papers presented were carefully reviewed and selected from numerous submissions The papers are organized in the following topical sections new methods in design science research recent developments in inductive research methods emerging themes in interpretive case study research new ideas in positivist research and innovative trends in information systems research

Regulating Hate Speech Created by Generative AI Jay Liebowitz,2024-08-02 Regulating Hate Speech Created by Generative AI explores the new hybrid space of Human Machine Interaction HMI in which hate speech is represented and computed through algorithms and AI generative systems The book is exploratory because there are still many problem solving challenges to be faced It is also innovative because it is not assuming that solutions lie only in technological advancements but on a broader scale In this sense large language models can and are being considered from a holistic view i e from the different dimensions and layers of regulatory and legal governance Highlights of the book include Generative AI and social engines of hate An introduction to generative Artificial Intelligence application trends and ethics The mechanics and validation of generative AI outcomes An evaluation of Generative AI for hate speech detection Best practices and key considerations for AI regulation Using GenAI capabilities for early detection of threats in the digital environment This book is a hard look at ways to regulate generative AI to reduce online hate and secure justice in a digital environment Featuring research and offering practical guidelines the book examines guidelines for regulating generative AI models so they do not contribute to online hate disinformation and imagery

Embedding Evidence-Based Practice in Speech and Language Therapy Hazel Roddam,Jemma Skeat,2010-01-29 Like all health professionals speech and language therapists SLTs need to keep themselves up to date with the research evidence base that is relevant to their field of practice and be able to show how this contributes to their clinical decision making However it is not always clear to practitioners how evidence based practice EBP can be properly embedded in their day to day activities In this valuable book Hazel Roddam and Jemma Skeat present a wealth of instructive examples by SLT contributors from around the world showing how clinicians educators and researchers have risen to the EBP challenge Embedding evidence based practice in speech and language therapy showcases the creative ways that SLTs are developing knowledge and skills for EBP creating contexts that support the use of evidence in practice and working towards making evidence easily accessible and usable It includes real life examples of how SLTs have encountered a clinical problem or situation and have accessed and used the evidence within their day to day practice The contributors come from a wide range of work settings from services situated within large organizations to those in independent practice and represent a range of clinical areas from paediatric to adult and across speech language voice fluency Augmentative and Alternative Communication AAC and dysphagia This book is written for an audience of clinical practitioners at any stage of their career and is additionally a valuable resource for SLT students and lecturers

Prioritising Business Processes Jens Ohlsson,Shengnan Han,2017-11-08 This book addresses business process prioritisation a problem in Business Process Management research that is often ill structured and complex The book

introduces and describes the Prioritisation and Categorisation Method PCM a novel approach well aligned with today's business needs and climate. It embraces an explorative approach to facilitating process innovation and designing new processes in dynamic environments. Three classic theories are employed as the basis for PCM and summarised here: Ackhoff's interactive planning, Winograd and Flores network of commitments and Simon's bounded rationality. In addition, the book features a tutorial on a web-based tool that facilitates the application of PCM together with two industry case studies that illustrate the method in practice and demonstrate its value.

Qualitative Approaches to the Social Psychology of Populism Inari Sakki, 2025-01-24. This edited volume presents a social psychological exploration of populism and provides a unique qualitative understanding of the phenomenon's appeal, bringing together an international mix of experts to interrogate populist attraction worldwide. Featuring contributions from Finland, Greece, and Switzerland, the book offers nuanced theoretical, methodological, and empirical approaches for understanding populism, with chapters investigating topics such as populist communication, lay discourse, social representations of the elite and the people, and the mobilisation of young people. Unmasking the persuasive appeal of populism, the book provides examples of qualitative approaches within social, cultural, and political psychology. It draws from established theoretical traditions such as social representations theory and social identity theory, as well as critical discursive approaches, to demonstrate how to study complex relational phenomena such as populism. With its novel inclusion of innovative qualitative methods for examining the social psychology of populism, providing a useful toolkit for qualitative research across various societal and political topics, this book will appeal to scholars, postgraduate students, and researchers studying social and political psychology, communication, qualitative research methods, and political behaviour more broadly. The Open Access version of this book is available at www.taylorfrancis.com and has been made available under a Creative Commons Attribution Non-Commercial No Derivatives (CC BY-NC-ND 4.0) license.

