary media representations of Asian Americans in traditional media, including print, film, music, radio, and television, as well as in newer media, primarily internet-situated. Since Asian Americans had little control over their representation in early U.S. media, historically dominant white society largely constructed Asian American media representations. In this context, the book draws attention to recurring patterns in media representation as well as responses by Asian Americans. Today, Asian Americans are creating complex, sophisticated, and imaginative self-portraits within U.S. media, often equipped with powerful information and education about Asian Americans. Throughout the book, it suggests media representations are best understood within historical, cultural, political, and social contexts and envisions an even more active role in media for Asian Americans in the future. *Asian Americans and the Media* will be an ideal text for all students taking courses on Asian American Studies, Minorities and the Media, and Race and Ethnic Studies.
