Fermin Roland Schramm e o princípio da responsabilidade de Hans Jonas *Uma abordagem bioética sobre os direitos reprodutivos* Evandro Alencar, 2022-11-22 Em Uma abordagem bioética sobre os direitos reprodutivos discute-se as pautas relacionadas à bioética com o intuito de popularizar o tema e com isso demonstrar a importância de sua perspectiva crítica e de sua capacidade de promover discussões aprofundadas. Apresentamos uma tentativa de superar a visão que estigmatiza e marginaliza as pessoas com deficiência possibilitando uma reflexão de como este preconceito ainda está naturalizado em nossa sociedade que ainda trata e reproduz a deficiência como um problema individual e com muitos estereótipos de doença. Esta publicação é destinada a estudantes, pesquisadores e interessados pelo debate bioético e protege as pessoas com deficiência no Brasil.

Bioética à luz da reflexão cristã católica Geni Maria Hoss, 2018-05-03 Para discutir sobre a bioética e esclarecer algumas das questões mais polêmicas que costumam surgir nessa esfera como a eutanásia, as terapias com células-tronco e os transplantes, esta obra demonstra como os princípios da fé cristã católica podem balizar os avanços da biotecnologia guiando os profissionais dessa área por caminhos que respeitem a vida e a dignidade humana.

Bioética social e ambiental Anor Sganzerla, Alberto Paulo Neto, Carlos Manuel Costa Gomes, 2023-07-10 A bioética global de Potter se concretiza na bioética ambiental e social e com isso o bioeticista reconhece a interdependência da saúde da natureza com a saúde humana e social, sendo que a degradação de uma das partes compromete a saúde da outra parte. Em outras palavras, com a degradação do ambiente natural degradam-se também as condições de vida humana, o próprio ser humano, seus valores e princípios, sua identidade cultural e sua história. E com a degradação da humanidade deteriora-se a capacidade humana de avaliar as próprias ações e assegurar a existência futura com qualidade de vida. Ao propor um holismo ético e ecológico como alternativa de saúde planetária, Potter reconhece primeiramente com o holismo ético que o ser humano precisa exercer sua capacidade crítica de avaliar o modelo de desenvolvimento econômico, o papel do ser humano dentro da biosfera e os próprios fins da existência humana. Quanto ao holismo ecológico, conclama a humanidade a viver uma relação de respeito, de cuidado, de complementaridade e de interdependência com a natureza. Desse modo, a bioética global de Potter representa uma utopia coletiva, humanidade e uma alternativa de resistência e de enfrentamento às ideias individualistas do mundo contemporâneo que ameaça o ser humano, a natureza e o futuro da humanidade.

Bioética Social e Mistanásia Alexandre Massariol, 2021-06-02 A Bioética a partir do contexto latino-americano torna-se o locus para refletir acerca de questões cotidianas e emergentes que envilecem a vida nas suas mais variadas dimensões. Ancorado na Bioética Social, cuja epistemologia tem sua fundamentação na realidade fática, apresenta-se uma das formas de terminalidade da vida pouco perquirida no cenário acadêmico, como também invisível aos olhos da sociedade e dos poderes públicos. Trata-se da mistanásia, como morte antecipada e eventualmente revelada tanto em seu aspecto biológico como biográfico. Essas mortes que aviltam a dignidade da pessoa podem ser mitigadas caso a máquina estatal, por meio de políticas públicas, assegure a efetivação de direitos fundamentais insculpidos no ordenamento jurídico. O fulcro propositivo do texto é o neologismo mistanásia.

revelado nas teratológicas vidas desperdiçadas seja radicado e refletido faticamente de forma sistemática em textos acadêmicos contendo das disciplinas e programas afins como também demonstrar que o Estado tem parcela de culpa na ocorrência dessas mortes que foram criadas e podem ser removidas sobretudo na população que se encontra em situação de rua. Como também conscientes das mortes evitáveis sofridas e indignas o ser instrumento para enaltecer e defender a vida que deve ser digna desde o seu alvorecer até o seu termo natural mas que se encontra exposta e vilipendiada precisamente nas pessoas que sobrevivem nas ruas.

Tratado Brasileiro sobre Direito Fundamental a Morte Digna Adriano Marteleto Godinho, George Salomão Leite, Luciana Dadalto, 2018-01-01 A morte com dignidade um dos temas mais controversos em qualquer sociedade democrática e plural. De fato a morte ainda um tabu na generalidade das sociedades civilizadas pelo que os médicos e outros profissionais de saúde não estão devidamente preparados para lidar com o fenômeno da inevitabilidade da morte. Mas essencial abordar esta problemática sem qualquer reserva de natureza intelectual e com o objetivo último de proporcionar ao doente na terminalidade da vida paz interior e dignidade pessoal. Esta obra *Tratado Brasileiro sobre Direito Fundamental a uma Morte Digna* contribui decisivamente para este debate e sobretudo para a construção de uma sociedade mais justa mais participada e mais inclusiva.

Biodireito, Bioética e Filosofia em Debate Carlos Eduardo Nicoletti Camillo, Paulo Fraga da Silva, 2020-11-16 O século XXI vem se consagrando como o século da Biotecnologia onde o que era considerado ficção científica agora constitui a realidade. Da inteligência artificial edição de genes humanos passando pela fabricação de órgãos e a busca da imortalidade vivemos uma revolução. Empresas nas mais diversas áreas tecnológicas se uniram e passaram a investir bilhões de dólares em alguns setores como a medicina genética pela qual os cientistas prometem transformar o futuro da espécie humana. Tudo indica que não há limites a este poder nem tampouco ao promissor mercado que com ele se desvela. Do ponto de vista da Bioética foram elaborados diferentes documentos internacionais que consagravam os valores que a humanidade queria ver resguardados mas que se mostraram frágeis diante do poder que a biotecnologia foi capaz de originar. Assim o estabelecimento não apenas de diretrizes técnicas como também de limites jurídicos tornou-se fundamental. O Biodireito quarta dimensão dos direitos humanos constitui a instância normativa adequada a informar as fronteiras a serem respeitadas quando o progresso científico representar um risco não apenas dignidade humana como também