States, Firms, and their Legal Fictions Melissa J. Durkee, 2024-03-07. Corporations and states are creatures of law that claim rights, trade roles, and avoid responsibility based on legal concepts in international and domestic law. Using the concept of attribution as a touchstone, this cross-disciplinary book explores the law's diverse ways of constructing the identities and responsibilities of firms and states.

The Handbook of Language and Speech Disorders Nicole Müller, 2012-09-17. The Handbook of Speech and Language Disorders presents a comprehensive survey of the latest research in communication disorders. Contributions from leading experts explore current issues, landmark studies, and the main topics in the field and include relevant information on analytical methods and assessment. A series of foundational chapters covers a variety of important general principles, irrespective of specific disorders. These chapters focus on such topics as classification, diversity, considerations of intelligibility, the impact of genetic syndromes, and principles of assessment and intervention. Other chapters cover a wide range of language, speech, and cognitive/intellectual disorders.

Artificial Intelligence and Speech Technology Amita Dev, Arun Sharma, S. S. Agrawal, Ritu Rani, 2024-11-23. This two-volume set (CCIS 2267 and 2268) constitutes the

refereed proceedings of 5th International Conference on Artificial Intelligence and Speech Technology AIST 2023 held in Delhi India during December 26 27 2023 The 71 papers presented in two volumes were carefully reviewed and selected from 235 submissions Part I focuses on Speech Technology using AI and Part II focuses on AI innovations for CV and NLP These volumes are organized in the following topical sections Part I Trends and Applications in Speech Processing Recent Trends in Speech and NLP Emerging trends in Speech Processing Advances in Computational Linguistics and NLP Part II Recent Trends in Machine Learning and Deep Learning Analysis using Hybrid technologies with Artificial Intelligence Exploring New Horizons in Computer Vision Research Applications of Machine Learning and Deep Learning

keywords nuclear transformation unstable nuclei primary transformation β processes α emission processes of transformations overview to understand the origin and character of individual radio active emissions accompanying nuclear transformation processes we first need to answer three questions what is an unstable nucleus

chemistry nuclear transformations answers - Mar 06 2022

chemistry nuclear transformations answers recognizing the way ways to acquire this books chemistry nuclear transformations answers is additionally useful you have remained in right site to begin getting this info get the chemistry nuclear transformations answers connect that we meet the expense of here and check out the link

nuclear transformation physics ppt slideshare - Jan 04 2022

aug 9 2014 nuclear chemistry augar effect internal conversion isomerism eswaran murugesan 2 6k views 8 slides

radioactivity damion lawrence 3 8k views 34 slides scintillation counter and semiconductor detector sri ramakrishna mission vidyalaya college of arts and science coimbatore 20 6k views 20 slides radioactivity shafie sofian 26 8k views

chemistry chapter 25 section 2 nuclear transformations quizlet - Jul 22 2023

study with quizlet and memorize flashcards containing terms like attractive force that acts between all nuclear particles that are extremely close together such as protons and neutrons in a nucleus stability of a nucleus depends on the band of stability and more

nuclear transformation nuclear fission bomb and nuclear - May 08 2022

jan 10 2017 nuclear transformation nuclear transformation reactions are nuclear reactions in which the nucleus of an element called target is bombarded with an accelerated particle called projectile bomb to transform the target into a new nucleus having a new chemical physical properties the projectiles bombs can be accelerated by using

nuclear energy questions practice questions of nuclear - Apr 07 2022

transformations can occur as a result of nuclear decay of radioactive isotopes or neutron capture neither procedure requires a change in the atom's element an atom gets transmuted into an atom of a different element when the number of protons in it is changed

