Envrionment for Securing Sustainable Small-scale Fisheries Food and Agriculture Organization of the United Nations, 2024-05-13 The project Creating an enabling environment for securing sustainable small scale fisheries GCP GLO 965 SWE funded by the Swedish International Development Cooperation Agency SIDA supports the implementation of the Voluntary Guidelines for Securing Sustainable Small Scale Fisheries in the Context of Food Security and Poverty Eradication SSF Guidelines Author It does so by inter alia improving relevant legal frameworks applicable to small scale fisheries and reducing marginalization of small scale fisheries stakeholders in decision making processes Author The project works with a wide range of stakeholders ranging from small scale fishing communities and organizations to governments nongovernmental organizations NGOs and academia in both marine and inland waters Author The project initiated in December 2018 was designed under the FAO Umbrella Programme for the Promotion and Application of the SSF Guidelines PGM MUL 2015 2020 SSF Enhancing the contribution of small scale fisheries to food security and sustainable livelihoods Author Activities under the project first started in Cabo Verde Costa Rica C te d Ivoire Madagascar Myanmar Namibia Oman Philippines Senegal and United Republic of Tanzania Author In subsequent phases of the project support was further extended upon ad hoc requests to other countries such as Mozambique and to a number of small scale fisheries organizations

civil society organizations CSOs and NGOs Author The project fosters synergies with the project implementing the SSF Guidelines for gender equitable and climate resilient food systems and livelihoods supported through the Norwegian Agency for Development Cooperation Norad Author A workshop on this project with project countries and partners brought together people to share experiences and lessons learned from the project Author The workshop which took place in Rome Italy from 14 to 16 November 2023 hosted discussions on the additional followup support that is required to further facilitate the implementation of the SSF Guidelines at national regional and global level hence contributing to a more sustainable small scale fisheries sector Author **Momentum** ,1995-02 **Working in a Survival School** Lee Del Col,Garth Stahl,2023-05-31 Working in a Survival School documents how global educational policies trickle down and influence school cultures and the lives of educators and educational leaders The research traces the everyday work and experience of educators within an all boys Catholic college suffering an unprecedented decline in enrolment numbers In short it was a school in survival mode Drawing on Dorothy Smith s scholarship on Institutional Ethnography the authors document how the school operated and how its efforts to survive influenced the daily work of educators Institutional ethnography reveals the school as a bounded space subject to a variety of competing local and translocal forces that are historical political and economic in nature Exploring the discursive and material effects of policy on both the work and identities of educators the authors illustrate how the everyday experience of being an educator is shaped by marketisation and how leaders engage in stratagems to promote the school as a vehicle of educational excellence and quality to lure clientele Building on existing scholarship in educational policy studies and new public management Working in a Survival School considers how the global marketisation of education systems is experienced in one school fighting to survive This book is of interest to educators school leaders and academics interested in policy enactment Teacher to Teacher Eleanor Ruth Duckworth,1997-08-22 Thirteen teachers join with renowned educator Eleanor Duckworth in this engaging account of a year long project in which they learned from each other to become better teachers Teacher to Teacher will have wide appeal to teachers at all levels since it deals with issues that concern day to day life Here teachers talk with one another about their students Kevin is by far the brightest student in the class Not only does he refuse to do any work he attempts to disrupt other people and gain attention Here too they share stories about themselves like Elissa who chose to tell her class that she is diagnosed with a life threatening disease And just as important they share triumphs like that of a teacher s extraordinary success with boys serving time in a correctional institute A striking presentation of teachers thinking about central current issues this book will enrich everyone s understanding of what it means to be a teacher Resources in Education ,2001 **Creating Safe and Supportive Learning Environments** Emily S. Fisher,Karen Komosa-Hawkins,2013-04-17 The importance of creating safe spaces for lesbian gay bisexual transgender and questioning LGBTQ students in the school environment cannot be overstated It is one of the most prominent issues facing school professionals today and its success has lasting positive effects on the

entire student body Drawing on the expertise of researchers and practitioners *Creating Safe and Supportive Learning Environments* provides a comprehensive examination of the topics most relevant for school professionals The first section lays out the theoretical foundation and background school professionals need to understand the social and political trends that impact LGBTQ individuals the development of sexual orientation and gender identity risk and resilience factors and the intersection of LGBTQ identity with other aspects of diversity The second section explores topics critical for the development of safe supportive school environments including understanding legal and ethical mandates training school personnel addressing bullying and harassment and developing inclusive classrooms Special topics related to counseling LGBTQ students supporting families of LGBTQ students becoming an ally and advocate in the schools and connecting with community resources are also covered CE credit is available to purchasers of this book at www.mensanapublications.com

