Hilton L. Anderson,2011-11-03 HUMANITY HAS REACHED A DANGEROUS TIPPING POINT of potential self destruction because our technical and scientific achievements have out distanced our spiritual realization We must develop a new understanding of who we are centered on the realization of oneness with all of creation This realization can only be achieved by the combination and integration of rational logical thinking and mystical internal awareness Humanity has now reached the point where the two separate understandings of reality must be combined into a holistic understanding of existence Peace Is Oneness addresses the dangers of accepting the separation that results from our egos along with the ways that separation can be healed Both science and evolutionary religion define the same reality We must awaken from our dream state of separate selves and realize the oneness that is our true self of unconditional love Western culture has largely lost most of its connection to myth because of the dominance of material science We have what the ancient Greeks called logos but we have lost what they called mythos This is about to change as science and religion begin to define reality in the same way Will it happen quickly enough to save us from our own self destruction Your individual consciousness is essential in determining the outcome **An Alternative Medicine Definitive Guide to Headaches** Robert D.