10 fundamentals of nuclear chemistry worksheet - Apr 19 2023

nuclear chemistry is the subfield of chemistry dealing with radioactivity nuclear processes such as nuclear transmutation and nuclear properties it is the chemistry of radioactive elements such as the actinides radium and radon together with the chemistry associated with equipment such as nuclear reactors which are designed to perform

nuclear reactions types of radiations chemistry byju s - Sep 12 2022

unlike a normal chemical reaction that forms molecules nuclear reactions result in the transformation of one element into another this property of nuclear reactions is used in nuclear power plants to gather nuclear energy the three common types of radiations are explained below

answer key chapter 21 chemistry 2e openstax - Mar 18 2023

a nuclear reactor consists of the following a nuclear fuel a fissionable isotope must be present in large enough quantities to sustain a controlled chain reaction the radioactive isotope is contained in tubes called fuel rods a moderator

the basics of nuclear chemistry and radiochemistry an - Nov 14 2022

apr 3 2019 in order to understand the origin and character of individual radioactive emissions accompanying nuclear transformation processes we first need to answer three questions what is an unstable nucleus

nuclear transmutation chemistry socratic - Jun 21 2023

transmutation the changing of one chemical element into another transmutation involves a change in the nucleus or core of an atom and is therefore a nuclear reaction transformations may result from nuclear decay of radioactive isotopes or they can result from neutron capture

20 3 nuclear transformations chemistry libretexts - May 20 2023

in all accelerators the particles move in a vacuum to avoid collisions with gas molecules when neutrons are required for transmutation reactions they are usually obtained from radioactive decay reactions or from various nuclear reactions occurring in nuclear reactors

8 1 introduction to nuclear chemistry chemistry libretexts - Feb 17 2023

nuclear reaction a nuclear reaction is a process in which two nuclei or a nucleus and an external subatomic particle collide to produce one or more new nuclides the nuclear reaction is a reaction that involves nucleoids the reactant nucleoid called the parent nucleoid usually transforms into a different nucleoid called the daughter

nystce chemistry nuclear transformation chapter exam - Jun 09 2022

test and improve your knowledge of nystce chemistry nuclear transformation with fun multiple choice exams you can take online with study com

chapter 25 nuclear chemistry 25 2 nuclear transformations - Dec 15 2022

chemistry 12th edition answers to chapter 25 nuclear chemistry 25 2 nuclear transformations sample problem 25 1 page 884

9 including work step by step written by community members like you textbook authors wilbraham isbn 10 0132525763 isbn 13 978 0 13252 576 3 publisher prentice hall

nuclear transformation an overview sciencedirect topics - Jul 10 2022

nuclear transformation this nuclear transformation the change of a neutron to a proton is accompanied by the emission of a particle with negative electric charge namely an electron a beta particle from encyclopedia of analytical science second edition 2005 add to

nuclear transformations section review answers data northitalia - Feb 05 2022

nuclear transformations section review answers 1 nuclear transformations section review answers nuclear transformation yahoo answers section 25 1 nuclear radiation pages 799 802 staffweb srk12 org energy review answer key loudoun county public schools chapter 25 nuclear chemistry 25 2 nuclear

nuclear transmutation wikipedia - Jan 16 2023

nuclear transmutation is the conversion of one chemical element or an isotope into another chemical element 1 nuclear transmutation occurs in any process where the number of protons or neutrons in the nucleus of an atom is changed a transmutation can be achieved either by nuclear reactions in which an outside particle reacts with a nucleus

nuclear chemistry questions practice questions of nuclear chemistry - Aug 11 2022

nuclear chemistry questions and answers practice questions mcqs pyqs ncrt questions question bank class 11 and class 12 questions ncrt exemplar questions and pdf questions with answers solutions explanations ncrt reference and difficulty level in nuclear chemistry

7 e nuclear chemistry practice problems with answers - Sep 24 2023

jan 10 2021 write a balanced equation for each of the following nuclear reactions bismuth 212 decays into polonium 212 beryllium 8 and a positron are produced by the decay of an unstable nucleus neptunium 239 forms from the reaction of uranium 238 with a neutron and then spontaneously converts into plutonium 239