Climate and Health Education: Defining the Needs of Society in a Changing Climate Cecilia Sorensen,Gaurab Basu,Lisa H. Patel,Arianne Teherani,2023-11-16 The adverse effects of climate change are now apparent and present urgent and complex challenges to human health and health systems globally There is an imperative for quick action on many fronts to recognize and respond to climate health threats prevent climate change at its source by reducing greenhouse gas emissions support greener systems throughout the economy including healthcare understand the health co benefits of adaptation and mitigation and communicate effectively about these issues Climate change is intertwined with historical and structural inequities and effective solutions must actively improve health equity To meaningfully address these deep and interconnected issues there is a growing imperative across the educational landscape to move beyond existing constraints toward new ways of thinking and learning Many have recognized that we must create societal systems that account for the health of all people now and into the future while simultaneously preserving and improving the environment on which our life depends Such transformations rest on the skills knowledge values and attitudes of the workforce not just in health and health care but within all sectors However despite the health crisis of climate change at our doorstep development of climate and health curricula is nascent although is a growing consideration of leaders globally Because the health impacts from climate and planetary change are so myriad and intertwined sectors must work together like never before to move beyond existing silos of practice to a shared landscape and vision in practice but first in education **The 2003 Presidential Awardees for**

The Handbook of Educational Theories Beverly Irby,Genevieve H. Brown,Rafael Lara-Alecio,Dr. Shirley A. Jackson,2013-03-01 Although educational theories are presented in a variety of textbooks and in some discipline specific handbooks and encyclopedias no publication exists which serves as a comprehensive consolidated collection of the most influential and most frequently quoted and consulted theories There is a need to put such theories into a single easily accessible volume A unique feature of the Handbook is the way in which it conveys the theories The organization of the chapters within each section makes the volume an easy to use and understandable reference tool as researchers and practitioners seek theories to guide their research and practice and as they develop theoretical frameworks In addition to the traditional theories presented the Handbook includes emerging theories for the 21st Century as well as presenting practical examples of the use of these theories in research from dissertations and published articles An appendix which indicates which theories have instruments associated with them and where those instruments can be found is also included The Handbook consists of 12 sections Section I provides the introduction with a focus on what constitutes good theory as well as

how theory guides research and practice The remaining sections address Philosophical Educational Constructs Learning Theory Instructional Theory Curriculum theory Literacy and Language Acquisition Theory Counseling Theory Moral Development Theory Classroom Management Theory Assessment Theory Organizational Theory and Leadership Management Theory Each section consists of an overview written by the section editor of the general theoretical concepts to be addressed by the chapter authors Each chapter within the section will include a a description of the theory with goals assumptions and aspects particular to the theory b the original development of and interactions of the theory c validation of the theory d generalizability of the theory across cultures ethnicities and genders e the use and application of the theory f critiques of the theory g any instruments associated with the theory and h two to five particular studies exemplifying particular theories as individuals have used them in theoretical framework of dissertations or published articles and be written by the original theorist or prominent contributors to the theory The Handbook is intended for graduate students enrolled in research courses or completing theses and dissertations Additionally professors of all educational disciplines in the social sciences would be an interested audience There is also potential use of the text as administrators counselors and teachers in schools use theory to guide practice As more inquiry is being promoted among school leaders this book has more meaning for practitioners

Creative Music Making at Your Fingertips Gena R. Greher, Suzanne L. Burton, 2021 Students are drawn to mobile technologies such as iPads and smartphones because of the sheer endless possibilities of the digital worlds

they hold But how can their potential for stimulating the imagination be effectively used in the music classroom to support students development of musical thinking Countering voices that see digital technologies as a threat to traditional forms of music making and music education this collection explores the many ways in which hand held devices can be used to promote student learning and provides teachers with guidance on making them a vital presence in their own classrooms Creative Music Making at Your Fingertips features 11 chapters by music education scholars and practitioners that provide tried and true strategies for using mobile devices in a variety of contexts from general music education to ensembles and from K 12 to college classrooms Drawing on their own experiences with bringing mobile devices and different music apps into the classroom contributors show how these technologies can be turned into tools for teaching performance improvisation and composition Their practical advice on how pedagogy and mobile technologies can be aligned to increase students creative engagement with music and help them realize their musical potential makes this book an invaluable resource for music educators who want to be at the forefront of pedagogical transformations made possible by 21st century technologies

Research in Education ,1974 *How Black and Working Class Children Are Deprived of Basic Education in Canada*
Bairu Sium,2014-04-03 This book is the culmination of twenty four years of research It explores the thematic intersections of race class immigration and the potential of building student centered classrooms Of course the building of a truly student centered is itself a slow and contested process Over the years progressive changes towards more inclusive education made by some governments were dismantled by others and have left disadvantaged children where they were before the study was launched In the meantime the system has perfected the process of streaming minority children to dead end courses that betray the social and economic mobility advertised to them This book examines the moments and positions of educational betrayal in which racialized and working class students disproportionately find themselves For many at that point the only option is to drop out of school and engage in the drug trade or other lifestyles that put them at further risk This is a longitudinal study of a kind with respect to reform and changes retained in education It started with eight months observation of a split level grade five and six classroom in September 1986 That was instrumental in identifying the uphill battle that black working class and new immigrant children and their parents were facing to secure the education they deserved Through continued reviews observation and follow up interviews change or lack of it was traced The results call for urgent overhaul of the way education is provided to all children The book ends with suggestions to effect change Starting Small
Lauren Madden,2025-04-01 Many teachers leverage their assets to adopt changes using small but meaningful changes that go beyond box checking and encourage authentic learning and engagement This book celebrates teachers small steps by sharing examples of these excellent small changes
